

ICT Infrastructure

KVS has implemented comprehensive strategies to promote the effective use of information and communication technology (ICT). This includes the establishment of new computer laboratories and the acquisition of additional computers. As a result, the Pupil PC ratio has experienced a significant enhancement, decreasing from 53:1 to 18:1 as of March 2024. KVS maintains a strong commitment to continually improve its computer infrastructure and further optimize the Pupil PC ratio. These efforts are driven by the objective of delivering an enhanced educational experience for our students.

Sr.No.	Description	Number	Remark
1	Total No of Computers	40	
2	Computer Lab	01	
3	Principal Chamber	01	
4	Office	01	
5	Exam	02	
6	CMP	02	
7	No. of LCD	2	
8	Internet Connection	100 Mbps	
9	Projector	22	Asset of Shift 1 is utilized for students of Shift2
10	Magic Box	1	Not working
11	e-Classrooms	22	Asset of Shift 1 is utilized for students of Shift2
