

COMMUNITY OUTREACH PROGRAMME

“I cannot do all the good that the world needs;
But the world needs all the good that I can do”

Outreach programs sensitize students towards their duties and responsibilities within the society and community. It also serves the citizenship training goal of education through the development of various skills like soft skills, leadership skills, and team-building skills. Most importantly, the aspiring teachers become aware, compassionate, and benevolent citizens who believe in the larger good of society.

Our outreach/extension activities truly help us move closer to our vision and mission of nurturing teacher professionals with positive attitudes and values, who excel in teaching, learning, and research and who can serve as catalysts to create a just and caring society.
