

Kendriya Vidyalaya Sangathan (KVS) offers skill education in a number of ways, including:

- Skill hubs

As part of the PMKVY 4.0 scheme, 350 KVs are onboarded as skill hubs to provide skill training to youth who are unemployed, out of education, or school dropouts. The age group for this training is 15–45 years. Some of the skill courses offered include IT-ITES, healthcare, beauty and wellness, agriculture, sports, media and entertainment, apparel, electronics, and management.

- Pre-vocational education

This education prepares students for future career-oriented training and helps them integrate into the workforce. It's characterized by skill-based learning.

- Artificial Intelligence

This subject is offered as a vocational subject in all KVs from Class VIII.

- PM Schools for Rising India (PM SHRI) scheme

This scheme focuses on the vocational skills of children.
