

BALVATIKA REPORT

Balvatika-3, an early childhood education initiative, focuses on holistic development through various activities that incorporate Information and Communication Technology (ICT), sound learning, physical training (PT), and cultural celebrations such as Janmashtami. This report outlines the key activities in these areas.

1. ICT in education

The integration of ICT in Balvatika activities plays a crucial role in enhancing learning experiences for young children. The use of digital tools and resources helps to create interactive and engaging environments.

2. Phonemic Awareness Activities: Children engage in games that focus on recognizing sounds within words, which is foundational for reading.

3. Physical training - It is integral to the overall development of children at Balvatika. Daily sessions include exercises that improve motor skills, coordination, and overall fitness.

4. Janmashtami Celebration- Janmashtami is celebrated with great enthusiasm at Balvatika as it provides an opportunity for cultural education. Children participate in dance performances depicting the life of Lord Krishna, which fosters creativity and teamwork.

5. Developing healthy eating habits- Children learnt the importance of healthy eating habits through various means such as play , story etc.

In conclusion BALVATIKA activities incorporating ICT facilitate modern learning approaches while traditional celebrations like Janmashtami foster cultural appreciation among students within Kendriya Vidyalayas.
