

ATAL TINKERING LAB

Atal Tinkering Lab refers to a network of innovation workspaces for students in India. These labs are part of the Atal Innovation Mission, an initiative by the Indian government to foster innovation and entrepreneurship among young people by providing them with access to tools and resources to work on projects and develop new skills.

Here are some innovative activities, conducted in ATL of PM Shri K V NO.-2

1. ROBOTICS Workshops
2. 3 D Printing Projects
3. Electronics Circuit design
4. Coding challenges
5. Renewable energy experiments
6. Innovation challenges
7. STEM workshops
8. Entrepreneurship Bootcamps
9. Design Thinking Workshops
10. Collaboration Projects
