

# LANGUAGE LAB

Kendra Vidyalaya sec-2, Rk Puram has developed enough infrastructure facilities for all round development of students such as Language Lab with 30 computers connected with headphones, a smart LCD panel and internet facility to encourage the new generation, boys and girls in the present era of e- world. This lab was established in the year 2020 and inaugurated by Ms Nidhi Pandey, hon'ble commissioner KVS on 6<sup>th</sup> Nov 2020.

## Purpose of Language Lab

The basic purpose of the Language Lab is to provide students a platform to enhance language skills, communication skills and to practice soft skills. It also provides students with the innovative technical tools to get the best samples of pronunciation of the language.

## Impact of Language Lab on Language Learning and Communication

Success and communication go hand in hand, and when it comes to learning a language, having access to a language laboratory or Language lab can be a fun and effective method. Children are trained in digital language labs to enhance their language skills. These labs hold great importance in the education system. Another advantage of language labs is that they enable learners to communicate as if English were their native language.

When it comes to English language proficiency, there are two essential skills that require equal attention: listening and speaking. This is where the Listening Lab and the Spoken English Lab, also known as the communication lab, come into play. The introduction of digital language labs in India has greatly facilitated continuous and comprehensive evaluation (CCE) in language learning

The Listening Lab focuses on developing listening comprehension, which in turn helps learners understand pronunciation and phonetics better. On the other hand, the Spoken English Lab or communication lab helps individuals develop excellent communication skills and expand their vocabulary.

***So, if you're looking to succeed in language learning and improve your communication abilities, hop into the language lab and let the fun begin!***
