

UNDERTAKING FOR BUILDING SAFETY CERTIFICATE

I, **Kana Ram**, Principal, **PM SHRI Kendriya Vidyalaya Lokra**, hereby submit this undertaking regarding the **Building Safety Certificate** of the Vidyalaya.

It is hereby stated that the Vidyalaya currently does not have a valid Building Safety Certificate. However, we have already applied for the issuance of the Building Safety Certificate to the **Manipur Tribal Development Corporation Ltd.** vide application dated **27.06.2026**. having letter No: F.No.1497/M&R/KVL/2026-27/MTDC/46.

We undertake that as soon as the Building Safety Certificate is received from the concerned authority, the same shall be submitted/provided to the concerned authority without any delay.

In view of the above, it is kindly requested that our request may please be considered and the requisite approval/consideration may kindly be accorded.

We assure you of our full cooperation and compliance with the required formalities.

Place: Lokra

F. NO. 1497/M&R/KVL/2026-27/ MTDC / 46

Date: 27.06.2026

To,

The Executive Engineer
Manipur Tribal Development Corporation Ltd.
Hq- Lamphelpat, Imphal
Manipur- 795004

Subject: Request for preparation of detailed Estimate for maintenance, Renovation, Modernization and Infrastructure development works at PM SHRI Kendriaya Vidyalaya Lokra – Reg.

Madam/Sir,

PM SHRI K.V Lokra, Sonitpur, Assam is a premier institution functioning under the Kendriya Vidyalaya Sangathan, Ministry of Education, Government of India.

In pursuance of the directions issued by KVS (Hq), New Delhi vide letter cited above and in line with the provisions of the KVS works Manual 2024, PM SHRI guidelines NEP-2020 initiatives, safety standards. Inclusive infrastructure norms and maintenance guidelines for Kendriya Vidyalaya campuses, the vidyalaya purposes to undertake various maintenance & repair (M&R), modernization and infrastructure development works for creating a safe, technology-enabled, environmentally sustainable and student-friendly learning environment.

The following priority wise works are proposed along with the tentative scope of work:

S.no.	Name of work	Details/Scope of work
01.	Building safety and Security	kindly arrange for the issuance of a Building Safety Certificate for PM SHRI K.V Lokra. The school building, constructed in 2003, houses approx. 1000 students and staff and needs to be certified for structural safety and compliance with building codes.
02.	Fire safety	Kindly arrange for a fire safety inspection of the school building and premises of PM SHRI K.V Lokra. As part of ensuring a safe environment for students, staff, and visitors, we are seeking a fire safety audit and certification.
03.	Vidyalaya Road repairing survey	The existing bituminous roads have developed extensive cracks, potholes, and depressions due to weathering and heavy use. This is causing difficulty for students, staff, and school buses, especially during monsoon. Proper road connectivity is essential for safety and accessibility under PM SHRI guidelines.
04.	Staff Quarter Road repairing survey	

The proposed works are essential for ensuring safety, modernization, effective maintenance and enhancement of the academic environment of the Vidyalaya in accordance with the KVS maintenance guidelines and PM SHRI objectives.

You are therefore requested to kindly depute a technical team/official to conduct a detailed site survey and prepare comprehensive estimates/DPR for the above proposed works, at the earliest.

Yours Faithfully
