Mother Dairy

My self Shikha Tostad from class 6th very much delighted to share my experience of mother dairy after of all I would like to extend my heartfelt thanks to my school Principal mam for organizing such a nice trip to mother dairy journey by bus at 9:00 am and arrived at mother dairy factory around 9:30 am. We entered by main gate of mother dairy quite an beautiful building there milk pasteurized according to expert staffs of mother dairy. First of all milk reached at the plant it undergoes with various process before it reaches to the customer process steps including:- filtration, Clarification, pasteurization, chilling, filling, packing and storage after this session they offered us vanilla flavoured milk and chocolate ice cream. It all of us we loved it. They were very much cooperative and supportive to us. We visited the plant and come to know how milk become ready for customers. They tell us that they don't pay farmers at the basis of quantity they pay farmers at the basis of quality to make the best milk pane. It was a new experience for all of us and learnt a lot from. My special regards and thanks to our teachers who escorted and guided us. We enjoyed a lot there it was a memorable trip for all of us.

That's **PIC • COLLAGE**
Thank you
