

Day 1 – Know Our World

- Define geography and explain its importance.
- Name the seven continents and five oceans.
- Draw or paste a world map and label all the continents and oceans.

Day 2 – The Seven Continents

- Write five interesting facts about each continent.
- Arrange the continents from largest to smallest by area.
- Identify the largest and smallest continents.

Day 3 – The Five Oceans

- Name the five oceans of the world.
- Write two facts about each ocean.
- Draw a simple diagram showing the five oceans and label them.

Day 4 – Physical Features of the Earth

- Explain the meaning of mountains, plains and plateaus.
- Give two examples of each landform.
- Draw and label a diagram showing these three landforms.

Day 5 – Climate and Weather

- Differentiate between weather and climate.
- Name the major climatic zones of the world.
- Write five sentences about how climate affects people's lives.

Day 6 – Natural Vegetation and Wildlife

- Explain natural vegetation and wildlife.
- Name four types of natural vegetation found in the world.
- Write about any three endangered animals and suggest ways to protect them.

Day 7 – Rivers and Important Geographical Features

- Name five major rivers of the world and the continents where they are found.
- Write three ways in which rivers are useful to humans.
- Mark any five major rivers on a world map.

Day 8 – Countries and Capitals

- Make a table of ten countries, their capitals and continents.
- Identify India on a world map.
- Name five countries that share a land border with India.

Day 9 – Our Earth, Our Responsibility

- Explain the meaning of environmental conservation.
- List five causes of environmental pollution.
- Prepare a colourful poster on **“Save Earth, Save Life.”**

Day 10 – Geography Quiz and Creative Project

- Prepare 10 multiple-choice questions from the chapter with answers.
- Write a short paragraph (100–120 words) on **“The Wonderful World We Live In.”**
- Create a mini world geography scrapbook using pictures of continents, oceans, landforms and famous natural wonders.
