**KVSEC.22 ROHINI**

Aim of education is primarily to inculcate the quality of inquisitiveness which encourages the children to break the mundane and bring the best out of them and make them ready to face challenges of the world. The school building is shut for students but the journey of education is still continuing and flourishing. The cooperation and bond between students, parents, teachers and administration is stronger than ever. Online classes and co-curricular activities are so planned that there is retention and absorption of new information, increased motivation, better interpersonal skills, tremendous drive, quick problem - solving abilities, high inquisitiveness and passionate love for learning. In this process we are also taking care of physical and mental well being of our students through various activities like yoga, meditation, fun games etc.

We are grateful to the parents for their sincere involvement in online schooling . Without their dedicated co-operation between school and home we cannot offer the holistic education towards which we are striving in these challenging times. I also extend gratitude to my team of primary teachers who work hard incessantly and execute all plans fruitfully. The loudest applause of course goes to my little students who adapted themselves to this unexpected condition and are bringing laurels to the vidyalaya. With great pride I present the news bulletin of session 2021- 22 ' SRIJAN' which displays all online activities conducted by the vidyalaya I wish all the stakeholders happy and safe times ahead.

As the Headmistress of this Vidyalaya, I feel honoured and privileged to be part of an institution where every stakeholder is a learner and everyday is an opportunity to learn and discover. We look at ourselves as a community of learners, where everyone learns including our teachers, parents and staff.

I believe in upholding high standards with an absolute commitment to strive to understand and improve the educational process, using team strategies, while wholly centering on student achievement.

Our faculty members fruitfully employ diverse strategies that foster a positive learning environment for all our students.

Your child's learning involves and revolves around an effective partnership between home & school, specifically during this unprecedented COVID times. We know the stronger the partnership is the more your child will benefit. In the present scenario of online interface between all stakeholders, this news bulletin is a window showcasing endeavours of students, teachers, parents and administration for the love of learning I extend my gratitude to all students, teachers, parents and Principal Sir for their unconditional support.

Best wishes

Deepa Upadhyay
