- The Making of Germany and Italy
- Visualizing the Nation
- Nationalism and Imperialism.

The Rise of Nationalism in Europe

The Making of Germany and Italy

Germany - Can the Army be the Architect of a Nation?

The nation-building process in Germany had demonstrated the dominance of Prussian state power. Prussian practices often become a model for the rest of Germany.

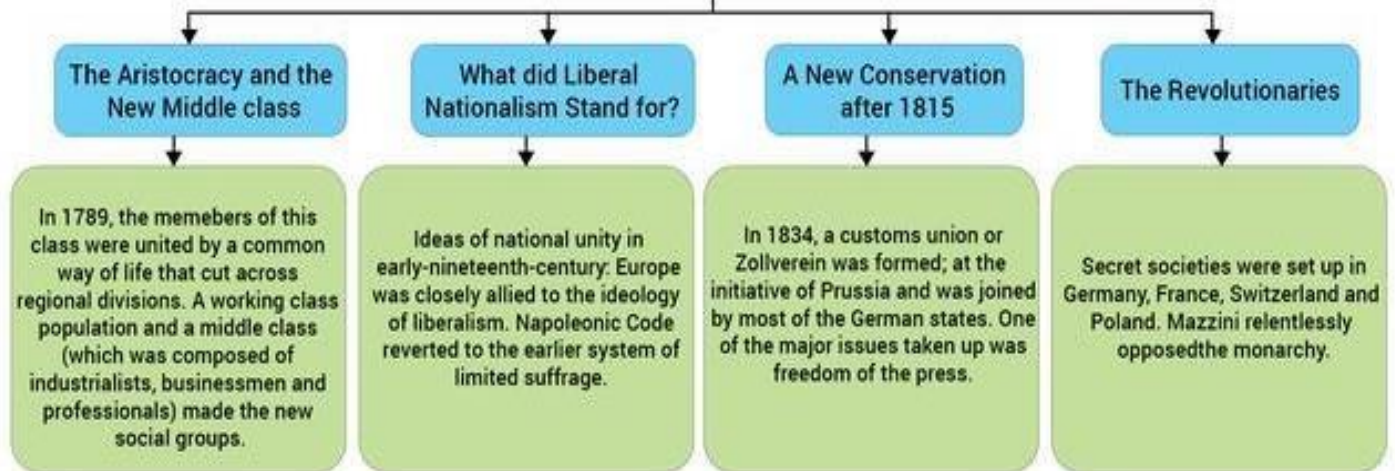

Italy Unified

During the middle of the nineteenth century, Italy was divided into seven states, of which only one, Sardinia-Piedmont, was ruled by an Italian princely house.

The Strong Case of Britain

The primary identities of the people who inhabited the British Isles were ethnic ones - such as English, Welsh, Scot or Irish. The Act of Union (1707) between England and Scotland that resulted in the formation of the 'United Kingdom of Great Britain'.

The French Revolution and the Idea of the Nation

IMPORTANT TERMS

1. **Republic:** It's a state where the supreme power is held by the people and their head of the state is elected. **Example:** - Indian president is Indirectly elected and our Nation is known as Republic.
2. **Democratic Republic:** It is a form of government where rulers are elected by the people.
3. **Socialism:** It is an economic theory, system or movement, where the production and distribution of goods is done, owned and shared by the citizens of a society.

1866-1871- Unification of Germany.

GIST OF THE LESSON

Nation (State):

A large number of people of mainly common descent, language, history, inhabiting a territory bounded by defined limits and forming a society under one government is called a nation.

Frederic Sorrieu and his visualization:

In 1848, Frederic Sorrieu, a French artist, prepared a series of four prints, visualizing his dream of a world made up of “democratic and social republics”, as he called them.

In Sorrieu’s Utopian vision, the people of the world are grouped as distinct nations, identified through their flags and national costumes.

The Making of Nationalism in Europe:

1. Germany, Italy and Switzerland were divided into Kingdom, duchies and cantons these divisions were having their autonomous rulers.
2. Uses of different languages.
3. Rise of middle class.
4. Industrialization in England, emergence of a working class and liberalism.
5. New conservatism after 1815 and preservation of traditional institution.
6. After the defeat of Napoleon, the European government follows the spirit of conservatism.
7. Conservative regimes were autocratic. Revolutionaries at that time fought for liberty and freedom.

Example- Mazzini founded two underground societies, first, Young Italy in Marseilles, and then, Young Europe in Berne.

Unification of Italy:

Giuseppe Mazzini had played an important role in the unification of Italy. He formed a secret society called “**Young Italy**” in Marseilles, to spread his goals. He believed Italy could not continue to be a patchwork of small states and had to be forged into a single unified republic. During 1830’s, Mazzini sought to put together a coherent programme for a unitary Italian Republic. As uprisings in 1831 and 1848 had failed, the responsibility to unify Italy was led by Sardinia-Piedmont under its ruler Emmanuel II. Under **Chief Minister Cavour**, Sardinia-Piedmont succeeded in destroying the Austrian forces in 1859. Even **Garibaldi** joined the fray. In 1860, they marched into South Italy and the kingdom of the two Sicilies and with the help of the local peasants, drove out the Spanish rulers. In **1861, Victor Emmanuel II** was proclaimed as King of United Italy.

Unification of Germany:

In the 18th century, Germany was divided into a number of states. Some of these states ceased to exist during the Napoleonic wars. At the end of the war, there were still **39 independent states in Germany**. Prussia was most powerful, dominated by big landlords known as Junkers.

1. Nationalist feelings were widespread among middle class Germans who had tried to unite the different regions of the German federation into a nation-state governed by an elected Parliament.
2. In May **1848**, a large number of political associations came together to vote for an all-German National Assembly. Their representatives met at Frankfurt and the Frankfurt Assembly proposed the unification of Germany as a constitutional monarchy under the King of Prussia as emperor.
3. Firstly, the King of Prussia rejected the offer and the liberal initiative of nation building was repressed by the combined forces of the monarchy, the military and the “Junkers”.
4. After that Prussia under its **Chief Minister Otto von Bismarck** led the movement for unification of Germany. He followed the principle of “Blood and Iron”. Bismarck carried out this process with the help of the Prussian army and the bureaucracy. He fought three wars over seven years with Denmark, Austria and France. Prussia was victorious in all these wars and the process of unification was completed as a result of Prussia’s victory over France.
5. Consequently, on 18th January 1871, an assembly comprising of princes of German States, representatives of the army, important Prussian ministers and Bismarck gathered in the Palace of Versailles and proclaimed the Prussian King, Kaiser William, the new German Emperor.

Visualizing the Nation:

Marianne and Germania were both female allegories used by artists in the 19th century to represent the nation.

1. In **France** she was named **Marianne**, a popular Christian name, which underlined the idea of a people’s nation. Her characteristics were drawn from those of liberty and republic. Marianne images were marked on coins and stamps.
2. Instead of just having the idea of father land, they wanted to implant a suitable image in the minds of the people. They invariably chose the mother figure symbolizing nations—**Britannia- the symbol of the British nation, Germania and Marianne** reminding us of our concept of Matri Bhumi.
3. Germania became the allegory of the German nation. Germania wears a crown of oak leaves as German oak stands for heroism. It was hung from the ceiling of St. Paul’s Church, where Frankfurt Parliament was convened, to symbolize the liberal revolution.

Napoleonic Code of 1804 (Civil Code of 1804) :

1. The first major change was doing away with all privileges based on birth, establishing equality before law and securing the right to property.
2. Administrative divisions were simplified.
3. Feudal system was abolished and peasants were freed from serfdom and manorial dues (abuse of manorial lords).
4. In towns, guild restrictions were removed.
5. Transport and communication systems were improved.
6. Peasants, artisans, workers and new businessmen enjoyed a new found freedom.
7. Businessmen and small-scale producers of goods in particular began to realize that uniform laws, standardized weights and measures and a common national currency would facilitate the movement and exchange of goods and capital from one region to another.

Nationalism and Imperialism:

Last quarter of the 19th century nationalism became a narrow creed with limited ends, Intolerance Balkan became the sense of big power rivalry Nationalism, aligned with imperialism cause of World

War I. Idea of a Nationalism was now same everywhere. But concept of National State was accepted universe.

Short Type Question:

1. Write a short note on “The role of women in nationalist struggles”.

Answer: The issue of extending political rights to women was a controversial one within the liberal movement, in which large numbers of women had participated actively over the years. Women had formed their own political associations, founded newspapers, and taken part in political meetings and demonstrations. Despite this, they were denied voting rights during the election of the Assemble. When the Frankfurt parliament convened in the Church of St. Paul, women were admitted only as observers to stand in the visitors’ gallery.

Long Type Question:

1. Highlight the reasons for the growth of nationalist tensions in the Balkan region before the First World War.

Answer: The reasons for the growth of the Nationalist tension in the Balkan region before the first World war are highlighted below:

- The Balkan was the region of geographical and ethnic variation comprising modern-day Romania, Albania, Bulgaria, Greece, Serbia, Croatia, etc.
- A large part of the Balkan was under the control of the Ottoman Empire.
- It was an explosive area due to the spread of the ideas of romantic Nationalism in Balkan and the disintegration of the Ottoman Empire.
- The Empire was not even able to strengthen itself through modernization and internal reforms.
- The people of the Balkan claimed for independence and political rights using their nationality and history to prove that they were an independent nation but were subjugated by a foreign power.
- The people struggled to define their identity and their Balkan area became an area of intense conflict.
- At the same time the great European powers of Russia, England, Germany and Austro Hungary were keen on capturing this area as it was important from the viewpoint of trade.
- This led to a series of War and finally became the cause of the first world war.

2. What changes did Napoleon introduce to make the administrative system more efficient in the territories ruled by him?

Answer: The following changes were introduced by Napoleon to make the administrative system more efficient in the territories ruled by him:

1. Civil Code of 1804 or the Napoleonic Code was issued. It abolished all privileges based on birth. It established equality before the law and secured the right to property.
2. Napoleon simplified administrative divisions in the Dutch Republic, in Switzerland, in Italy and Germany.
3. The feudal system was abolished and peasants were freed from serfdom and manorial dues.
4. Guild restrictions were removed in towns.
5. Improvements were made in the transport and communication systems.
6. Uniform laws, standardized weights, and measures, and a common national currency was

introduced. It facilitated the movement and exchange of goods and capital from one region to another. In view of the above reforms, it is stated that through a return to monarchy, Napoleon had, no doubt, destroyed democracy in France, but in the administrative field, he had incorporated revolutionary principles in order to make the whole system more rational and efficient.

In 1861, Victor Emmanuel II was proclaimed King of united Italy

SOURCE BASED QUESTIONS:

1. Read the source given below and answer the following questions:-

The most serious source of nationalist tension in Europe after 1871 was the area called the Balkans. The Balkans was a region of geographical and ethnic variation comprising modern-day Romania, Bulgaria, Albania, Greece, Macedonia, Croatia, Bosnia-Herzegovina, Slovenia, Serbia and Montenegro whose inhabitants were broadly known as the Slavs. A large part of the Balkans was under the control of the Ottoman Empire. The spread of the ideas of romantic nationalism in the Balkans together with the disintegration of the Ottoman Empire made this region very explosive. All through the nineteenth century the Ottoman Empire had sought to strengthen itself through modernisation and internal reforms but with very little success. One by one, its European subject nationalities broke away from its control and declared independence. The Balkan peoples based their claims for independence or political rights on nationality and used history to prove that they had once been independent but had subsequently been subjugated by foreign powers. Hence the rebellious nationalities in the Balkans thought of their struggles as attempts to win back their long lost independence.

Chapter -2 **Nationalism in India**

Topic suggested by CBSE under the chapter

- First World War, Khilafat and Non-Cooperation
- Differing strands within the non-co-operation movement
- Towards Civil Disobedience
- The Sense of Collective Belonging

Ideas of nationalism developed through a movement to revive Indian folklore. In Madras, Natesa Sastri published a massive four-volume collection of Tamil folk tales, *The Folklore of Southern India*.

01

Sense of Collective Belonging

In February 1922, Mahatma Gandhi withdrew the Non-Cooperation Movement. Tory government in Britain constituted a Statutory Commission under Sir John Simon. Simon Commission arrived in India in 1928.

02

Towards Civil Disobedience

Rich peasant communities were deeply disappointed when the movement was called off in 1931 without the revenue rates being revised.

The Salt March and the Civil Disobedience Movement
Mahatma Gandhi started salt march accompanied by 78 of his trusted volunteers. On 6 April he reached Dandi, and ceremonially violated the law, manufacturing salt by boiling sea water.

Dr B.R. Ambedkar clashed with Mahatma Gandhi at the 2nd Round Table Conference by demanding separate electorates for dalits. Some of the Muslim political organisations in India were also lukewarm in their response to the Civil Disobedience Movement.

Nationalism

in India

The idea of Satyagraha: In 1916 he travelled to Champaran in Bihar to inspire the peasants to struggle against the oppressive plantation system. Then in 1917, he organised a satyagraha to support the peasants of the Kheda district of Gujarat.

03

1st World War, Khilafat, Non-Cooperation

The Rowlatt Act: Gandhiji in 1919 decided to launch a nationwide satyagraha against the proposed Rowlatt Act (1919). On 13th April the infamous Jallianwalla Bagh incident took place. At the Calcutta session of the Congress in September 1920, he convinced other leaders of the need to start a non-cooperation movement in support of Khilafat as well as for swaraj.

Why Non-cooperation? Gandhiji believed, if Indians refused to cooperate, British rule in India would collapse within a year, and swaraj would come. At the Congress session at Nagpur in December 1920, a compromise was worked out and the Non-cooperation programme was adopted.

04

Differing Strands within the Movement

Rebellion in the Countryside: In Awadh, peasants were led by Baba Ramchandra – a sanyasi who had earlier been to Fiji as an indentured labourer.

IMPORTANT TERMS

Satyagraha: It means holding on to truth or truth force. It was a non-violent struggle introduced by Gandhiji in the Indian National Movement. It persuades the opponent to understand the truth.

Champaran Movement: It was a movement of workers in the indigo plantations of the Champaran district of Bihar. It was against the oppressive plantation system.

Kheda Movement: Crop failure and plague epidemic made the life of the farmers miserable in the Kheda district of Gujarat. So, they started a movement under Gandhiji's leadership with the demand for a reduction in land revenue.

Mill workers Movement: Low wages and poor working conditions forced the mill workers of Ahmedabad to start a movement under Gandhiji's leadership in 1918.

Rowlatt Act: This Act gave the government the power to imprison any person without any trial for a period of two years.

Khilafat Movement: It was a movement organized by Muhammad Ali and Shaukat Ali [Ali brothers] in order to protest against the injustice done to Turkey by Britain after the First World War. The Turkish Sultan had the title of Caliph. The Muslims considered him as their spiritual leader. So, many Muslims joined this movement.

Swaraj: It is a system in which the real political powers are in the hands of the elected representatives of the people. At the same time, India will continue to be a part of the British Empire. It is similar to the Dominion status.

Poorna Swaraj: It means complete freedom. India will cut all relations with the British and become a sovereign democratic republic.

Hind Swaraj: It is a famous book written by Gandhiji. Gandhiji put forward the idea of non-cooperation in this book.

Nagpur Congress: The Congress session was held at Nagpur in 1920. The Congress adopted the non-co-operation programme in this session.

Justice Party: It was a party of non-Brahmins of Madras. It decided not to boycott council elections during the period of the Non-Co-operation Movement.

Nai-dhobi bandh: The villagers of Awadh decided to boycott the landlords. So, they started Nai-dhobi

bandh. The landlords were denied the services of barbers and washermen.

Swatantra Bharat: It was a slogan raised by the tribal's during the Non-Co-operation Movement.

Gandhi-Irwin Pact: It was signed between Gandhiji and Lord Irwin on 5 March 1931. Gandhiji agreed to call off the Civil Disobedience Movement. He also agreed to attend the Second Round Table Conference. Irwin promised to release the political prisoners.

Separate Electorates: It is a system in which the members of a particular social group will elect its own separate representative to the legislature. The other people of the area will elect another representative.

Poona Pact: It was signed between Gandhiji and Ambedkar in September 1932. Gandhiji brought an end to his fast. He accepted the demand for reservation of seats for Dalits in the legislatures. Ambedkar agreed to give up the demand for separate electorates.

Hindu Maha Sabha: It was a Hindu communal organization. It demanded special rights for the Hindus.

GIST OF THE LESSON

Nationalism in India:

The growth of modern nationalism is intimately connected to anti- colonial movement. The congress under the leadership of Mahatma Gandhi tried to forge groups together within one movement.

First World War, Khilafat and Non-Cooperation:

1. National Movement was spreading in new areas in 1919 and incorporating new social groups and developing new modes of struggle and since national feelings among the people of India.
2. Mahatma Gandhi came to India and The Idea of Satyagraha emphasized the power of truth and the

need to search for truth. The satyagrah movement was started with his two principle **Truth and Non violence**.

3. He advocated that physical force was not necessary to fight the oppressor.

4. In 1917, He travelled to Champaran in Bihar to inspire the peasants to struggle against the oppressive plantation system.

The Idea of Satyagraha:

1. Mahatma Gandhi returned to India in January, 1915. His heroic fight for the Indians in South Africa was well-known. His method of mass agitation known as Satyagraha had yielded good results.

2. The idea of Satyagraha emphasized the power of truth and the need to search for truth.

3. In 1917, Gandhi travelled to Champaran in Bihar to inspire the peasants to struggle against the oppressive plantation system.

4. In 1917, crops field in Kheda district of Gujrat, but the government refused to remit land revenue and insisted on its full collection.

5. In 1918, Mahatma Gandhi intervened in a dispute between workers and mill owners of Ahmedabad. He advised to workers to go on strike and to demand increase in wages.

6. Satyagraha brought Gandhiji into close touch with the workers in the urban areas.

The Rowlatt act:

1. When the Rowlatt act 1919, was passed hurriedly through the Imperial Legislative Council inspire of unanimous opposition of the Indian members, Gandhiji's patience comes to an end.

2. According to this act any person could be arrested and sent to jail for two years.

3. Local leaders were picked up from Amritsar and Mahatma Gandhi was barred from entering Delhi.

Jallianwala Bagh Massacre:

1. On 13 April 1919 a large crowd gathered in the enclosed ground of Jalliawalla Bagh.

2. People came to protest against government's repressive measure while some came to attend the annual Baisakhi fair.

3. General Dyer entered the area. Blocked the exit points and opened fire on the crowd, killing hundreds.

4. The government responded with brutal repression seeking to humiliate and terrorise people.

5. Satyagrahis were forced to rub their noses on the ground, crawl on the streets and do Salaam (salute) to all Sahibs.

Khilafat movement:

1. Rowlatt Satyagraha had been a widespread movement, it was still limited mostly to cities and towns.

2. Mahatma Gandhi now felt the need to launch a more broad-based movement in India.

3. But he was certain that no such movement could be organized without bringing the Hindus and Muslims closer together.

4. The First World War had ended with the defeat of Ottoman Turkey. There were rumors that a harsh peace treaty was going to be imposed on the Ottoman Emperor, who was the spiritual head (Khalifa) of the Islamic world.

5. The Muslims of India decided to force Britain to change her Turkish policy.

6. A young generation of Muslim leaders like the brothers **Muhammad Ali and Shaukat Ali** began discussing with Mahatma Gandhi about the possibility of a united mass action on the issue. Gandhi ji agreed to give his support for Khilafat movement because he wanted to unite both Hindu and Muslims against British rule.

Why non-cooperation?

In his famous book **Hind Swaraj (1909)** Mahatma Gandhi declared that British rule was established in

India with the cooperation of Indians, and had survived only because of this cooperation.

Differing strands within the movement:

In January 1921, the Non-Cooperation-Khilafat Movement began. In this movement, various social groups participated, but the term meant different things to different people.

The Movement in The Towns:

Thousands of students left the government schools and colleges.

1. Headmasters and teachers resigned and lawyers gave up the legal practices.
2. The council elections were boycotted in most provinces except Madras. Foreign goods were boycotted, liquor shops were picketed and foreign goods and clothes were burnt. The import of foreign cloths was reduced.
3. The production of Indian textile mills and handlooms went up.

Reason for slowdown of movement:

1. Khadi cloth was more expensive than mill cloth and poor people could not buy it.
2. It was difficult for them to boycott mill made cloth.
3. It was felt difficult to boycott the English school and colleges for long in the Absence of alternate Indian institutions.

Rebellion in the Countryside:

1. From the cities the Non-Cooperation movement spread to the countryside and took up the struggles of the peasants and tribals.
2. In **Awadh Sanyasi Baba Ram Ramchandra** was leading the peasants against talukadar and landlords.
3. This Peasants movement demanded reduction of revenue, abolition of Begar and social boycotts of oppressive landlords.
4. This Peasants movement demanded reduction of revenue, abolition of Begar and social boycotts of oppressive landlords.
5. **Awadh kisan Sabha was setup headed by Jawaharlal Nehru, Baba Ramchandra.**

Tribal peasants interpreted the message of Mahatma Gandhi and the idea of Swaraj in Gudem hills of Andhra Pradesh.

Role of Alluri Sitaram Raju

In the Gudem hills of Andhra Pradesh, a militant Guerrilla movement spread under the leadership of **Alluri Sitaram Raju**. He spoke of Gandhiji's greatness and his Non-Cooperation movement. He persuaded people to wear Khadi and give up drinking. At the same time, he asserted that the Swaraj could be attained with use of forces and not with the non-violence.

Swaraj in the Plantation:

1. For plantation workers freedom meant the right to move freely in and out of the enclosures where they were kept.
2. They were not allowed to leave tea garden without permission. When they heard of Non-Cooperation Movement. They left the plantation and proceeded to their homes. But unfortunately, they never reached their destination and were caught by the police.

Towards Civil Disobedience:

1. In February 1922 Mahatma Gandhi decided to withdraw the Non-co-operation Movement because he felt that the movement was taking a violent turn in Chauri Choura. Gandhiji wanted to train the Satyagrahis for the mass movement.
2. Within the congress C R Das and Motilal Nehru found the Swaraj Party for return to council politics.

3. Due to the worldwide economic depression the life of the people was badly affected in India. Agricultural prices started falling, export declined.

Simon Commission

Constituted under John Simon to look into the functioning of the constitutional system in India and Suggest changes Simon Commission arrived in India in 1928 and it was greeted with the slogan "Go back Simon" and showed Black flags.

- All parties including the Congress and the Muslim League participated. It was all white member commission without any Indian members.

How Participants Saw the Movement:

1. The Patidars of Gujarat and the Jats of Uttar Pradesh were active in the movement. They became enthusiastic supporters of the Civil Disobedience Movement. But they were deeply disappointed when the movement was called off in 1931. So, when the movement was restarted in 1932, many of them refused to participate. The poorer peasants joined a variety of radical movements, often led by Socialists and Communists.

2. To organize business interests, the Indian Industrial and Commercial Congress in 1920 and the Federation of the Indian Chamber of Commerce and Industries (FICCI) in 1927 were formed. The industrialists attacked colonial control over the Indian economy and supported the Civil Disobedience Movement when it was first launched. Some of the industrial workers did participate in the Civil Disobedience Movement. In 1930 and 1932, railway workers and dock workers were on strike.

The Limits of Civil Disobedience:

1. Many women went to jail.
2. All social groups were not attracted by the concept of Swaraj e.g. So, called DalitCongress had ignored them for fear of offending high caste Hindus.
3. Gandhi ji called them Harijan. He believed that swaraj would not come for hundred years if untouchability was not eliminated. He organized satyagraha to secure them entry into temples and access to public well tanks, roads and schools.

The Sense of Collective Belonging:

1. Nationalist Movement Spreads when people belonging to different regions and communities begin to develop a sense of collective belongingness. The identity of a nation is most often symbolized in a figure or image.

2. The image of Bharat Mata was first created by Bankim Chandra Chattopadhyay in 1870 when he wrote 'Vande Mataram' for our motherland. Indian folk songs and folk sung by bards played an important role in making the idea of nationalism. In Bengal, Rabindranath Tagore and in Madras, Natesa, Sastri collection of folk tales and songs, which led the movement for folk revival. During the Swadeshi Movement, a tri-color (red, green and yellow) flag was designed in Bengal. It had eight lotuses representing eight provinces and a crescent moon representing Hindus and Muslims. Means of creating a feeling of nationalism was through reinterpretation of history. The nationalist writers urged the readers to take pride in India's great achievements in the past and struggle to change the miserable conditions of life under British rule.

CASE BASED QUESTIONS

1. Read the passage given below and answer the questions :

The sense of collective belonging came partly through the experience of united struggles. But there were also a variety of cultural processes through which nationalism captured people’s imagination. History and fiction, folklore and songs, popular prints and symbols, all played a part in the making of nationalism.

The identity of the nation is most often symbolised in a figure or image. This helps create an image with which people can identify the nation. It was in the twentieth century, with the growth of nationalism, that the identity of India came to be visually associated with the image of Bharat Mata. The image was first created by Bankim Chandra Chattopadhyay. In the 1870s he wrote ‘Vande Mataram’ as a hymn to the motherland. Later it was included in his novel Anandamath and widely sung during the Swadeshi

movement in Bengal. Moved by the Swadeshi movement, Abanindranath Tagore painted his famous image of Bharat Mata. In this painting Bharat Mata is portrayed as an ascetic figure; she is calm, composed, divine and spiritual.

Chapter -3 THE MAKING OF A GLOBAL WORLD

Topic suggested by CBSE under the chapter

- The Pre-Modern World
- Silk Routes Link the World
- Food Travels: Spaghetti and Potato.

GIST OF THE LESSON The Pre-Modern World

The Pre-Modern World Globalisation refers to an economic system that has emerged in the last 50 years or so. But the making of the global world has a long history – of trade, of migration, of people in search of work, the movement of capital, and much else. From ancient times, travellers, traders, priests and pilgrims travelled vast distances for knowledge, opportunity and spiritual fulfilment or to escape persecution. As early as 3000 BCE, an active coastal trade linked the Indus Valley civilisations with present-day West Asia.

Silk Routes Link the World

Silk routes are a good example of vibrant pre-modern trade and cultural links between distant parts of the world. Several silk routes have been identified by historians, overland and sea, connecting vast regions of Asia and linking Asia with Europe and northern Africa. In exchange for textiles and species from India, precious metals – gold and silver – flowed from Europe to Asia.

Food Travels: Spaghetti and Potato

Food offers many examples of long-distance cultural exchange. New crops were introduced by traders and travellers. Ready foodstuff such as noodles travelled west from China to become spaghetti. Our ancestors were not familiar with common foods such as potatoes, soya, groundnuts, maize, tomatoes, chillies, sweet potatoes, and so on about five centuries ago. Many of our common foods came from America's original inhabitants – the American Indians.

There was a fear of spreading rebellious and irreligious thoughts. In 1517, the religious reformer Martin Luther wrote Ninety-Five Theses, criticising many of the practices and rituals of the Roman Catholic Church. His textbook printed copy led to a division within the Church and to the beginning of the Protestant Reformation.

THE READING MANIA:

In most parts of Europe, literacy rates went up through the seventeenth and eighteenth centuries. Schools and literacy spread in European countries, due to which people wanted the production of more books. Other forms of reading, mainly based on entertainment, began to reach ordinary readers. Books were of various sizes, serving many different purposes and interests. From the early 18th century, periodical press developed, which combined information related to current affairs with entertainment. Journals and newspapers carried information related to wars, trade and developments in other places. Issac Newton's discoveries were published, which influenced scientifically-minded readers.

PRINT CULTURE AND THE FRENCH REVOLUTION

print culture created the conditions within which French revolution occurred

1. Print popularised the ideas of enlightened thinkers .
2. Print created a new culture of dialogues and debates.
3. Outpouring of literature mocked the royalty and criticised their morality Print did not directly shape their minds, but it did open up the possibility of thinking differently.

THE NINETEENTH CENTURY

1. Women became an important reader as well as writers.
2. Power-driven cylindrical press by Richard M. Hoe Offset press was developed which could print up to six colours at a time

Manuscripts Before the Age of Print

India is a country rich in old traditions of handwritten manuscripts – in Sanskrit, Arabic, and Persian,

as well as in various vernacular languages. These handwritten manuscripts were copied on palm leaves or on handmade paper. The production of the manuscript continued well after the introduction of print. It is considered highly expensive and fragile.

Print Comes to India

In the mid-sixteenth century, the first printing press came to Goa with Portuguese missionaries. **Catholic priests printed the first Tamil book in 1579 at Cochin, and in 1713 the first Malayalam book was printed by them.** The English press grew quite late in India, even though the English East India Company began to import presses in the late seventeenth century. **A weekly magazine named the Bengal Gazette was edited by James Augustus Hickey.** Advertisements were published by Hickey and he also published a lot of gossip about the Company's senior officials in India. By the close of the eighteenth century, a number of newspapers and journals appeared in print.

RELIGIOUS REFORMS AND PUBLIC DEBATES:

In this course print not only spread the new ideas, but they shaped the nature of debate. **Sambad Kaumudi - Rammohan Roy, Samachar Chandrika - Hindu orthodox from 1821, Persian newspaper Jam-I-Jahan Nama and Shamsul Akhbar** Impact of print among Hindu and Muslims Religious texts, therefore reached a very wide circle of people, encouraging discussions, debates and controversies within and among different religions.

NEW FORM OF PUBLICATIONS:

The novel, a literary form which had developed in Europe soon acquired distinctively Indian forms and styles.

Other new literary forms such as lyrics, short stories, essays about social and political matters also entered the world of reading.

Painters like Raja Ravi Varma produced visual images for mass circulation.

WOMEN AND PRINTS

Muslims feared that educated women would be corrupted Hindu conservatives believe that a literate girl would be widowed.

Tarabai Shinde and Pandita Rama Bai wrote with passion about the miserable lives of upper caste Hindu women.

Vernacular press was devoted for education of women.

PRINT AND THE POOR PEOPLE

Very cheap small books were sold at crossroads Issues of caste discrimination began to be written increased involvement of people from working class in writing.

PRINT AND CENSORSHIP

BY 1820 - Calcutta supreme court Passed certain regulation to control press freedom 1835, governor general Bentinck revised press law on request of editors of English and vernacular newspaper but after the revolt of 1857, censorship Became strict **vernacular press act, 1878** was passed.

Multiple Choice Questions:

- Which invention played a crucial role in the spread of print culture in Europe during the 15th century?**
(a) Steam engine (b) Printing press (c) Telegraph (d) Radio
Answer: (b) Printing press
- Who invented the printing press with movable type in Europe?**

(a) Leonardo da Vinci (b) Johannes Gutenberg (c) Isaac Newton (d) Galileo Galilei

Answer: (b) Johannes Gutenberg

3. Which language was the first major European language to adopt printing?

(a) Latin (b) Greek (c) German (d) French

Answer: (c) German

4. Print culture had a profound impact on religious reformations in Europe, such as the Protestant Reformation led by:

(a) Martin Luther (b) Henry VIII (c) John Calvin (d) Pope Leo X

Answer: (a) Martin Luther

5. The earliest kind of print technology was developed in _____, Japan and Korea, which was a system of hand printing.

(a) India (b) Britain (c) China (d) Germany

Answer: (c) China

6. As Western powers established their outposts in China, _____ became the hub of the new print culture.

(a) Shanghai (b) Beijing (c) Guangzhou (d) Hong Kong

Answer: (a) Shanghai

Very Short Type Question:

1. Give reason for the following:

(a) Martin Luther was in favour of print and spoke out in praise of it.

(b) Wood block print only came to Europe after 1295.

(c) Gandhi said the fight for Swaraj is a fight for the liberty of speech, liberty of the press, and freedom of association.

Answer:(a) Martin Luther was in favor of print and spoke out in praise of it primarily because printing technology facilitated the rapid dissemination of his ideas and contributed significantly to the success of the Protestant Reformation. By using the printing press, Luther could widely distribute his theological writings, such as the Ninety-five Theses, challenging the authority of the Catholic Church. This accessibility allowed Luther's ideas to reach a broader audience, empowering individuals to interpret religious texts for themselves and ultimately fostering the growth of Protestantism across Europe. Thus, Luther saw print as a powerful tool to reform the Church and empower believers through direct access to religious teachings.

Answer:(b) Marco Polo, the Italian explorer, visited China and learnt the technology of woodblock printing. When he returned to Italy in 1295, he brought this knowledge back with him. Gradually this knowledge spread from Italy to other parts of Europe.

Answer:(c) Gandhi considered that the liberty of speech, liberty of press and freedom of association were three most powerful vehicles of expressing and cultivating public opinion. Therefore, he said the fight for Swaraj was a fight for liberty of speech, press, and freedom for association.

2. Write short notes to show what you know about:

(a) The Vernacular Press Act

(b) The Gutenberg Press

Answer:(a) The Gutenberg Press, invented by Johannes Gutenberg around 1440, revolutionized printing by introducing movable metal type. This innovation allowed for faster, cheaper, and more accurate printing of books and pamphlets. The Gutenberg Press played a pivotal role in spreading knowledge, accelerating the Renaissance, and democratizing access to information across Europe.

Answer:(b) The Gutenberg Press, invented around 1440 by Johannes Gutenberg in Germany, revolutionized printing with its movable type technology. This innovation allowed for faster and more efficient production of books and pamphlets, democratizing access to knowledge and significantly impacting the spread of ideas during the Renaissance and beyond.

Long Type Question:

1. Explain how print culture assisted the growth of nationalism in India.

Answer: Print culture played a crucial role in fostering the growth of nationalism in India by facilitating the dissemination of ideas, promoting cultural unity, and mobilizing public opinion against British colonial rule. Here's how print culture assisted in the growth of nationalism:

- 1. Dissemination of Ideas:** Print media, including newspapers, journals, and pamphlets, became powerful tools for spreading nationalist ideologies and political awareness among Indians. Nationalist leaders like Bal Gangadhar Tilak, Dadabhai Naoroji, and Mahatma Gandhi used print to articulate their visions of self-rule, critique colonial policies, and advocate for Indian interests.
- 2. Cultural Unity:** Print culture helped forge a sense of shared identity and cultural unity among diverse communities across India. Vernacular newspapers and publications played a crucial role in promoting regional languages, literature, and traditions, while also connecting local movements to the broader nationalist cause.
- 3. Mobilization and Organization:** Newspapers such as "Bengal Gazette," "The Indian Mirror," and "The Hindu" provided platforms for political debates, mobilization of public opinion, and coordination of nationalist activities. They served as forums for discussing grievances, rallying support for protests and boycotts, and coordinating resistance against oppressive colonial policies.
- 4. Education and Awareness:** Print media contributed to the spread of education and literacy among Indians. Vernacular newspapers and publications made political and social issues accessible to a broader audience, empowering ordinary Indians to participate actively in the nationalist movement and understand their rights and responsibilities.
- 5. Counteracting Colonial Narratives:** British colonial authorities controlled the narrative through their own publications and propaganda. Indian print media provided a counter-narrative, exposing injustices, highlighting economic exploitation, and challenging colonial assumptions about Indian culture and capabilities.
- 6. Impact on Political Thought:** Print culture facilitated the exchange of ideas not only within India but also with nationalist movements in other parts of the world. Indian intellectuals and leaders were influenced by global movements for freedom and democracy, adapting and integrating these ideas into the Indian nationalist discourse.

2. Why did some people fear the effect of easily available printed books? Choose one example from Europe and one from India.

Answer: The fear of easily available printed books stemmed from concerns about their potential to spread controversial ideas, challenge established authorities, and disrupt social order. Here are examples from both Europe and India:

Europe Example:

In Europe, one significant example of fear regarding printed books was during the Protestant Reformation in the 16th century. Martin Luther's translation of the Bible into German and its subsequent printing and distribution challenged the monopoly of the Roman Catholic Church over religious interpretation. This led to fears among Catholic authorities that Luther's ideas, propagated

through printed materials, would undermine the Church's authority, lead to religious dissent, and cause social unrest.

India Example:

In India, during the British colonial period, the introduction of printing presses and the rise of vernacular newspapers and publications also sparked fears among British authorities and conservative Indian elites. These publications facilitated the dissemination of nationalist ideas, critiques of colonial rule, and calls for self-governance. For example, newspapers like "The Hindu" and "Bengal Gazette" became platforms for Indian nationalists to articulate their demands and mobilize public opinion against British policies. This dissemination of nationalist sentiments through print media was viewed as a threat to British colonial authority and raised fears of potential unrest and challenges to British rule in India.

In both cases, the fear of easily available printed books was rooted in concerns about the power of ideas to influence public opinion, challenge existing authority structures, and potentially destabilize social and political order. These examples illustrate how the advent of print culture brought about significant societal changes and provoked reactions from those who sought to maintain control over information and discourse.

CHAPTER 1

RESOURCES AND DEVELOPMENT

Gist of the topics

Resources:-

Everything in our environment which can be used to satisfy our needs - is technologically accessible, economically feasible and culturally acceptable.

Problems associated with the resources:-

Following major problems have been seen while using resources-

1. Depletion of resources for satisfying the greed of a few individuals.
2. Accumulation of resources in a few hands, which, in turn, divided the society into two segments i.e. rich and poor.
3. It has led to global Ecological Crises Such As Global warming, Ozone Layer depletion, environmental pollution and land degradation.

Sustainable Economic Development means: -

Development without damaging environment and compromising need of the future generation.

Resource Planning-

Resource planning is widely accepted strategy for judicious use of resources is known as Resource Planning.

Stages of Resource Planning in India- It involves-

(i)**Identification and inventory** of resources across the regions of the country. This involves surveying, mapping and qualitative and quantitative estimation and measurement of the resources.

(ii)**Evolving a Planning** Structure endowed with appropriate technology, skill and institutional set up for implementing resource development plans.

(iii)**Matching the resource development plans** with overall national development plans. Resources can contribute to development only when they are accompanied by appropriate

technological development and institutional changes.

Land Resources

In India has land under a variety of relief features, namely; mountains, plateaus, plains

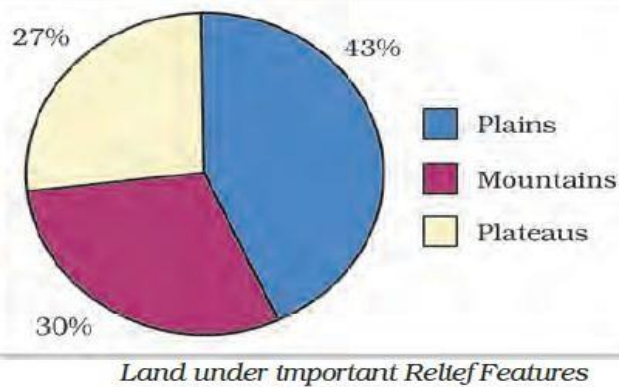

Land Utilisation

Land resources are used for the following purposes:

Forests

Land not available for cultivation

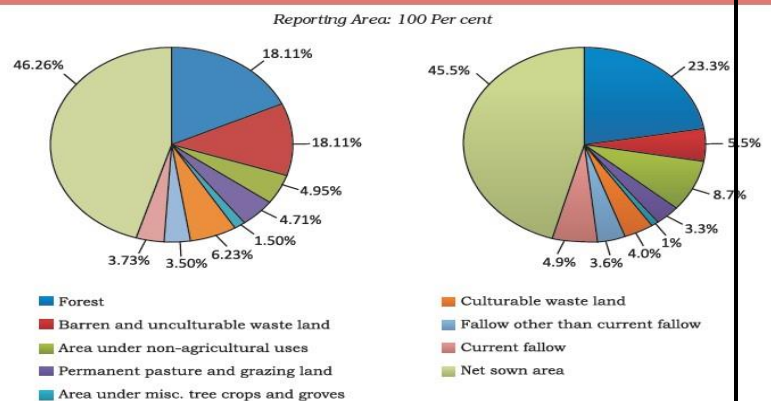

- Barren and wasteland
- Land put to non-agricultural uses
- Fallow lands
- Other uncultivated lands (excluding fallow land)
- Net sown area

Land Use Pattern in India

- The use of land is determined
- Physical factors: such as topography, climate, soil types
- Human factors: such as population density, technological capability and culture and tradition sectors

General land use categories-1960-61 General land use categories-2014-15

Land Degradation and Conservation Measures

Human activities such as deforestation, overgrazing, mining and quarrying have contributed significantly to land degradation. Mining sites leave deep scars and traces of over-burdening the land. In recent years, industrial effluents as waste have become a major source of land and water pollution in many parts of the country.

Some of the ways through which we can solve the problems of land degradation are:

- Afforestation and proper management of grazing.
- Planting of shelter belts of plants.
- Stabilisation of sand dunes by growing thorny bushes.
- Proper management of waste lands.
- Control of mining activities.
- Proper discharge and disposal of industrial effluent sand wastes after treatment.

Soil as a Resource

1. Soil is the most important renewable natural resource. It is the medium of plant growth and supports different types of living organisms on the earth.
2. It takes millions of years to form soil up to a few cms in depth. Various forces of nature such as change in temperature, actions of running water, wind and glaciers, activities of decomposers etc. contribute to the formation of soil.
3. Parent rock or bed rock, climate, vegetation and other forms of life and time are important factors in the formation of soil.
4. Chemical and organic changes which take place in the soil play an important role.
5. Soil also consists of organic (humus) and inorganic materials.

Classification of Soils-

Alluvial Soils

1. The entire northern plains are made of alluvial soil.
2. The Alluvial Soil is deposited by important Himalayan River systems –the Indus, the Ganga and the Brahmaputra.
3. It is also found in Rajasthan, Gujarat and eastern coastal plains particularly in the deltas of the Mahanadi, the Godavari, the Krishna and the Kaveri rivers.
4. The alluvial soil consists of various proportions of sand, silt and clay. As we move inland towards the river valleys, soil particles appear to be bigger in size whereas in the upper side of the river valley, the soils are coarse.
5. Based on age, Alluvial soils can be classified as:

Old Alluvial (Bangar) The Bangar soil has a higher concentration of kanker nodules than the Khadar.

New Alluvial (Khadar): It has more fine particles and is more fertile than the Bangar. Alluvial soils are very fertile. These soils contain an adequate proportion of potash, phosphoric acid and lime, which are ideal for the growth of sugarcane, paddy, wheat and other cereal and pulse crops.

Black Soil

1. **This soil is black in colour and is also known as regur soil.** Climatic conditions along with the parent rock material are the important factors for the formation of black soil.
2. The soil is ideal for growing cotton and is also known as black cotton soil.
3. This type of soil is typical of the Deccan trap (Basalt) region spread over northwest Deccan plateau and is made up of lava flows.
4. The soil covers the plateaus of Maharashtra, Saurashtra, Malwa, Madhya Pradesh and Chhattisgarh and extend in the south-east direction along the Godavari and the Krishna valleys.
5. The black soils are made up of extremely fine i.e. Clayey material and well-known for their capacity to hold moisture.
6. Black soil is nutrients rich and contains calcium carbonate, magnesium, potash and lime.

Red and Yellow Soils:

1. This type of soil develops on crystalline igneous rocks in areas of low rainfall in the eastern and southern parts of the Deccan plateau.
2. These soils develop a reddish colour due to diffusion of iron in crystalline and metamorphic rocks. It looks yellow when it occurs in a hydrated form.
3. Found in parts of Odisha, Chhattisgarh, Southern parts of the Middle Ganga plain and along the piedmont zone of the Western Ghats.

Laterite Soil:

1. Develops under tropical and subtropical climate with the alternate wet and dry season.
2. It is the result of intense leaching due to heavy rain.
3. Lateritic soils are acidic ($\text{pH} < 6.0$) in nature and generally deficient in plant nutrients.

This type of soil is found mostly in Southern states, Western Ghats region of Maharashtra, Odisha, some parts of West Bengal and North-east regions.

4. The soil supports deciduous and evergreen forests but humus poor.
5. This soil is very useful for growing tea and coffee.

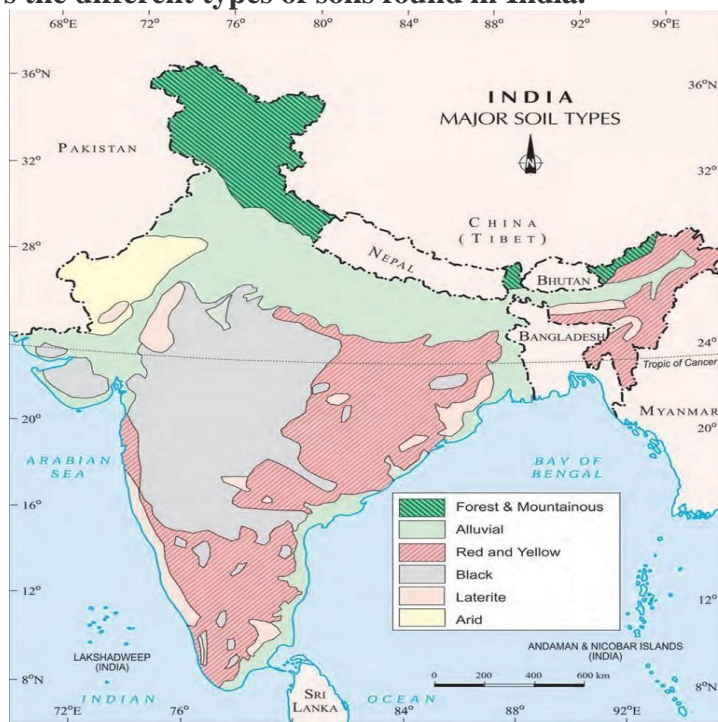

Arid Soils:

1. Range from red to brown in colour.
2. Generally sandy in texture and saline in nature.
3. Lacks humus and moisture.
4. The lower horizons of the soil are occupied by Kankar because of the increasing calcium content downwards.
5. The Kankar layer formations in the bottom horizons restrict the infiltration of water.

Forest Soils

1. These are found in the hilly and mountainous areas.
2. Texture is loamy and silty in valley sides and coarse grained in the upper slopes.
3. In the snow-covered areas of Himalayas, These soils experience denudation and are acidic with low humus content. The soil is fertile on the river terraces and alluvial fans.

***The map below shows the different types of soils found in India.**

India: Major Soil Types

Soil Erosion and Soil Conservation:

1. The denudation of the soil cover and subsequent washing down is described as soil erosion.
2. The soil erosion is caused due to human activities like deforestation, over-grazing, construction and mining etc. Some natural forces like wind, glacier and water which lead to soil erosion.
3. The running water cuts through the clayey soils and makes deep channels as gullies.
4. When water flows as a sheet over large areas down slope and the top soil is washed away, it is known as sheet erosion.

Different Ways for Soil Conservation:

1. **Ploughing along the contour** lines decelerate the flow of water down the slopes. This is called Contour Ploughing.
2. **Terrace cultivation** restricts erosion. This type of agriculture practice is done in Western and Central Himalayas.
3. When a large field is divided into strips and strips of grass are left to grow between the crops. Then, this breaks up the force of the wind. This method is known as Strip Cropping.
4. **Planting lines of trees** to create shelter helps in the stabilization of sand dunes and in stabilizing the desert of western India. Rows of such trees are called Shelter Belts.

Multiple Choice Questions:

1. Which one of the following soils is ideal for growing cotton?

- (a) Regur soil (b) Laterite soil (c) Desert soil (d) Mountainous soil

Ans: Regur soil

2. Land left without cultivation for one or less than one agricultural year is called

- (a) Culturable waste land (b) Current fallow land (c) Waste land (d) None of the above

Ans: Current fallow land

3. Which one of the following is the main cause of land degradation in Punjab?

- (a) Intensive cultivation (b) Deforestation (c) Over irrigation (d) Overgrazing

Ans: Over irrigation

4. Resource planning is essential for _____ existence of all form of life

- (a) Ecological balance (b) Exploitation (c) Sustainable (d) None of these

Ans : Sustainable

5. The first International Earth Summit was held in

- (a) Geneva (b) New York (c) Japan (d) Rio de Janeiro

Ans: Rio de Janeiro

6. The most widespread relief feature of India is

- (a) Mountains (b) Forests (c) Plains (d) Plateaus

Ans: Plains

7. The red soil is red in colour because

- (a) it is rich in humus. (b) it is rich in iron compounds. (c) it is derived from volcanic origin. (d) it is rich in water.

Ans: it is rich in iron compounds

8. Which of the following statements about Agenda 21 is true?

- a) It aims at achieving global sustainable development.
b) It is an agenda to combat environmental damage, poverty and disease through global cooperation.
c) One of the major objectives of Agenda 21 is that every local government should **not** draw its own local Agenda 21.
d) Option (a) and (b).

Ans: Option (a) and (b).

9. Soil is formed by the process of

- (a) Denudation (b) Gradation (c) Weathering (d) Erosion

Ans: Weathering

10. Soil formed by intense leaching is

- (a) Alluvial soil (b) Red soil (c) Laterite soil (d) Desert

Ans: Laterite soil

11. In which one of the following States is terrace cultivation practised?

- (a) Punjab (b) Plains of Uttar Pradesh (c) Haryana (d) Uttarakhand

Ans: Uttarakhand

12. Area sown more than once in an agricultural year plus net sown area is known as:

- (a) Net sown area (b) Forest cover (c) Waste land (d) Gross cropped area

Ans: Gross cropped area

13. Which of the following is not important for soil formation?

- (a) Relief (b) Parent rock (c) Climate (d) Duration of day

Ans: Duration of day

14. The state of Rajasthan is very well endowed with solar and _____ energy but lacks water resources.

- a) Geothermal b) Hydro c) Wind d) Tidal

Ans: Wind

Question number 15-17 are assertion and reason based question. Choose the correct option from the following.

- a) Both A and R are true and R is the correct explanation of A.
- (b) Both A and R are true but R is not the correct explanation of A.
- (c) A is true but R is false.
- (d) A is false but R is true

15. Assertion (A): Resources are vital for human survival as well as for maintaining the quality of life.

Reason (R): It was believed that resources are free gifts of nature

Ans: A is true but R is false.

16. Assertion (A): Black soils are black in colour and are also known as regur soils.

Reason (R): Black soils are made up of lava flows

Ans: Both A and R are true and R is the correct explanation of A.

17. Assertion (A): Resource planning is an easy process in India.

Reason (R): Resource planning involves identification and inventory of resource across the regions of the country.

Ans: A is false and R is true.

SHORT ANSWER QUESTIONS:

1. State two disadvantages of the red soil.

Answer: (i) The soil lacks in nitrogen, organic and phosphoric acid contents and is less fertile.
(ii) Red soils are porous in nature but not retentive to moisture.

2. Why is it necessary to conserve resources?

Answer: Necessary to conserve resources because:

- (i) Their irrational consumption and over utilisation have led to socio-economic and environmental problems.
- (ii) It takes million of years for the formation of natural resources.
- (iii) Natural resources are available in fixed quantity and they are non – renewable.

3. “Planning of resources is very important for a country like India”. Justify by giving three reasons.

Answer:

- (i) India has enormous diversity in the availability of resources. There are many regions which are rich in certain type of resources but are deficient in some other resources.
- (ii) The states of Jharkhand, Chhattisgarh and Madhya Pradesh are rich in minerals and coal deposits but lacks in infrastructural development.
- (iii) The states like Punjab, Haryana and Uttar Pradesh are rich in soil but lacks minerals.

4. Mention the factors on which the land- use pattern of India depends upon.

Answer:

The use of land is determined by physical as well as human factors.

- (i) Physical factors: Topography, climate and soil types.
- (ii) Human factors: Population density, technological capability, culture and traditions.

5. What are the methods adopted to solve the problems of land degradation?

Answer:

- (i). Afforestation.
- (ii). Proper management grazing land.
- (iii). Planting of shelter belts in desert areas.
- (iv). Control of overgrazing.
- (v). Stabilization of sand dunes by growing theory bushes.
- (vi). Proper management of waste lands.
- (vii) Control on mining activities.
- (viii) Proper discharge disposal of effluents waster after treatment can reduce land degradation.

6. Explain any three factors responsible for the formation of soil.

Answer: (i) Relief, parent rock or bedrock, climate, vegetation and other forms of life and time are important factors in the formation of soil.

(ii) Various forces of nature such as change in temperature, actions of running water, wind and glaciers, activities of decomposers, etc. contribute to the formation of soil.

(iii) Chemical and organic changes which take place in the soil are equally important.

(iv) Soil also consists of organic (humus) and inorganic materials.

7. Describe the steps to control soil erosion in hilly areas?

Answer

The soil erosion in hilly areas can be controlled by:

- (i) Contour ploughing: Ploughing along the contour lines can decelerate the flow of water down the slopes.
- (ii) Terrace cultivation: Steps can be cut out on the slopes making terraces which restricts erosion.
- (iii) Strip cropping: Large fields are divided into strips and strips of grass are left to grow between the crops.

Long Answer Type Questions

1. Mention any four characteristics of the black soil.

Answer:

(i) These have been formed due to withering of lava.

(if) The black soils are made of extremely fine materials, i.e., clayey materials.

(iii)These soils are rich in soil nutrients such as calcium carbonate, magnesium carbonate, potash and lime.

(iv)These soils are generally poor in phosphoric content.

(v)The soil is well known for its capacity to hold moisture.

2. Which geographical factors are responsible for the evolution of black soil? Why is it considered the most suitable for growing cotton?

Answer: (1) Climatic conditions like temperature, rainfall etc. along with present rock material are important factors for making of black soil. The parent rock is volcanic rock.

(2) It is ideal for growing cotton because:

(i) It has capacity to hold moisture.

(ii) They are rich in calcium carbonate, magnesium, potash and lime.

(iii) This soil is also known as black cotton soil,

(iv) They develop deep cracks during hot weather.

3. Discuss the problems which have been caused due to over-utilisation of resources. Suggest any two ways to save the resources.

Answer: (i) Depletion of resources: Over-utilisation has led to the depletion of the resources for meeting the greed of a few individuals. For example, over-utilisation of petroleum products has led to a situation where most of the countries of the world are facing energy crisis.

(ii) Concentration of resources: This has divided the society into 'haves' and 'have nots' or the rich and the poor.

(iii) Global ecological crisis : Over utilisation of resources has led to the global ecological crisis such as global warming, depletion of ozone layer, pollution and land degradation.

Suggestions:

(i) Minimising wastage.

(ii) Use of renewable resources.

4. "The earth has enough resources to meet the need of all but not enough to satisfy the greed of even one person." How is this statement relevant to the discussion of development? Discuss.

Answer: (i) Resources are vital for any developmental activity.

(ii) The irrational consumption and over utilization of resources may lead to socio economic and environmental problems.

(iii) Indiscriminate exploitation of resources led to global ecological crises such as global warming, environmental pollution, etc

(iv) The greedy and selfish individuals and exploitative nature of modern technology is the root cause for resource depletion at the global level.

(v) If the present trend of resource depletion by a few individuals and countries continues, the future of our planet is in danger.

(vi) There is need for sustainable development.

It means development should take place without damaging the environment and development in the present should not compromise with the need of future generations'.

Case Study Based Questions:

1 Read the following passage carefully. On the basis of passage answer the following question.

Planning is the widely accepted strategy for judicious use of resources. It has importance in a country like India, which has enormous diversity in the availability of resources. There are regions which are rich in certain types of resources but are deficient in some other resources. There are some regions which can be considered self-sufficient in terms of the availability of resources and there are some regions which have acute shortage of some vital resources. For example, the states of Jharkhand, Chhattisgarh and Madhya Pradesh are rich in minerals and coal deposits. Arunachal Pradesh has abundance of water resources but lacks in infrastructural development. The state of Rajasthan is very well endowed with solar and wind energy but lacks in water resources. The cold desert of Ladakh is relatively isolated from the rest of the country. It has very rich cultural heritage but it is deficient in water, infrastructure and some vital minerals. This calls for balanced resource planning at the national, state, regional and local levels.

1. What is resource planning?

1

Ans judicious use of resources

2.Name two states rich in minerals and coal deposits? 1

Ans : Jharkhand and Chhattisgarh.

3.How can we say the resources found in the Rajasthan are much beneficial? 2

Ans: (i) these are renewable.

(ii) These are in ample amount.

2.Read the following passage carefully. On the basis of passage answer the following question

Mining sites are abandoned after excavation work is complete leaving deep scars and traces of over-burdening. In states like Jharkhand, Chhattisgarh, Madhya Pradesh and Odisha deforestation due to mining have caused severe land degradation. In states like Gujarat, Rajasthan, Madhya Pradesh and Maharashtra overgrazing is one of the main reasons for land degradation. In the states of Punjab, Haryana, western Uttar Pradesh, over irrigation is responsible for land degradation due to water logging leading to increase in salinity and alkalinity in the soil. The mineral processing like grinding of limestone for cement industry and calcite and soapstone for ceramic industry generate huge quantity of dust in the atmosphere. It retards the process of infiltration of water into the soil after it settles down on the land. In recent years, industrial effluents as waste have become a major source of land and water pollution in many parts of the country.

1.Name two states which are facing the problem of land degradation due to mining? 1

Ans: Jharkhand and Chhattisgarh

2.Which factor is responsible for increasing salinity and alkalinity in the soil in the Punjab? 1

Ans: water logging

3. How can we control water pollution? 2

Ans: (i) treating hot water and effluents before releasing them in water.

(ii) recycling of waste water.

CHAPTER – 2

FOREST AND WILDLIFE RESOURCES

INTRODUCTION

1.We live with various type of animals and micro-organism. Also share resources like water, soil and forest with them.

2.This Biodiversity creates a balance in our environment.

3. Biodiversity or Biological Diversity is immensely rich in wildlife and cultivated species, diverse in form and function but closely integrated in a system through multiple networks of interdependencies.

Flora and Fauna in India

1. India have very rich biodiversity. Variety of species live here and some are only found in India. India holds 8th rank in terms of biodiversity.

2. Our flora and fauna are under great stress mainly due to insensitivity to our environment.

Conservation of Forest and Wildlife in India

Conservation of forest and wildlife is very important for our future because it preserves the ecological diversity and our life support systems – water, air and soil.

Indian **Wildlife (Protection) Act was implemented in 1972**. The central government also announced several projects for protecting specific animals, which were gravely threatened, including the tiger, the one horned rhinoceros, the Kashmir stag or hangul.

In 1991, for the first-time plants were also added to the list, starting with six species.

Types and Distribution of Forest and Wildlife Resources

To protect our forest various programme laid down by our government. Forest are divided into three categories-

- (i) Reserved Forests: More than half of the total forest land has been declared Reserved forests. Reserved forests are regarded as the most valuable as far as the conservation of forest and wildlife resources are concerned.
- (ii) Protected Forests: Almost one-third of the total forest area is protected forest, as declared by the Forest Department.
- (iii) Unclassed Forests: These are other forests and wastelands belonging to both government and private individuals and communities.

Distribution of Forest

1. Madhya Pradesh has the largest area under permanent forests, constituting 75 per cent of its total forest area.
 2. Jammu and Kashmir, Andhra Pradesh, Uttarakhand, Kerala, Tamil Nadu, West Bengal, and Maharashtra have large percentages of reserved forests of its total forest.
- All North eastern states and parts of Gujarat have a very high percentage of their forests as unclassified forests managed by local communities

Various movements of communities

1. Chipko movement-A movement started to protect forest and wildlife from being destroyed. People used to hug the tree and protect them from wood cutters. It gain popularity under the leadership of Sunder Lal Bahuguna.
2. Farmers and citizen's groups like the Beej Bachao Andolan in Tehri and Navdanya have shown that adequate levels of diversified crop production without the use of synthetic chemicals are possible and economically viable.
3. In India joint forest management (JFM) programme furnishes a good example for involving local communities in the management and restoration of degraded. Firstly, launched in Odisha, by protecting forest villager gets to use non timber forest produce.

Project Tiger

In 1973, the authorities realised that the tiger population had dwindled to 1,827 from an estimated 55,000 at the turn of the century.

Reason

The trade of tiger skins and the use of their bones in traditional medicines, especially in the Asian countries left the tiger population on the verge of extinction.

Features: -

- ❖ One of the well-publicised wildlife campaigns in the world, was launched in 1973.
- ❖ Tiger conservation has been viewed not only as an effort to save an endangered species, but with equal importance as a means of preserving biotypes of sizeable magnitude.
- ❖ Corbett National Park in Uttarakhand, Sunderbans National Park in West Bengal, Bandhavgarh National Park in Madhya Pradesh, Sariska Wildlife Sanctuary in Rajasthan, Manas Tiger Reserve in Assam and Periyar Tiger Reserve in Kerala are some of the tiger reserves of India

Multiple Choice Questions:

1. The Buxa Tiger Reserve is seriously threatened by:

- (a) Iron ore mining
- (b) Oil exploration

- (c) Dolomite mining in that area
- (d) Volcanic eruption in that area

Ans: Dolomite mining in that area

2. The Himalayan yew is found in parts of:

- (a) Himachal Pradesh and Arunachal Pradesh
- (b) Punjab and Haryana
- (c) West Bengal and Kerala
- (d) Madhya Pradesh and Goa

Ans: Himachal Pradesh and Arunachal Pradesh

3. Teak monoculture has damaged the natural forests in:

- (a) Ganga Plain
- (b) South India
- (c) Brahmaputra Plain
- (d) None of the above

Ans: South India

4. Which one of the following is not responsible for the decline in India's biodiversity?

- (a) Mining activities
- (b) Hunting and poaching
- (c) Forest fire
- (d) Afforestation

Ans: Afforestation

5. We need to conserve our forests and wildlife:

- (a) to preserve the ecological diversity
- (b) to preserve the genetic diversity
- (e) for maintenance of aquatic biodiversity
- (d) All the above

Ans: All the above

6. The Indian Wildlife Protection Act was implemented in:

- (a) 1972
- (b) 1971
- (c) 2010
- (d) 1982

Ans: 1972

7. Which one is considered as Primary Producers in an ecological system

- (a) Forest
- (b) Animals
- (c) Sun
- (d) Humans

Ans: Forest

8. Which of the following conservation strategies does not directly involve community participation?

- (a) Joint forest management
- (b) Beej Bachao Andolan
- (c) Chipko Movement
- (d) Demarcation of Wildlife sanctuaries

Ans: Demarcation of Wildlife sanctuaries

9. In which one of the following states Periyar tiger reserves located?

- (a) Kerala

- (b) Chhattisgarh
- (c) Tamil Nadu
- (d) West Bengal

Ans: (a) Kerala

10. What was the aim of the Chipko movement?

- (a) Human right
- (b) Agriculture expansion
- (c) Political rights
- (d) Forest conservation

Answer: (d) forest conservation

11. Which is the first project for Wildlife Conservation in India?

- a. Project Elephant
- b. Project Tiger
- c. Project Crocodile
- d. None of these

Answer: Project Tiger

12. In which of the following tiger reserves have the local communities fought for conservation of the forests?

- (a) Manas Tiger Reserve
- (b) Periyar Tiger Reserve
- (c) Simlipal Bio Reserve
- (d) Sariska Tiger Reserve

Ans: Sariska Tiger Reserve

13. Substantial parts of the tribal belts, especially in the Northeastern and _____, have been deforested or degraded by shifting cultivation (Jhum), a type of 'slash and burn' agriculture.

- a) Central India
- b) Western India
- c) South India
- d) Northwest India

Ans: Central India

14. Assertion (A): Forests play a key role in the ecological system.

Reason (R): Forests are the primary producers on which all other living beings depend.

Ans: Both A and R are true and R is the correct explanation of A

15. Assertion (A): Neglect of our environment has led to the destruction and extinction of many species of animals and plant life.

Reason (R): Decreasing Forest cover area is a major reason for the destruction of species

Ans :. Both A and R are true and R is the correct explanation of A.

16. Assertion (A): Destruction of forests and wildlife resulted into the loss of cultural diversity.

Reason (R): The conservation of forests and wildlife is essential to provide a better quality of life.

Ans. Both A and R are true but R is not the correct explanation of A.

17. Which of the following animals were gravely threatened, and the Central Government announced several projects for protecting them?

- a) Kashmir stag
- b) The Asiatic lion
- c) One-horned rhinoceros
- d) All of the above

Ans: All of the above

SHORT ANSWER QUESTIONS

1. Write three major reasons for the depletion of forest cover.

Answer:

- (i) Deforestation for agricultural purposes.
- (ii) Shifting cultivation which is still practised in substantial parts of tribal belts.
- (iii) Environmental pollution and forest fires have also led to depletion of forests.

2. Why do we need to conserve our biodiversity?

Answer:

Conservation of biodiversity is necessary because it:

- (i) Preserves the ecological diversity.
- (ii) Preserves our life support systems, i.e., water, air and soil.
- (iii) Preserves the genetic diversity of plants and animals for better growth and breeding of species.
- (iv) Fisheries too are heavily dependent on the maintenance of aquatic biodiversity.

3. List various provisions made by “The Indian Wildlife (Protection) Act 1972” for protecting habitats.

Answer:

- (i) An All India list of protected species was published.
- (ii) The thrust was on protecting the remaining population of certain endangered species by-
 - o banning hunting;
 - o giving legal protection to their habitats and
 - o restricting trade in wildlife.

LONG ANSWER BASED QUESTIONS

1. Write three examples of conservation of biodiversity at community level.

Answer:

Three examples of community participation:

- (i) In ‘Sariska Tiger Reserve’, Rajasthan, villagers have fought against mining by citing the Wildlife Protection Act. In many areas, villagers themselves, are protecting habitats and explicitly rejecting Government involvement.
- (ii) The inhabitants of five villages in the Alwar District of Rajasthan have declared 1200 hectares of forest as the ‘Bhairodev Dakav Sonchuri’, declaring their own set of rules and regulations, which do not allow hunting, and are protecting the wildlife against any outside encroachments.
- (iii) The famous Chipko Movement in the Himalayas has successfully resisted deforestation and has also shown that community afforestation with indigenous species can be a great success.

2. “Forests play a key role in the ecological system.” Highlight the value of forests in our life.

Answer:

- (i) Forests play a key role in the ecological system as these are the primary producers on which all other living beings depend.
- (ii) Many Forests dependent communities directly depend on them for food, drink, medicine, culture, spirituality etc.
- (iii) Forest provide us timber.
- (iv) Forests also provide bamboo, wood for fuel, grass, charcoal, fruits, flowers, etc.

3. “Grazing and fuel-wood collection are responsible for deforestation in India.” Support the statement with suitable reasons

Answer:

- (i) Overgrazing destroys the saplings and plants are tom out by the roots by animals.
- (ii) Overgrazing also leads to soil erosion. Soil erosion is one of the important factors for deforestation.
- (iii) While collecting fuel wood the locals also destroy the trees, which lead to deforestation.

4. What are the main objectives of JFM?

Answer:

- (i) Under the Joint Forest Management programme, local communities are involved in the management

and restoration of degraded forests.

(ii) The major purpose of the JFM is to protect the forests from encroachments, grazing, theft and fire and also to improve the forests in accordance with an approved Joint Forest Management plan.

(iii) In return, the members of these communities are entitled to intermediary benefits like non-timber forest produces.

5. What are the disadvantages of deforestation?

Answer:

Consequences of deforestation include:

(i) Reduction in groundwater levels.

(ii) Exposing soil to heat and rain, leading to soil degradation.

(iii) Increased risk of flooding due to reduced water absorption.

Case Based Question

Conservation strategies are not new in our country. We often ignore that in India, forests are also home to some of the traditional communities. In some areas of India, local communities are struggling to conserve these habitats along with government officials, recognising that only this will secure their own long-term livelihood. In Sariska Tiger Reserve, Rajasthan, villagers have fought against mining by citing the Wildlife Protection Act. In many areas, villagers themselves are protecting habitats and explicitly rejecting government involvement. The inhabitants of five villages in the Alwar district of Rajasthan have declared 1,200 hectares of forest as the Bhairodev Dakav 'Sonchuri', declaring their own set of rules and regulations which do not allow hunting, and are protecting the wildlife against any outside encroachments. The famous Chipko movement in the Himalayas has not only successfully resisted deforestation in several areas but has also shown that community afforestation with indigenous species can be enormously successful. Attempts to revive the traditional conservation methods or developing new methods of ecological farming are now widespread. Farmers and citizen's groups like the Beej Bachao Andolan in Tehri and Navdanya have shown that adequate levels of diversified crop production without the use of synthetic chemicals are possible and economically viable.

Q 1: How have local communities in Alwar, Rajasthan contributed to forest conservation?

1

Answer: In Alwar, Rajasthan, five villages declared 1,200 hectares of forest as Bhairodev Dakav 'Sonchuri,' creating rules to prohibit hunting and protect wildlife against external encroachments, thereby preserving the habitat.

Q 2: What has the Chipko movement demonstrated about community afforestation?

1

Answer: The Chipko movement in the Himalayas has shown that community afforestation with indigenous species can successfully resist deforestation and promote environmental conservation, proving its effectiveness in several areas.

Q 3: What role have local communities and movements played in forest conservation and ecological farming in India?

2

Answer: Local communities and movements in India, such as the Chipko movement, have successfully resisted deforestation and promoted community afforestation with indigenous species. Initiatives like the Beej Bachao Andolan and Navdanya have demonstrated that diversified crop production without synthetic chemicals is both possible and economically viable.

CHAPTER-3

WATER RESOURCES

Dams- A dam is a barrier across flowing water that obstructs, directs or retards the flow, often creating a reservoir, lake or impoundment.

Multipurpose project – A multipurpose project fulfils a variety of purposes at the same time, for example - irrigation, generation of electricity, flood control, fish breeding, etc.

Multi-Purpose River Projects

Advantages:-

- i. Electricity generation
- ii. Irrigation
- iii. Water supply for domestic and industrial uses
- iv. Flood control
- v. Recreation
- vi. Inland navigation
- vii. Fish breeding

Disadvantages:-

- i. Affect natural flow and excessive sedimentation at the bottom of the reservoir
- ii. Submergence of natural vegetation
- iii. Difficult for aquatic fauna to migrate
- iv. Large-scale displacement of local communities
- v. Unsuccessful in control of floods at the time of excessive rain fall
- vi. induced earthquakes, caused water-borne diseases and pests
- vii. Inter-state water disputes

Water Scarcity- Shortage of water for a sustained period is called water scarcity.

Causes of Water Scarcity- growing population, growing demands for water, over exploitation, water pollution, industrialisation and urbanization, commercialisation of agriculture.

Why do we need to conserve water?-to safeguard ourselves from health hazards, to ensure food security, continuation of our livelihoods and productive activities and also to prevent degradation of our natural ecosystems.

Rainwater harvesting – Rain water harvesting is collection and storage of rain water that runs off from roof tops, parks, roads, open grounds, etc. This water runoff can be either stored or recharged into the ground water.

‘Guls’ or ‘Kuls’- Diversion channel for agriculture in the hill and mountainous regions.

Khadins' and 'Johads'- Rain fed storage structures in agricultural fields that allow water to stand and moisten the soil.

Bamboo Drip Irrigation- A type of irrigation where water gets dropped in the form of drops near the roots of the plant mainly to conserve the moisture.

Inundation channels- In the flood plains of Bengal, people developed inundation channels to irrigate their fields.

MULTIPLE CHOICE QUESTIONS (1Marks)

1. Which of the following is not the cause of water scarcity?

- | | |
|------------------------|--|
| (a) Growing population | (b) Expansion of irrigation facilities |
| (c) Industries | (d) Water harvesting technique |

2. Who proclaimed the dams as the ‘temples of modern India’?

- | | |
|--------------------|-----------------------------|
| (a) Mahatma Gandhi | (b) Pt. JawaharLal Nehru |
| (c) Indira Gandhi | (d) SardarVallabhBhai Patel |

3. The main objective of rain water harvesting is?

- | | |
|--------------------------------|---------------------------------|
| (a) to reduce surface run off | (b) to recharge the water table |
| (c) to avoid flooding of roads | (d) all of these |

4. Which of the following is not an adverse effect of dams?

- | | |
|--------------------------------|--|
| (a) Inter-state water dispute | (b) Excessive sedimentation of reservoir |
| (c) Displacement of population | (d) Flood control |

5. The diversion channels seen in the Western Himalayas are called:

- | | | | |
|------------------|-------------|------------|-------------------|
| (a) Guls or Kuls | (b) Khadins | (c) Johads | (d) Recharge pits |
|------------------|-------------|------------|-------------------|

6. Which one of the following statements is not an argument in favour of multi purpose river projects?

- (a) Multi-purpose projects bring water to those areas which suffer from water scarcity.
- (b) Multi-purpose projects by regulating water flow helps to control floods.
- (c) Multi-purpose projects lead to large scale displacements and loss of livelihood.
- (d) Multi-purpose projects generate electricity for our industries and our homes.

7. The Narmada BachaoAndolan is associated with

- (a) Sardar Sarovar Dam
- (b) Tehri Dam
- (c) Hirakud Dam
- (d) Gandhi Sagar Dam

8. Which of the following is not a method of water harvesting used in Rajasthan?

- (a) Johads
- (b) Khadins
- (c) Guls
- (d) Tanka

9. BhakraNangal River Valley Project is made on the river:

- (a) Sutlej-Beas ,
- (b) Ravi-Chenab ,
- (c) Ganga ,
- (d) Son

10. In the question given below there are two types of statements assertion (A) and Reason(R) Read the statement and choose the correct option:

Assertion (A): Dams are called multipurpose projects

Reason (R) : Dams are now built not only for irrigation but for generation of electricity, water supply for domestic use, flood control, recreation inland navigation and fish – breeding.

Options:

- (a) Both a and R are true and R is correct explanation of A.
- (b) Both A and R are true but R is not the correct explanation of A.
- (c) A is correct but R is wrong.
- (d) A is wrong but R is correct.

Ans. 1.d, 2.b, 3.d, 4.d, 5.a, 6.c, 7.a, 8.c, 9.a, 10.a

VERY SHORT ANSWER TYPE QUESTIONS (2 MARKS)

1. What is dam?

Ans.A dam is a barrier across flowing water that obstructs, directs or retards the flow, often creating a reservoir, lake or impoundment.

2. What is Rainwater harvesting?

Ans. Rain water harvesting is collection and storage of rain water that runs off from roof tops, parks, roads, open grounds, etc. This water runoff can be either stored or recharged into the ground water.

3. How did people in West Bengal practice water harvesting?

Ans. People developed inundation channels to irrigate their fields.

4. Which are the two social movements that have been started against multi-purpose projects?

Ans. 1. Narmada BachaoAndolan and 2. Tehri Dam Andolan.

5. Why was the Narmada BachaoAndolan started?

Ans.Andolan focused on environmental issue, rehabilitation of displaced people against the building of SardarSarovar Dam.

SHORT ANSWER TYPE QUESTIONS (3 MARKS)

1. Give any three causes of water scarcity.

Ans. growing population, growing demands for water, over exploitation, water pollution, industrialisation and urbanization, commercialisation of agriculture.

2. Why multipurpose dam projects are called as ‘temples of modern’ India?

Ans. Economic prosperity-agriculture, urbanization, Promotion of tourism, Integrate the development of agriculture and the village economy with rapid industrialization

3. Why do we need to conserve water resources?

Ans. (i) to safeguard ourselves from health hazards,
(ii) to ensure food security,

(iii) for continuation of our livelihoods and productive activities and also to prevent degradation of our natural ecosystems.

4. Why dams are now referred as multi-purpose projects?

- Ans.** (i) The uses of the impounded water are in integration with one another.
(ii) Dams are constructed to control flood, irrigation, generation of electricity.
(iii) Dams are constructed to conserve water, vegetation and soil.
(iv) It also helps to promote tourism.

LONG ANSWER TYPE QUESTIONS (5 MARKS)

1. In recent years, multi-purpose projects and large dams have come under great scrutiny and opposition – Why?

- Ans.** i. Affect natural flow and excessive sedimentation at the bottom of the reservoir
ii. Submergence of natural vegetation
iii. Difficult for aquatic fauna to migrate
iv. Large-scale displacement of local communities
v. Unsuccessful in control of floods at the time of excessive rain fall
vi. induced earthquakes, caused water-borne diseases and pests

2. Analyse the merits of multipurpose projects.

Ans. i. Electricity generation	iv. Flood control
ii. Irrigation	v. Recreation
iii. Water supply for domestic and industrial uses	vi. Inland navigation
	vii. Fish breeding

3. How are traditional rainwater harvesting methods being carried out to conserve water resources in different regions? Explain with examples.

Ans.

Guls or Kuls in western Himalayas. Roof Top rain water harvesting in Rajasthan. Inundation channels in Bengal.	iv. Khadins in Jaisalmer. Johads in Rajasthan. Tankas in arid region of Rajasthan.
--	--

CASE BASED QUESTIONS (4 Marks)

1. Read the content and give answer

Multi-purpose projects and large dams have also been the cause of many new environmental movements like the 'Narmada Bachao Andolan' and the 'Tehri Dam Andolan' etc. Resistance to these projects has primarily been due to the large-scale displacement of local communities. Local people often had to give up their land, livelihood and their meagre access and control over resources for the greater good of the nation. So, if the local people are not benefiting from such projects then who is benefited? Perhaps, the landowners and large farmers, industrialists and few urban centres. Take the case of the landless in a village – does he really gain from such a project?

(a) What was the reason behind Narmada Bachao Andolan?

(b) Who is benefited by multi-purpose projects?

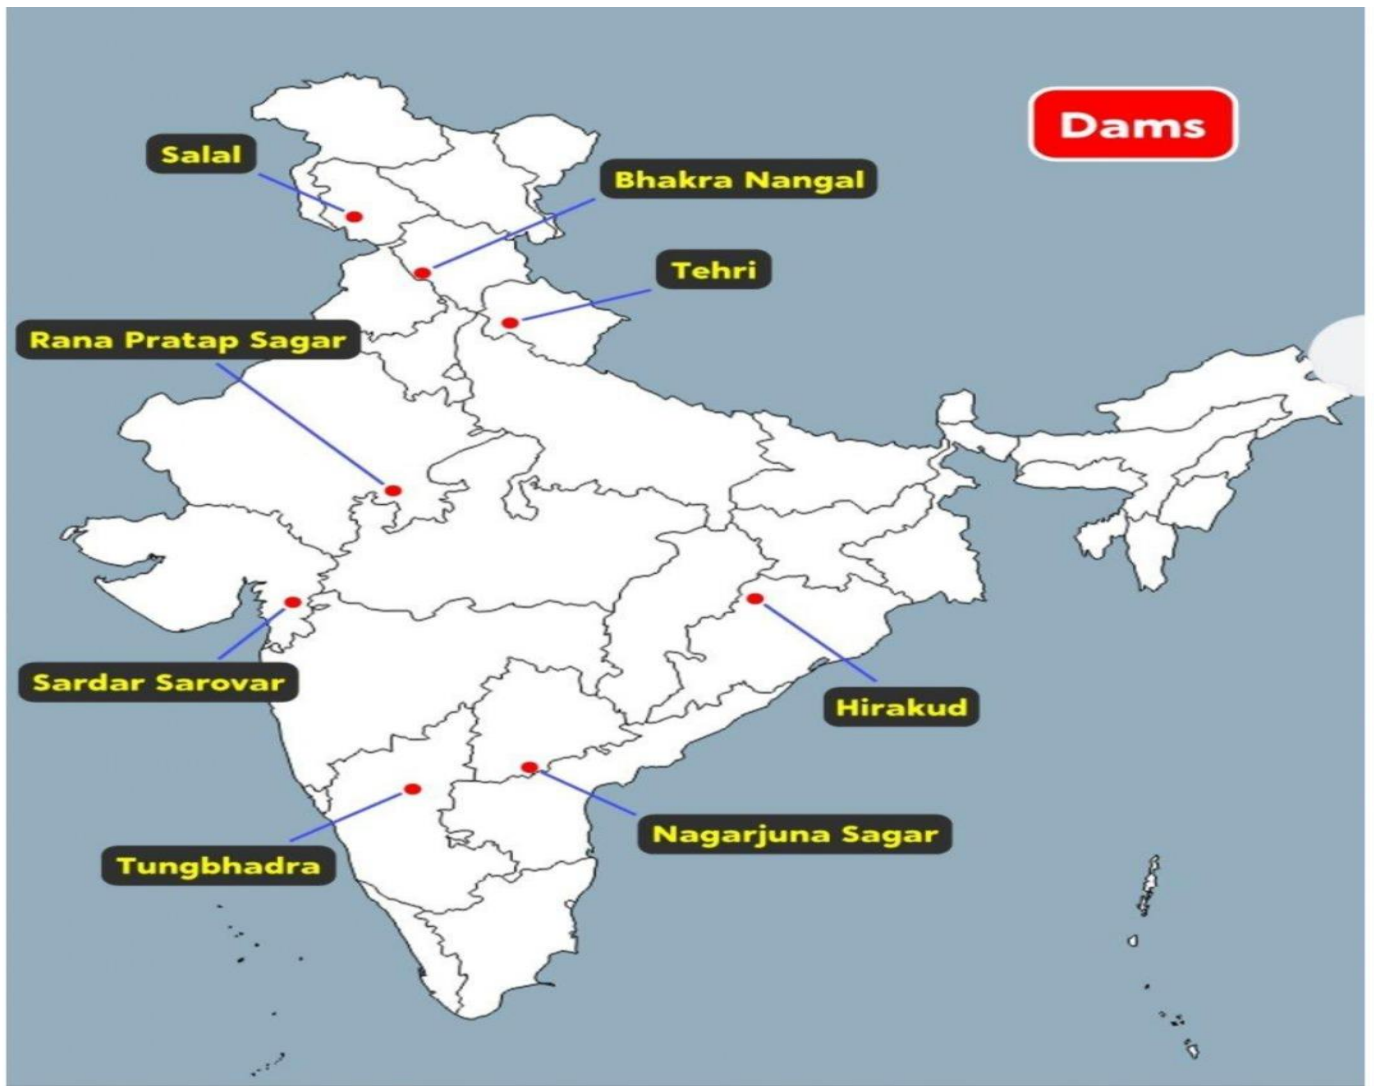

(c) What is your opinion on resistance against large dam from local people. Write in your own words.

Ans. (a) Displacement of local people on a large scale

(b) Zamindars and big farmers or industrialists and some urban centers

(c) The government should compensate the displaced people and make them partners in profit sharing.

Important Dams in the India-

Salal – Jammu & Kashmir

Bhakra Nangal – Himachal Pradesh

Tehri – Uttarakhand

Hiraakud – Odisha

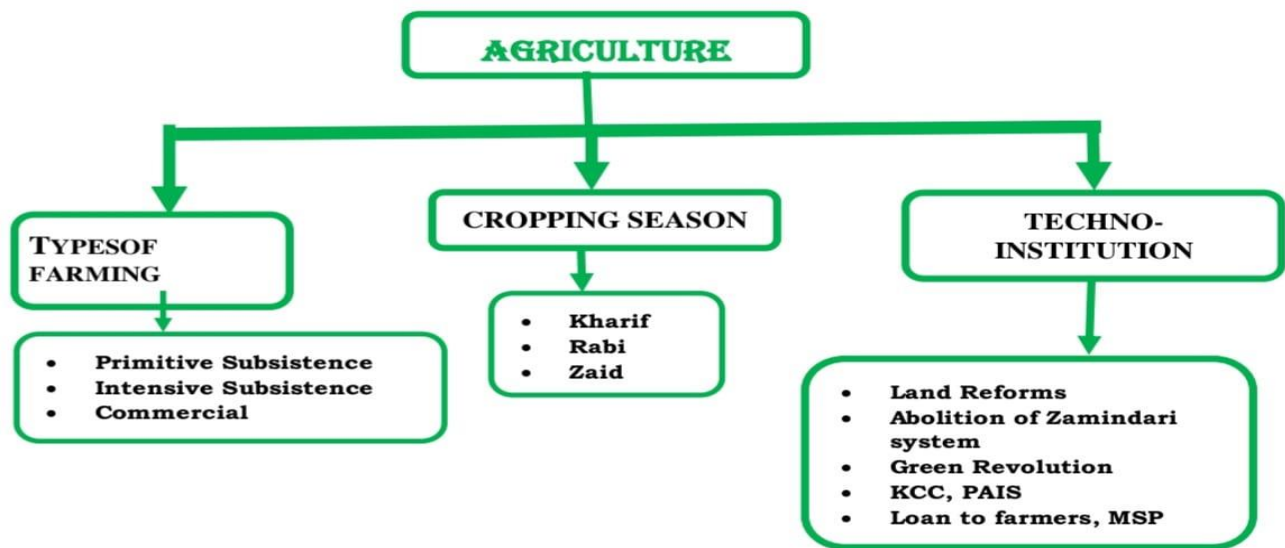

Rana Pratap – Rajasthan

Sardar Sarovar – Gujarat

Tungbhadra – Karnataka

Nagarjuna Sagar – Telangana

CHAPTER -4 AGRICULTURE

Cropping Seasons:

- **Kharif**- Grown with onset of monsoon, harvested in September-October, Crops-Rice (Paddy), Maize, Jowar, Bajra, Tur, Cotton, Jute, Groundnut, Soyabean
- **Rabi**- Sown in winter from October to December and harvested in summer from April to June.
Crops – Wheat, Barley, Peas, Gram, Mustard.
- **Zaid**- Between Kharif and Rabi seasons, short season,
Crops- watermelon, muskmelon, cucumber, vegetables, and fodder crops

Multiple Choice Questions:

1. Which of the following is not correct about plantation farming?

- (a) In this type of farming, a single crop is grown on a large area.
- (b) The plantation has an interface of agriculture and industry.
- (c) Plantations cover large tracts of land called estates.
- (d) Farmers clear a patch of land by felling trees and burning them, to produce cereals and other food crops.

Ans: (d)

2.. The three major cropping seasons of India are:

- (a) Aus, Aman and Boro
- (b) Rabi, Kharif and Zaid
- (c) Baisakh, Paus and Chait
- (d) None of the above

Ans: (b)

3. The main food crop of Rabi season is:

- (a) Wheat
- (b) Rice
- (c) Maize
- (d) Jowar

Ans: (a)

4. Which is the right condition for the growth of maize?

- (a) Temperature between 21 °C to 27°C and old alluvial soil
- (b) Temperature below 17°C and shallow black soil
- (c) Temperature of 25°C and 200 cm of rainfall
- (d) None of the above

Ans: (a)

5. Which of the following crops is a major source of protein in a vegetarian diet?

- (a) Wheat
- (b) Rice
- (c) Pulses
- (d) Oilseeds

Ans: (c)

6. Which of the following is known as golden fibre?

- (a) Cotton
- (b) Jute
- (c) Hemp
- (d) Sil

Ans: (b)

7. Which is the ideal condition for the growth of sugarcane?

- (a) Temperature of 21°C to 27°C and an annual rainfall between 75 cm and 100 cm
- (b) Temperature below 17°C and 50 to 75 cm rainfall
- (c) Temperature of 25°C and 200 cm of rainfall
- (d) none of the above

Ans: (a)

8. Assertion (A) : Tea cultivation is a labour – intensive industry.

Reason (R): Cultivation can be done throughout the year. Tea bushes require warm and moist frost- free climate.

Ans: Both Assertion (A) and Reason (R) are true but Reason (R) is not the correct explanation of Assertion (A)

SHORT ANSWER BASED QUESTIONS

1. What is the importance of agriculture in Indian economy?

Answer:

- (i) India is an agricultural country.
- (ii) Nearly two-thirds of its population depends directly on agriculture for its livelihood.
- (iii) Agriculture is the main stay of India's economy.
- (iv) It produces several raw materials for industries

2. What is plantation agriculture?

Answer :

- (i) Plantation farming is bush or tree farming.
- (ii) It is a single crop farming of rubber, tea, coffee, cocoa, spices, coconut and fruits like apples, grapes, oranges etc.
- (iii). It is capital intensive and demands good managerial ability, technical know-how, sophisticated machinery, fertilizers, irrigation and transport facilities.

3. What factors have hindered the pace of agricultural development in India?

Answer:

- (i) Most of the farmers still depend upon monsoons.
- (ii) Farmers still depend on natural fertilizer and manures and therefore the land does not gain fertility.

- (iii) Indian farmers are still using outdated tools and implements and have not implemented the use of modern farming machinery.
- (iv) They are still using traditional methods of farming and have not made use of new technique of farming, technical and institutional reforms.
- (v) Division of land after every generation has led to fragments, all over the land and small holdings which have become uneconomic.

4. What are the cropping seasons are found in India?

Answer :

India has 3 cropping seasons Rabi, Kharif and Zaid.

(i) Rabi – Crops are sown in winter from October to December and harvested in summer from April to June. Some of the important crops are – wheat, barley, mustard, peas, grass.

(ii) Kharif – Crops are grown with the onset of monsoons and harvested in September – October. Important crops are – paddy, maize, jowar, bajra, tur, moong, urad, cotton, jute, ground nut, soya bean.

(iii) Zaid – Crops are grown between Rabi and Kharif, there is a short season during summer known as Zaid season. Important crops are – watermelon, muskmelon, cucumber, vegetables and fodder crops. Sugar cane takes almost a year to grow.

5. Give the characteristics of commercial farming?

Answer :

(i) Use of higher doses of modern inputs, that is high yielding variety (HYV) seeds, chemical fertilizers, insecticides and pesticides in order to obtain higher productivity.

(ii) Agriculture goods are mainly produced for sale.

(iii) The main crops are rice, millets, spices, cotton, etc. The farmer can sell them on commercial lines.

(iv) The degree of commercialization varies from one region to another. For example, rice is a commercial crop in Haryana and Punjab, but in Orissa, it is subsistence farming.

LONG ANSWER BASED QUESTIONS

1. Which crop is known as the “golden fiber” Explain two geographical conditions essential for the cultivation of this crop. Mention any four uses.

Answer:

Jute is called golden fiber.

Geographical conditions for its cultivation are as follows:

(i) Jute grows well in well-drained fertile soils of the flood plains where the soil is renewed every year.

(ii) High temperature is required during the time of growth.

(iii) It grows well on well-drained fertile soils in the flood plains.

Uses:

(i) It can be used to manufacture gunny bags, mats, ropes, yarn, carpets and other artifacts.

(ii) Jute is used in the manufacture of fabrics, such as Hessian cloth, sacking, scrim, carpet backing cloth (CBC), and canvas.

(iii) Hessian is lighter than sacking, and it is used for bags, wrappers, wall-coverings, upholstery, and home furnishings.

(iv) Sacking, which is a fabric made of heavy jute fibers, has its use in the name.

2. Describe various technological and institutional reforms which led to the Green Revolution in India.

Answer:

Institutional and technological reforms undertaken by the Government of India to improve agriculture were:

A. Institutional Reforms:

i. Comprehensive Land Development Programme was initiated.

- ii. Provision of crop insurance against drought, floods, cyclone, fire and disease was introduced.
- iii. Gramin Banks, Cooperative Societies and Banks were established for providing loan facilities to the farmers at lower rates of interest.
- iv. -Kisan Credit Card (KCC) was introduced.
- v. Collectivisation, consolidation of holding, abolition of Zamindari etc. we're given priority

B. Technological Reforms:

- i. HYV seeds, chemical fertilizer and pesticides were provided.
- ii. Methods of irrigation were modernized.
- iii. Latest agricultural equipment's were introduced.
- iv. Special weather bulletins and agricultural programmes for farmers were introduced on radio and television.

3. Mention the government of India's efforts to modernize agriculture.

Answer:

- (i) Establishment of agricultural universities veterinary services and animal breeding centers.
- (ii) Horticulture development research and development in the field of metrology and weather forecast etc – have been given priority for improving India's agriculture.
- (iii) Improvement in the rural infrastructure, the basic system the country needs in order to work properly (i.e) transport, communication and banking system.
- (iv) Encouragement to the care of machines and chemical fertilizers, development of high yielding varieties of seeds.
- (v) The government has launched various schemes to protect and save plants from pests and diseases.
- (vi) Development of various kinds of tools and implements like factors, harvesters, thrashers etc. have led to increased population and time, minimize chances of wastage, fire and rain destroying the grains lying in the few fields.

CHAPTER-5

MINERAL AND ENERGY RESOURCES

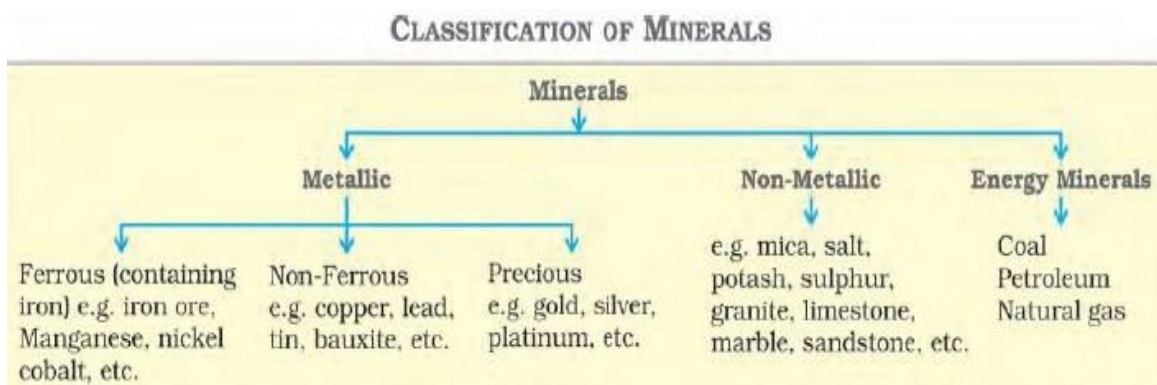

What is a Mineral?

Mineral is defined as a “homogenous, naturally occurring substance with a definable internal structure.”

Mode of Occurrence of Minerals

Minerals are usually found in “ores”. The term ore is used to describe an accumulation of any mineral mixed with other elements. Minerals generally occur in the following forms:

- In igneous and metamorphic rocks, minerals may occur in the cracks, crevices, faults or joints.
- In sedimentary rocks, a number of minerals occur in beds or layers.
- The decomposition of surface rocks and the removal of soluble constituents also forms the minerals.
- Minerals also occur as alluvial deposits in sands of valley floors and the base of hills.
- The ocean waters contain vast quantities of minerals.

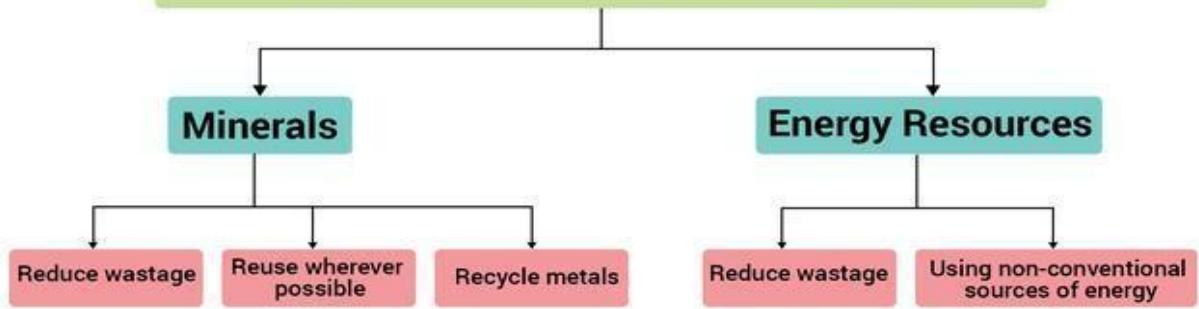

Energy resources can be classified as

1. Conventional Sources: It includes firewood, cattle dung cake, coal, petroleum, natural gas and electricity.

2. Non-Conventional Sources: It includes solar, wind, tidal, geothermal, biogas and atomic energy.

Multiple Choice Questions:

1. Which ore is the most important industrial iron ore in terms of the quantity used?

- (a) Magnetite
- (b) Pyrite
- (c) Goethite
- (d) Hematite

Answer: Hematite

2. Which one of the following minerals is not obtained from the veins and lodes?

- (a) Tin
- (b) Zinc
- (c) Lead
- (d) Gypsum

Answer: Gypsum

3. Koderma, in Jharkhand is the leading producer of which of the following minerals

- (a) Bauxite
- (b) Mica
- (c) Iron ore
- (d) Copper

Answer: Mica

4. India's _____ deposits are mainly found in the Amarkantak plateau, Maikal hills and the plateau region of Bilaspur-Katni.

- a) Bauxite
- b) Iron Ore
- c) Steel

d) Manganese

Answer: Bauxite

5. Minerals are deposited and accumulated in the stratas of which of the following rocks ?

- (a) Sedimentary rocks
- (b) Metamorphic rocks
- (c) Igneous rocks
- (d) None of these

Answer: (a) Sedimentary rocks

6. The principal lignite reserves are found in _____, in Tamil Nadu and are used for the generation of electricity.

- a) Madurai
- b) Vellore
- c) Neyveli
- d) Tuticorin

Answer: Neyveli

7. Majority of India's petroleum production is from _____.

- a) Mumbai High
- b) Assam
- c) Gujarat
- d) None of the above

Answer: Mumbai High

8. Which one of the following minerals are formed by decomposition of rocks , leaving a residual mass of weathered material ?

- (a) Coal
- (b) Bauxite
- (c) Gold
- (d) Zinc

Answer: Bauxite

9. Gold, silver and platinum are examples of _____.

- a) Ferrous minerals
- b) Non-ferrous minerals
- c) Precious minerals
- d) Non-metallic minerals

Answer: Precious minerals

10. Sedimentary rocks on the western and eastern flanks of the peninsula, in Gujarat and _____ have most of the petroleum deposits.

- a) Madhya Pradesh
- b) Telangana
- c) Assam
- d) Maharashtra

Answer: Assam

SHORT ANSWER BASED QUESTIONS

1. What are the uses of copper? Name the two leading copper producing states of India.

Answer

Uses of copper:

- (i) In manufacturing electrical cables.
- (ii) In electronic industries.

(iii) In chemical industries.

The two leading copper producing states of India are Madhya Pradesh and Rajasthan.

2. Why is conservation of mineral resources essential?

Reasons for Conservation:

(i) The strong dependence of industry and agriculture upon minerals.

(ii) The process of mineral formation is slow.

(iii) They are non-renewable.

(iv) They are limited in quantity.

3. There is an urgent need to develop a sustainable path of energy development. As concerned citizens, how can you help to conserve energy?

Answer:

(i) Promotion of energy conservation.

(ii) Increased use of renewable energy sources. As concerned citizens we can do our bit by:

(iii) Using public transport systems instead of individual vehicles.

(iv) Switching off electricity when not in use.

(v) Using power-saving devices.

(vi) Using non-conventional sources of energy.

LONG ANSWER BASED QUESTIONS

1. Why does solar energy have a bright future in India?

Ans.

i. India is a tropical country and gets abundant sunshine.

ii. It has enormous possibilities of tapping solar energy

iii. It is an inexhaustible source of energy which is freely available in nature.

iv. It is a cheaper source of energy and is fast becoming popular in rural and remote areas

v. Photovoltaic technology is available which converts sunlight directly into electricity.

2. “Minerals are unevenly distributed in India.” Support the statement with examples.

Ans. i. Minerals are unevenly distributed in various regions of India.

ii. Peninsular rocks contain most of the reserves of coal, metallic minerals, mica and many other non-metallic minerals.

iii. Sedimentary rocks on the western and eastern flanks of the peninsula, in Gujarat and Assam have most of the petroleum deposits.

iv. Rajasthan with the rock systems of the peninsula, has reserves of many non-ferrous minerals.

v. The vast alluvial plains of North India are almost devoid of economic minerals.

3. “Minerals are indispensable part of our lives’. Support the statement with examples.

Answer

Minerals are an indispensable part of our lives:

(i) Almost everything we use, from a tiny pin to a towering building or a big ship, all are made from minerals.

(ii) The railway lines and the tarmac (paving) of the roads, our implements and machinery too are made from minerals.

(iii) Cars, buses, trains, aeroplanes are manufactured from minerals and run on power resources derived from the earth.

(iv) Even the food that we eat contains minerals.

(v) In all stages of development, human beings have used minerals for their livelihood, decoration, festivities, religious and ceremonial rites.

Case Based Questions

1. Read the content and give answer :

Electricity has such a wide range of applications in today's world that, its per-capita consumption is considered as an index of development. Electricity is generated mainly in two ways: by running water which drives hydro turbines to generate hydroelectricity; and by burning other fuels such as coal, petroleum and natural gas to drive turbines to produce thermal power. Once generated the electricity is exactly the same. Hydro electricity is generated by fast flowing water, which is a renewable resource. India has a number of multi-purpose projects like the Bhakra-Nangal, Damodar Valley corporation, the Kopili Hydel Project etc. producing hydroelectric power. Thermal electricity is generated by using coal, petroleum and natural gas. The thermal power stations use non-renewable fossil fuels for generating electricity.

(i) How hydro electricity is generated? 1

Ans. Hydro electricity is generated by fast flowing water.

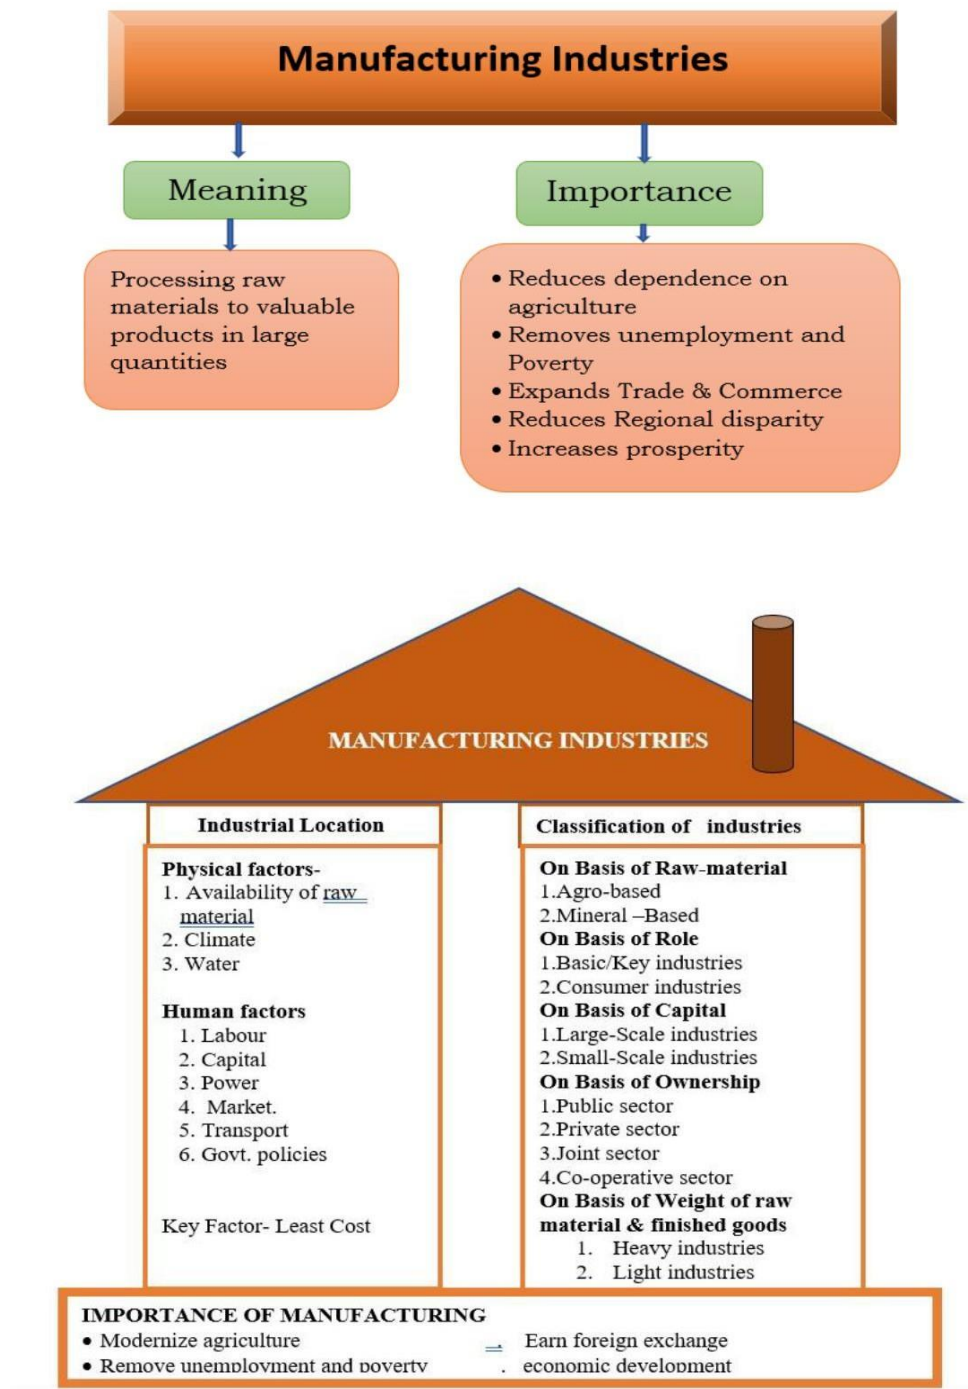

(ii) How does thermal power stations generate electricity? 1

Ans : Thermal electricity is generated by using coal, petroleum and natural gas.

(iii) What are the two ways to generate electricity? 2

Ans: By running water and burning other fuels as coal.

CHAPTER-6 MANUFACTURING INDUSTRIES

Industrial Location

Industrial locations are influenced by the availability of:

- i. Raw material
- ii. Labour
- iii. Capital
- iv. Power
- v. Transport & communication
- vi. Market
- vii. Water
- viii. Government policies

Control of Environmental Degradation-

Here are some ways through which industrial pollution can be reduced:

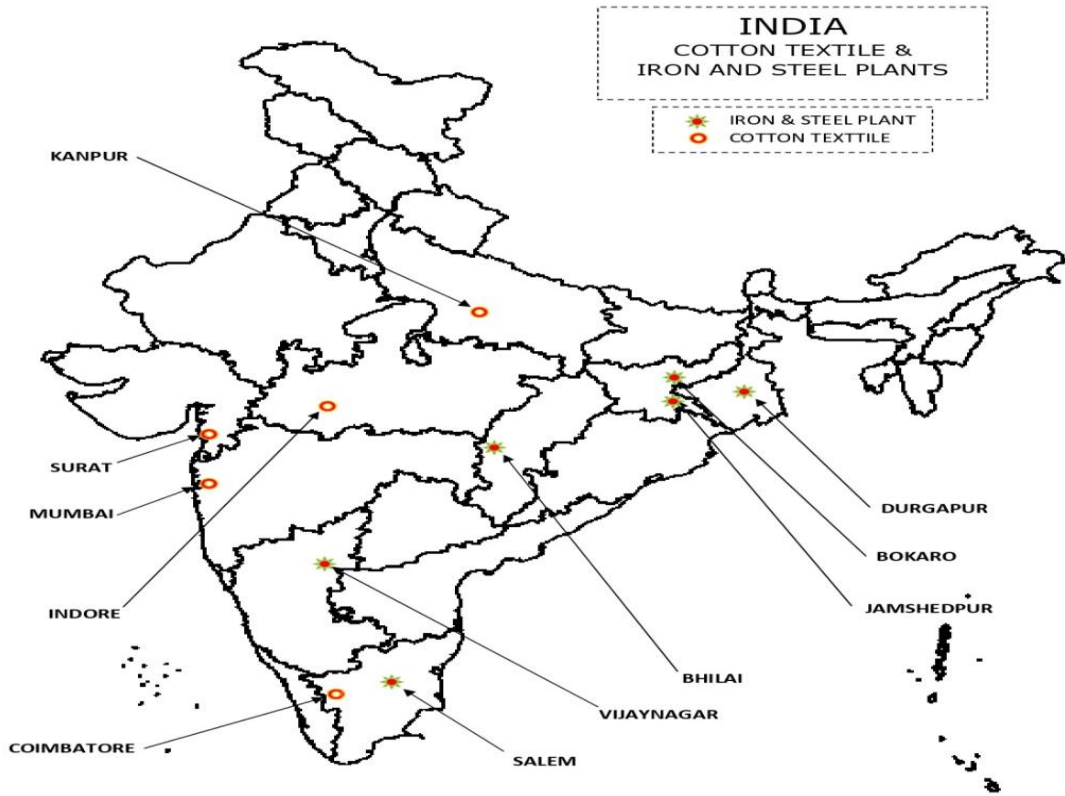

1. Minimising the use of water by reusing and recycling it.
2. Harvesting rain water to meet water requirements.
3. Treating hot water and effluents before releasing them in river sand ponds.
4. Particulate matter in the air can be reduced by fitting smoke stacks to

factories with electrostatic precipitators, fabric filters, scrubbers and inertial separators.

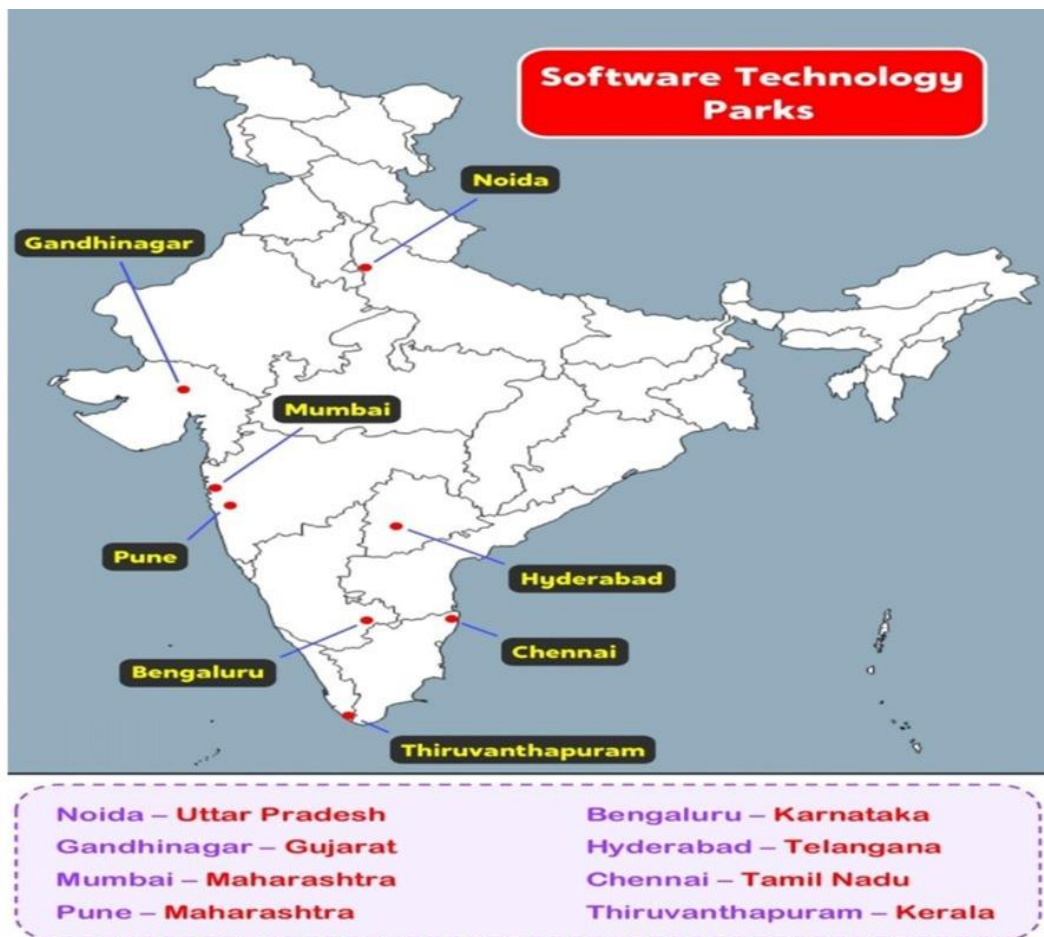

5. Smoke can be reduced by using oil or gas instead of coal in factories.

Machinery can be redesigned to increase energy efficiency and reduce noise.

Multiple Choice Questions:

1. Which of the following is not a raw material used in the Iron and Steel industry?

- a. Limestone
- b. Coal
- c. Iron Ore
- d. Uranium

Answer : Uranium

2. Which of the following is an example of a cottage industry?

- a. Textile Industry
- b. Sugar Industry
- c. Handloom Industry
- d. Electronic Industry

Answer: Handloom Industry

3. Which of the following is not a factor affecting the location of an industry?

- a. Availability of raw materials
- b. Unavailability to markets
- c. Availability of labour
- d. Climate

Answer: Unavailability to markets

4. Which of the following measures the government takes to promote industries in backward areas?

- a. Tax concessions
- b. Infrastructure development
- c. Subsidies
- d. All of the above

Answer: All of the above

5. Which of the following is a plant in Chhattisgarh that manufactures Steel?

- a. TISCO
- b. Bhilai Steel Plant
- c. Bokaro Steel Plant
- d. Rourkela Steel Plant

Answer: Bhilai Steel Plant

SHORT ANSWER BASED QUESTIONS

1. “Manufacturing industry is considered the backbone of economic development of India.” Give reasons.

Answer:

Importance of manufacturing industries for India:

- (i) It helps in modernizing agriculture, which is the base of our economy.
- (ii) It reduces heavy dependence on agricultural income by providing jobs in non-agricultural sectors.
- (iii) Industrial development is necessary for eradication of poverty and unemployment because people get jobs and generate more income.
- (iv) Export of manufactured goods expands trade and brings in much needed foreign exchange.

2. “Agriculture and industry are not exclusive of each other, but move hand in hand.” Give arguments in favour of this statement.

Answer:

- (i) Agro-industries in India have boosted agriculture by raising its productivity.
- (ii) Industries depend on agriculture for their raw materials, e.g. cotton textile industry.
- (iii) Industries provide many agricultural inputs like irrigation pumps, fertilisers, insecticides, PVC pipes, machines and tools etc. to the farmers.
- (iv) Manufacturing industries have assisted agriculturists to increase their production and also made the production processes very efficient.
- (v) Development of different modes of transport by industrial sector has not only helped farmers to obtain agricultural inputs but has also helped them trade their products.

3. List the major factors which affect the location of an industry at a place. What is the key to the decision of ‘factory location’?

Answer:

- (i) Raw material. Cheap and abundant availability of raw material. Industries which use heavy and perishable raw material have to be located close to the source of raw material.
- (ii) Labour. Availability of cheap labour is necessary for keeping the cost of production low.
- (iii) Power. Cheap and continuous supply of power is extremely necessary for continuity in the production process.
- (iv) Capital. It is necessary for developing infrastructure, for the entire manufacturing process and for meeting manufacturing expenditure.
- (v) Banking and insurance facilities, favourable government policies are other factors which affect location of an industry.

LONG ANSWER BASED QUESTIONS

1. Explain the main factors which are responsible for the concentration of jute mills along the banks of Hugli river.

Answer:

Factors responsible for the concentration of jute industry on the banks of Hugli:

- (i) Proximity of the jute producing areas to the Hugli Basin.
- (ii) Inexpensive water transport provided by the Hugli river.
- (iii) It is well connected by a good network of railways, waterways and roadways to facilitate movement of raw materials to the mills.
- (iv) Abundant water for processing raw jute.
- (v) Availability of cheap labour from West Bengal and the adjoining States of Bihar, Orissa and Uttar Pradesh.
- (vi) Kolkata as a port and large urban centre, provides banking, insurance and port facilities for export of jute goods.

2. Why are sugar mills shifting and concentrating in southern and western State of India? Give reasons.

Answer:

Sugar Industry is shifting towards southern and western States, because:

- (i) Cane produced here has higher sucrose content.
- (ii) The favourable climatic conditions (cooler climate) ensure a longer growing and crushing season.
- (iii) The Cooperatives are more successful in these States and sugar industry being seasonal in nature, is ideally suited to cooperative sector.
- (iv) Yield per hectare is higher in southern States.

3. Why is iron and steel industry called the basic or key industry? Explain.

Answer:

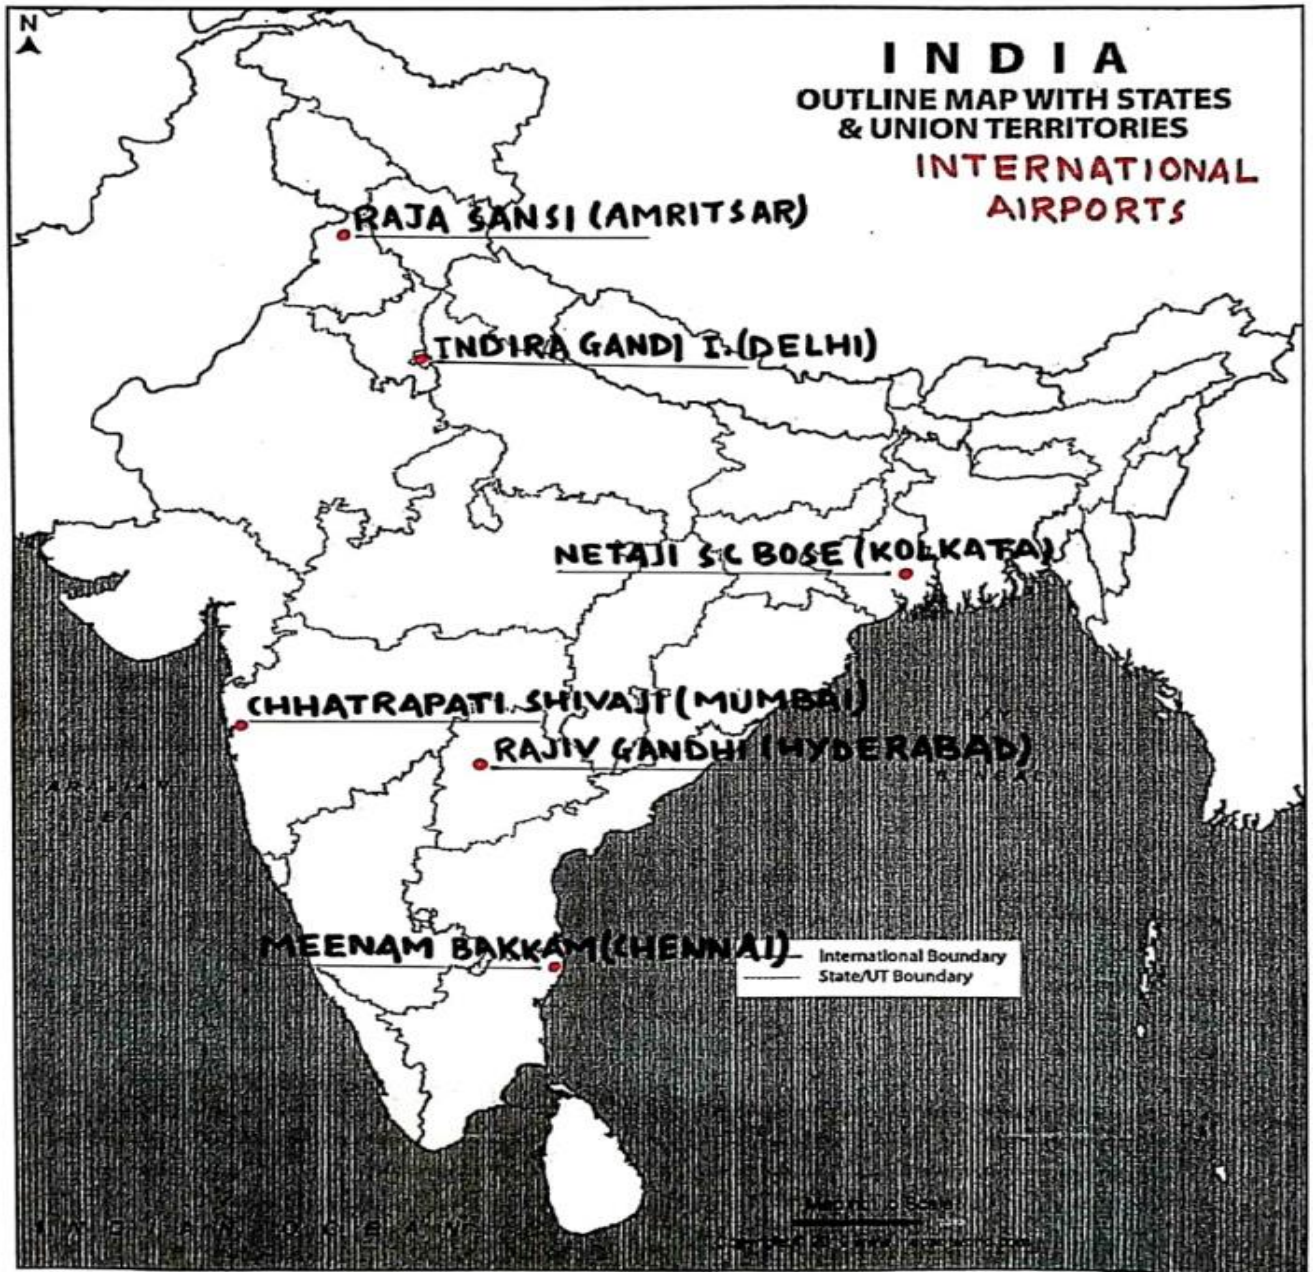

- (i) Since all the other industries- heavy, medium and light, depend on it for their machinery.
- (ii) Steel is needed to manufacture a variety of engineering goods.
- (iii) Steel is needed for construction material, defence and medical equipments.
- (iv) Steel is needed for telephonic, scientific equipment and a variety of consumer goods.
- (v) Production and consumption of steel is often regarded as the index of a country's development.

POWER SHARING

1. In every nation, diverse communities and social groups live together. They may live in harmony with each other or alternatively, diversities among communities may become a perpetual source of conflict and fighting among them.

Examples-Belgium, where different communities live in harmony

-Sri Lanka, where different communities are engaged in a civil war.

2. Belgium adopted a political system in which different communities share power and the government takes into consideration the interest of different communities while conducting the affairs of the state. There is harmony and the country is marching ahead on the road to prosperity.
3. Sri Lanka gave preference to majoritarianism, the majority community chose to play rough with the minority community .All the political power came to be concentrated with the majority group. Sri Lanka has been faced with a civil war for long. It has caused a terrible setback to the social, cultural and economic life of the country.
4. Power sharing is favoured due to number of reasons .These reasons can be divided into two groups (i) Prudential reasons (ii) Moral reasons.

While prudential reasons stress that power sharing will bring out better outcomes, moral reasons emphasise the very act of power sharing as valuable.

5. In modern democracies, power sharing arrangements can take many forms.

- Horizontal distribution of power: Power is shared among different organs of government, such as the legislature, executive and judiciary. Example: India.
- Federal Government (Vertical distribution of power): Power can be shared among governments at different levels – a general government for the entire country and governments at the provincial or regional level. Example: USA.
- Power may also be shared among different social groups such as the religious and linguistic groups. Example: ‘Community government’ in Belgium.
- Power sharing arrangements can also be seen in the way political parties, pressure groups and movements control or influence those in power.

❖ Why power sharing is desirable?

- Power sharing is good because it helps to reduce the possibility of conflict between social groups.
- Power sharing is the very spirit of democracy.
- A democratic rule involves sharing power with those affected by its exercise, and who have to live with its effects.

CASE BASED QUESTIONS AND ANSWERS:

1. Read the text carefully and answer the questions: Two different sets of reasons can be given in favour of power-sharing. Firstly, power-sharing is good because it helps to reduce the possibility of conflict between social groups. Since social conflict often leads to violence and political instability, power sharing is a good way to ensure the stability of political order. Imposing the will of the majority community over others may look like an attractive option in the short run, but in the long run, it undermines the unity of the nation. The tyranny of the majority is not just oppressive for the minority; it often brings ruin to the majority as well. There is a second, deeper reason why power sharing is good for democracies. Power-sharing is the very spirit of democracy. A democratic rule involves sharing power with those affected by its exercise, and who have to live with its effects. People have a right to be consulted on how they are to be governed. A legitimate government is one where citizens, through participation, acquire a stake in the system. The first set of reasons is Prudential and the second is moral. While prudential reasons stress that power-sharing will bring out better outcomes, the former emphasises the very act of power sharing as valuable.

Q1. Which reasons help in avoiding conflict in society and preventing majority tyranny?

Ans: Prudential reason help in avoiding conflict in society and preventing majority tyranny.

Q.2. What are the ill impact of social conflicts?.

Ans: violence and political instability

Q.3. Write the feature of a legitimate government?

Ans: A legitimate government is one where citizens, through participation, acquire a stake in the system. The first set of reasons is Prudential and the second is moral.

CHAPTER – 2 FEDERALISM

What is federalism?

Federalism is a system of government in which the power is divided between a central authority and various constituent units of the country.

Federalism has two levels of government:

Under a unitary system, there is either only one level of government or sub-units are subordinate to the centre.

In a federal system, the central government cannot order a state government to do something.

There are two kinds of federations:

Holding Together Federation – In this type, powers are shared between various constituent parts to accommodate the diversity in the whole entity.

Coming Together Federation – In this type, independent states come together to form a larger unit.

The key features of federalism:

- (i) There are two or more levels (or tiers) of government.
- (ii) Different tiers of government govern the same citizens, but each tier has its own JURISDICTION in a specific matter of legislation, taxation and administration.
- (iii) The jurisdictions of the respective levels or tiers of government are specified in the Constitution.
- (iv) The fundamental provisions of the Constitution cannot be unilaterally changed by one level of government.
- (v) Courts have the power to interpret the Constitution and the powers of different levels of government.
- (vi) Sources of revenue for each level of government are clearly specified to ensure its financial autonomy.
- (vii) The federal system thus has dual objectives: to safeguard and promote the unity of the country, while at the same time accommodate regional diversities.

What makes India a federal country?

1. The constitution declared India as the Union of States.
2. The Constitution originally provided for a two-tier system of government, the Union Government or what we call the Central Government, representing the Union of India and the State government.
3. Later the third tier of federalism was added in the form of Panchayats and municipalities.
4. The Constitution contains three lists:
 - I) Union Lists includes subjects of national importance such as defence of the country, foreign affairs, banking, communications and currency.
 - II) State Lists contains subjects of States and local importance such as police, trade, commerce, agriculture and irrigation.
 - III) Concurrent List includes subjects of common interest to both the Union Governments, such as education, forest, trade unions, marriage, adoption and succession.

How is federalism practiced?

1. Constitutional provisions are necessary for the success of federalism but these are not sufficient.
2. The real success of federalism in India can be attributed to the nature of democratic politics in our country.

Linguistic States:

1. The creation of linguistic states was the first and a major test for democratic politics in our country.
2. Many old States have vanished and many new States been created.
3. In 1947, the boundaries of several old states of India were changed in order to create new States.
4. This was done to ensure that people who spoke the same language lived in the same States.
5. When the demand for the formation of States on the basis of language was raised, some national leaders feared that it would lead to the disintegration of the country.

Language Policy:

1. The second test for Indian Federation is the language policy.
2. Our Constitution did not give the status of national language to any one language.
3. Hindi was identified as the official language.
4. According to the Constitution, the use of English for official purposes was to stop in 1965.
5. The central government responded by agreeing to continue the use of English along with Hindi for official purposes.
6. Promotion does not mean that the Central Government can impose Hindi on states where people speak a different language.

Centre-state relation:

1. Restructuring the centre-state relations is one more way in which federalism has been strengthened in practice.
2. In 1990 there was the rise of regional political parties in many States of the country.
3. This was also the beginning of the era of **COALITION GOVERNMENT** at the Centre.
4. Since no single party got a clear majority in the Lok Sabha, the major national parties had led to enter into an alliance with many parties.
5. This led to a new culture of power sharing and respect for the autonomy of State Government.
6. Thus, federal power sharing is more effective today than it was in the early years after the Constitution came into force.

Decentralization in India:

1. Federal government has two or more tiers of government.
2. But a vast country like India cannot be run only through these two-tiers.
3. Federal power sharing in India needs another tier of government
4. This resulted in a third-tier if the government called local government.
5. When power is taken away from Central and State government, it is called decentralisation.
6. As the local level, it is possible for the people to directly participate in decision making.
7. A major step towards decentralisation was taken in 1992.
8. The rural local government is popularly known by the name panchayati raj.
9. This is a council consisting of several ward members, often called panch, and a president or sarpanch.
10. They are directly elected by all the adult population living in that ward or village.

LONG QUESTION ANSWER:

1. What are the features of Federalism?

Ans. 1) There are two or more levels of government.

2) Different tiers of government govern same citizens but each tier has its own jurisdiction in specific matters of legislation, taxation and administration.

3) The jurisdiction of respective levels is specified in the constitution. So the existence and authority of each tier of government is constitutionally granted.

4) Fundamental provisions of the constitutions cannot be unilaterally changed by one level of government and require the constitutions and the powers of government of different levels. The highest court acts as the umpire if disputes arise in the exercise of their respective powers.

5) Sources of revenues are specified to ensure the financial autonomy.

2. Explain how power is shared among different organs of the government.

Ans. 1) **Union List:** Subjects of national importance like defense, foreign affairs, atomic energy, banking, post and telegraph are included in the Union List. Only the central government can pass laws on the subjects mentioned in the union list because we need a uniform policy on important or national issues throughout the country. The union list has 97 subjects.

2) **State List:** It comprises those important subjects on which the state government can pass laws. Subjects like police, local government, trade and commerce, agriculture are within the state included in the State list. The state list has 66 subjects.

3) **Concurrent List:** The concurrent list comprises the subjects which are of common concern both to

the centre and state government. Both the centre and state governments can frame laws on these subjects. However if there is a conflict between the central law and state law, over a subject in the Concurrent list, the central law would be effective. The concurrent list has 47 subjects.

4) **Residuary Powers:** Matters which are not included in the division of powers are known as residuary powers. It was felt that there can be subjects which are not mentioned in either of these lists. The central government has been given the power to legislate on the residuary subjects.

3. What major steps were taken in 1992 towards decentralization?

Ans. i) Now it is constitutionally mandatory to hold regular elections to local government bodies.

ii) States are reserved in the elected bodies and the executive heads of these institutions for Scheduled Castes, Scheduled Tribes and other Backward Classes.

iii) At least one third of all positions are reserved for women.

iv) An independent institution called the state Election Commission has been created in each State to conduct panchayat and municipal elections.

v) The state governments are required to share some powers and revenue with local government bodies. The nature of sharing varies State to state.

CASE STUDY BASED QUESTION:

Read the content and give answer:

The latest information that we have is from the Census of India held in 2011. This census recorded more than 1300 distinct languages which people mentioned as their mother tongues. These languages were grouped together under some major languages. For example languages like Bhojpuri, Magadhi, Bundelkhandi, Chhattisgarhi, Rajasthani and many others were grouped together under 'Hindi'. Even after this grouping, the Census found 121 major languages. Of these 22 languages are now included in the Eighth Schedule of the Indian Constitution and are therefore called 'Scheduled Languages'. Others are called 'non-Scheduled Languages'. In terms of languages, India is perhaps the most diverse country in the world.

Q-i)-What are scheduled languages?

1

Ans-Scheduled languages are the 22 languages which are included in the eighth schedule of the Indian constitution.

Q-ii) What languages were grouped under Hindi?

1

ANS- Bhojpuri, Magadhi, Bundelkhandi, Chhattisgarhi, and Rajasthani were grouped together under 'Hindi'

Q-iii) How has the linguistic diversity posed a challenge for democratic politics of India? 2

ANS –National leaders feared that formation of linguistic states would lead to disintegration of the country.

-The south Indian states resorted to violence when Hindi was imposed on them.

LONG ANSWER TYPE QUESTION

1. Mention different aspects of life in which women are discriminated or disadvantaged in India.

Answer.

The women in India are discriminated or disadvantaged in the following ways:

Literacy – The literacy rate for women is 65.46 per cent, against 82.14 per cent for men. This shows that since independence, the gap between the ratio of men and women with respect to literacy still cannot be filled.

Higher education – When you compare the percentage of boys and girls opting for higher studies after school, it is lower for girls as they tend to drop out after schools. This is because parents do not wish to spend their resources on a girl's education, which is quite expected in boys' cases.

Highly paid jobs – The percentage of women working in high-paying jobs is still smaller than that of men. On an average, an Indian woman works one hour more than an average man every day. Yet, much of her work is not paid and therefore often not valued.

The Equal Remuneration Act, 1976 states that equal wages should be paid for equal work. However, in almost all areas of work, from sports and cinema to factories and fields, women are paid less than men, even when both do exactly the same work.

Sex-ratio – Sex Ratio of India is 107.48, i.e., 107.48 males per 100 females in 2019.

2. State different forms of communal politics with one example each.

The quest for political dominance of one religion over another in a community. It takes a form of majoritarianism. For example, rift between political parties based on religion.

Political mobilisation on religious lines is another frequent form of communalism. Example – During elections, hate speeches come to the surface, revealing the communalism.

Communal violence is another form of communalism in politics. For example, riots on the basis of religious sentiments.

3. Explain the various forms that caste can take in politics.

Answer: Various forms of caste in politics:

i) When governments are formed, political parties usually take care that representatives of different castes and tribes find a place in it.

ii) When parties choose candidates, they keep in mind the composition of the electorate and accordingly choose candidates from different castes so as to muster necessary support to win elections.

iii) Political parties make appeals to caste sentiments to gain support. Some political parties are known to favour some castes.

iv) Universal adult franchise and the principle of one-person-one-vote compelled political leaders to mobilise political support. It also brought new consciousness among people belonging to those castes which were treated as inferiors.

CASE STUDY BASED QUESTION

In India, the proportion of women in legislature has been very low. For example, the percentage of elected women members in Lok Sabha has touched 14.36 per cent of its total strength for the 17th Lok Sabha in 2019. Their share in the state assemblies is less than 5 percent. In this respect, India is among the bottom group of nations in the world. India is behind the averages for several developing countries of Africa and Latin America. In the government, cabinets are largely all-male even if a woman becomes the Chief Minister or the Prime Minister. One way to solve this problem is to make it legally binding to have a fair proportion of women in the elected bodies. This is what the Panchayati Raj has done in India. One-third of seats in local government bodies – in panchayats and municipalities – are now reserved for women.

1. What is the status of proportion of women in legislature in India? (1)

Ans: The status of proportion of women in legislature in India has been very low.

(2)

Ans: The percentage share of representation of women in Lok Sabha and state legislative assemblies are 14.36% and less than 5% respectively. The one way to solve the problem to have a fair proportion of women in elected body in India has done through the reservation of one-third of seats in local government bodies-panchayats and municipalities.

CHAPTER-4 POLITICAL PARTIES

Why Do We Need Political Parties?

A Political Party is a group of people who come together to contest elections and hold power in the government. They agree on some policies and programmes for society with a view to promoting the collective good. Parties reflect fundamental political divisions in society. Thus, a party is known by which part it stands for, which policies it supports and whose interests it upholds.

A political party has three components:

Party System

There are three types of party system a country can have.

One Party System

- Only one party is allowed to control and run the government. Ex- China

Two Party System

- Power usually changes between two main parties. Ex- USA, UK

Multi-Party System

- Several parties compete for power, and more than two parties have a reasonable chance of coming to power either on their own strength or in alliance with others.

Ex-India

NATIONAL PARTIES OF INDIA:

A party that secures at least six percent of the total votes in Lok Sabha elections or Assembly elections in four States and wins at least four seats in the Lok Sabha is recognised as a national party.

Indian National Congress (INC)

Bharatiya Janata Party (BJP)

Bahujan Samaj Party (BSP)

Communist Party of India - Marxist (CPI-M)

Aam Aadmi Party (AAP)

National Peoples Party

State Parties

A party that secures at least six percent of the total votes in an election to the Legislative Assembly of a State and wins at least two seats is recognised as a state party.

How can Parties be reformed?

Recent efforts and suggestions in India:

- The Constitution was amended to prevent elected MLAs and MPs from changing parties.
- New law states that if any MLA or MP changes parties, he or she will lose the seat in the legislature.
- The Supreme Court passed an order to reduce the influence of money and criminals.
- The Election Commission passed an order making it necessary for political parties to hold their organizational elections and file their income tax returns. Some suggestions to reform political parties:
 - A law should be made to regulate the internal affairs of political parties.
 - To give a minimum number of tickets, about one-third, to women candidates
 - There should be state funding of elections.

- ii. It should be mandatory for political parties to give one-third tickets to women candidates. Also there should be quota for women on the decision-making bodies of the party.
- iii. There should be state funding of elections. The government should give money to parties to support their election expenses in kind (petrol, paper, telephone, etc.) or in cash on the basis of votes secured by the party in the previous election.
- iv. The candidate should be educated, so that he can solve and understand people's problems. His previous record should be cleared. He should be honest and there should be no criminal case against him.
- v. Citizens can reform politics if they take part directly and join political parties. People can put pressure on political parties through petitions, publicity in media, agitations etc.

3. What are the various challenges faced by political parties?

Answer:- The various challenges faced by political parties are:

Lack of Internal democracy:

- Every member of the party does not have a chance to take part in the decision-making process.
- Every member is not consulted before taking a decision.
- There is no proper organisation or registration of members.
- Power remains in the hands of a few top leaders, who do not consult ordinary members.
- Ordinary members have no information about the internal working of the party.

Dynastic Succession

With power in the hands of a few top leaders, all party positions go to their family members. These members may not be qualified or have the ability to hold their positions.

Money and Muscle Power:

- Money is needed to organise demonstrations, public meetings, and speeches to publicise the image of the party. Parties choose those candidates who can raise money for the party and win elections with their money.
- Sometimes parties also support criminals candidates because they can win elections.

Lack of meaningful choice to voters

Most of the political parties have the same fundamental and ideological issues. Voters do not have a meaningful choice. Even leaders keep changing parties, thus confusing the voter.

CASE STUDY BASED QUESTION

Read the passage given below and answer the questions that follow-

Every party in a country has to register with the Election Commission. While the Commission treats all parties equally, it offers some special facilities to large and established parties. These parties are given a unique symbol-only the official candidates of that party can use that election symbol. Parties that get this privilege and some other special facilities are 'recognized' by the Election Commission for this purpose. This is why these parties are called, 'recognized political parties'. The Election Commission has laid down detailed criteria of the proportion of votes and seats that a party must get in order to be a recognized party. A party that secures at least six percent of the total votes in an election to the Legislative assembly of a State and wins at least two seats are recognized as a state party. The party that secures at least six percent of the total votes in Lok sabha election or Assembly elections in four states and wins at least four seats in the Lok sabha is recognized as a National Party.

- | | |
|--|---|
| i) Who gives the unique symbol to every political party? | 1 |
| ii) How many percent of votes does a party need to win in a legislative assembly of a state? | 1 |
| iii) Which parties are recognized as political parties? | 2 |

Answer: i) The Election Commission.

ii) at least 6 percent.

iii) Parties that are given a unique symbol and that get this privilege and some other special facilities are 'recognized' by the Election Commission for this purpose. Party that register with the Election commission.

Answer: Democracy is considered to be successful because:

- * The rulers elected by the people must take all major decision and not the rich and powerful.
- * The election must offer a free choice and opportunity to the people.
- * The choice should be available to all the people based on political equality.

4. What outcomes can one reasonably expect of democracies?

Answer: The outcomes one can reasonably expect of the democracy are:

- * In the political sphere we can expect accountable and legitimate government.
- * In the economic sphere we can expect minimised economic inequalities.
- * In the social sphere we can expect equal protection to oppressed classes and women.

LONG ANSWER TYPE QUESTION

1. How does democracy produce an accountable, responsive and legitimate government?

Answer→ Democracy produces an accountable government: Democracy produces an accountable governments, as the people has the right in choose their representatives through the electoral process. These elected representatives form the government and participate in the decision-making process on behalf of the people. If these elected representatives not work properly, people have a chance to not elect them in next election.

→ Democracy Produces Responsive Government: Democratic governments are elected by the people and are responsible towards the people and Parliament. These governments promote the formation of public opinion and take care of the needs and expectations of the people.

→ Democracy Produces Legitimate Government: A democratic government is people's own government. People wish to be ruled by representatives elected by them. They also believe that democracy is suitable for their country. Democracy's ability to generate its own support is itself an outcome that cannot be ignored

2. "Democracies do not appear to be very successful in reducing economic inequalities". Examine the statement with examples.

Answer:

Over the years, careful evidence has been gathered to see what the relationship of democracy with economic growth and economic inequalities is.

It is seen that on an average dictatorial regimes have had a slightly better record of economic growth, i. e., 4.34%. But when we compare their record only in poor countries (4.28%), there is no difference.

There is enough evidence to show that within democracies there can be very high degree of inequalities. In countries like South Africa and Brazil, the top 20 per cent people take away more than 60 per cent of the national income, leaving less than 3 per cent for the bottom 20 per cent population.

Perhaps more than development, it is reasonable to expect democracies to reduce economic disparities. Democracies are based on political equality, but despite equality in the political arena there are growing economic inequalities. The poor constitute a large proportion of our voters and no party would like to lose its votes. Yet democratically elected governments do not appear to be keen to tackle the problem of poverty.

Democracies are expected to produce good government, but there is no guarantee that they would also produce development. As evidence shows, the economic development depends on several factors, such as country's size, global situation, co-operation from other countries, economic priorities adopted by the country etc.

Assertion Reason Question:

The following questions consist of two statements — Assertion (A) and Reason (R). Answer these questions selecting the appropriate option given below:

- Both A and R are true and R is the correct explanation of A.
- Both A and R are true but R is not the correct explanation of A.

- (c) A is true but R is false.
- (d) A is false but R is true.

Q.1. Assertion (A): Democracy is not simply a rule by majority of opinion.

Reason (R): In a democracy, majority always need to work with the minority so that governments can function to represent the general view.

Answer: (a)

Q.2. Assertion (A): Democracy stands much superior to any other form of government in promoting dignity and freedom to the individuals.

Reason (R): Democracies have successfully reduced economic disparities.

Answer: (c)

Q.3. Assertion (A): The democratic government will take more time to follow procedures before arriving at a decision.

Reason (R): Democratic government has followed procedures, its decisions may be both more acceptable to the people and more effective.

Answer: (a)

Q.4. Assertion (A): Democracy ensures that decision making will be based on norms and procedures.

Reason (R): A citizen in a democracy who wants to know if a decision was taken through correct procedures can find this out easily.

Answer: (a)

Q.5. Assertion (A): Democracy transforms people from the status of a subject into that of a citizen.

Reason (R): Most individuals believe that their vote makes a difference to the way the governments run and to their own self-interest.

Answer: (a)

CASE BASED QUESTION:

If democracies are expected to produce good governments, then is it not fair to expect that they would also produce development? Evidence shows that in practice many democracies did not fulfil this expectation. If you consider all democracies and all dictatorships for the fifty years between 1950 and 2000, dictatorships have slightly higher rate of economic growth. The inability of democracy to achieve higher economic development worries us. But this alone cannot be reason to reject democracy.

As you have already studied in economics, economic development depends on several factors: country's population size, global situation, cooperation from other countries, economic priorities adopted by the country, etc. However, the difference in the rates of economic development between less developed countries with dictatorships and democracies is negligible. Overall, we cannot say that democracy is a guarantee of economic development. But we can expect democracy not to lag behind dictatorships in this respect. When we find such significant difference in the rates of economic growth between countries under dictatorship and democracy, it is better to prefer democracy as it has several other positive outcomes.

Question 1:

Why is it not reasonable to expect democracies to always produce economic growth, despite the assumption that they should create good governments?

1

Answer:

Economic growth depends on various factors, including population size, global position, international cooperation, and national economic priorities. Therefore, democracies do not always guarantee economic growth, as these elements can affect both democratic and dictatorial regimes similarly.

Question 2:

What does the evidence from the fifty years between 1950 and 2000 indicate about the economic growth rates of dictatorships compared to democracies? 1

Answer:

The evidence indicates that dictatorships have slightly higher rates of economic growth compared to democracies over the fifty years between 1950 and 2000. However, this difference is minimal and does not necessarily justify rejecting democracy in favor of dictatorship.

Question 3:

Why should we prefer democracy despite its sometimes lower economic growth compared to dictatorships? 2

Answer:

We should prefer democracy because it offers many other positive outcomes beyond economic growth. Democracies ensure better governance, protect individual freedoms, promote political stability, and encourage citizen participation, making them more desirable despite slightly lower economic growth rates.

CHAPTER 1

DEVELOPMENT

Economic development: -

Economic development, in general, means a long term increase in the real per capita income or per capita GDP of a country. Along with per capita income, there are certain other criteria also like the education, health, social security, self-confidence, gender equality, dignity of the individual etc.

Economic development means long-term and sustainable improvement in Real Per Capita GDP and standard of living of the people. Economic development is concerned with the improvement of quality of life of the people and their capabilities, nourishment, literacy, education, gender equality, health care facilities, housing facilities etc.

1. Development or progress has many aspects. Different people have different goals to achieve. There may be some common goals for all of us. Development for one may not be development for others. People desire more income.

Only income is not sufficient to make life happy.

1. Security, respect, equal treatment and freedom are equally important. People do not have a single goal. There are many goals in life.
2. National development is the concern of all citizens.
3. Different persons could have different as well as conflicting notions of a country's development.
4. Per capita income is the main criterion for comparison of development of nations.
5. Total income cannot be considered a useful measure for comparison between countries.

We use average income/per capita income or per capita GDP for comparison. Average income (per capita income) of a nation can be obtained by dividing the total income of the nation by its population. Per capita GDP means Gross Domestic Product divided by population.

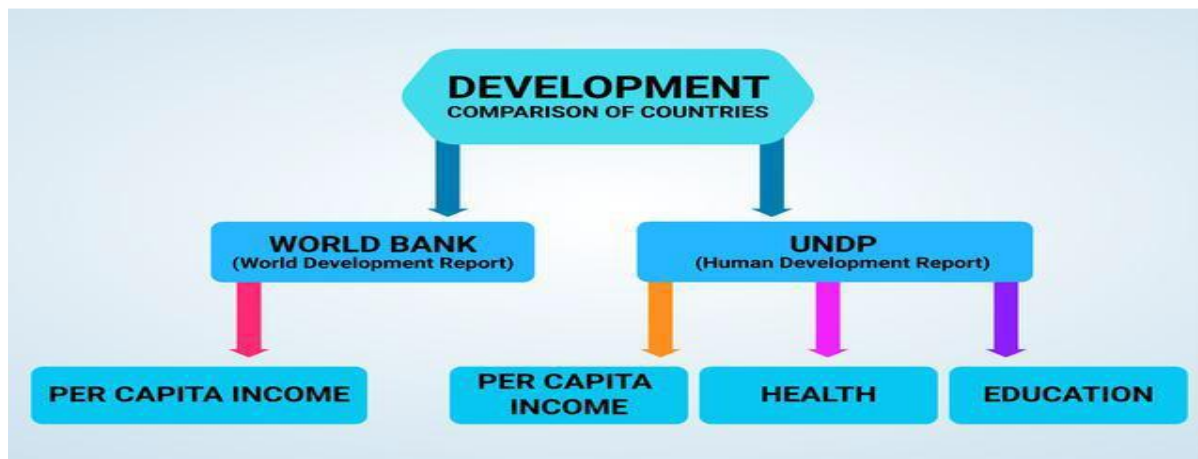

2. Income and other goals: -

- Money is considered to be the basic need of people and to fulfill their daily requirements making money or income is very important.
- Money is required to buy materialistic things as well as freedom, security, treatment, respect to maintain a quality lifestyle.
- Hence, developmental goals are necessary to get a better income and other things in life.

3. National Development: - Development means not only high income and more consumption but other goals or factors also. These are:

- (i) Equal treatment in society,
- (i) Freedom
- (ii) Social Security
- (iii) Respect of others
- (iv) Working atmosphere etc.
- It is defined as a country's ability to enhance the living standards of its residents.
- For people, belief in nations' development is different.
- **Improvement in people's living standards, providing basic things to citizens like food, education, social service, medical aid, etc, and increase in per capita income, is referred to as National development.**

4. How to compare different countries or states? can you differentiate different countries or states?

Other Goals:

Besides average income, we can use other goals such as security, respect for others, equal treatment, freedom etc, to compare different regions or nations.

INCOME AND OTHER CRITERIA: -

Infant mortality rate is the number of children that die before the age of one year as a proportion of 1,000 live children born in that particular year.

Literacy rate means literate population of a country in the 7 and above age group.

PUBLIC FACILITIES:-

Income is not a completely adequate indicator of goods and services that citizens are able to use. **People require pollution-free environment, unadulterated medicines, protection from infectious diseases, security, public education etc.** All these can be provided by the Government for collective use in the form of public facilities.

Kerala has low IMR because it has adequate provision of basic health and educational facilities. Health and **nutritional status** of the people of those states will be high where PDS is functioning well.

$$\text{Body Mass Index (BMI)} = \text{Weight (in kg)} / (\text{Height in meter})^2$$

COMPARISON OF COUNTRIES BASED ON HUMAN DEVELOPMENT INDEX (HDI) :

Human Development Report, **published by UNDP**, compares countries based on:-

- (i) The educational levels of the people (Gross Enrolment Ratio and Mean Years Schooling),
- (ii) Their health status (Life Expectancy, counted at birth- LE)
- (iii) Per capita income (PCI).

SUSTAINABILITY OF DEVELOPMENT:-

“Sustainable development means the development strategy that meets the needs of the present generation without compromising the needs of the future generations”. Development must be sustainable. Even though groundwater is renewable, still nearly one-third of the country is over using it.

I. Non-renewable resources are those which will get exhausted after years of use.

II. Its alternative and new resources are to be discovered and used.

III. Consequences of environmental degradation do not respect national or state boundaries.

IV. Scientists, economists, philosophers and other social scientists are working together on sustainable development.

MULTIPLE CHOICE TYPE QUESTION

(1) Net Attendance Ratio is the total number of children of the age group _____ attending school as a percentage of the total number of children in the same age group.

- a) 17 and 18 years
- b) 9 and 10 years
- c) 12 and 13 years
- d) 14 and 15 years

Answer: Option (d)

(2) If the Body Mass Index (BMI) is _____, then the adult person would be considered undernourished.

- a) less than 18.5
- b) less than 10.5
- c) less than 25.5
- d) less than 28.5

Answer: Option (a)

(3) Human Development Report published by UNDP compares countries based on _____.

- a) health status
- b) per capita income
- c) educational levels of the people
- d) all of the above

Answer: Option (d)

(4) Among the following South Asian countries, _____ had the highest life expectancy at birth.

- a) Myanmar
- b) Sri Lanka
- c) Nepal
- d) India

Answer: Option (b)

(5) Which of the following statements about money are true?

- a) Money cannot buy you a pollution-free environment.

- b) Money cannot ensure that you get unadulterated medicines.
- c) Money may also not be able to protect you from infectious diseases.
- d) All of the above.

Answer: Option (d)

(6) Identify which of the following cannot be a developmental goal for a landless rural laborer?

- (a) More days of work
- (b) Better wages
- (c) Quality education for children
- (d) Foreign tours

Answer: Option (d)

VERY SHORT ANSWER TYPE QUESTION

1. What is development?

Answer: It is a comprehensive term which includes increase in real per capita income, improvement in living standard of people, reduction in poverty etc.

2. Mention any two developmental goals of a landless rural labourer.

Answer: (i) More days of work and better wages. (ii) Quality education for his children.

SHORT ANSWER TYPE QUESTION

1. Other than income, What are the other factors that are important for our lives?

Ans: Important factors for our lives are:

- Safe environment for women at their workplace.
- Freedom, respect, treatment, and security.
- Pollution-free environment.
- Political rights

2. Which neighboring country of India has better performance in terms of Human development?

Ans: ● Sri Lanka performed better in terms of human development than India.

● Its per capita income is \$4390, 91% literacy rate, 93 HDI rank, 74 life expectancy at birth which is better than India and other neighboring countries that are Myanmar, Pakistan, Bhutan, Nepal, and Bangladesh.

LONG ANSWER TYPE QUESTION

1. Besides income, what can be the other attributes to compare economic development?

Answer: (1) Of course, for comparing economic development of countries, their income is considered to be one of the most important attributes. This is based on the understanding that more income means more of all things that human beings need. That is why, the World Bank uses Per Capita Income to compare economic development.

(2) Apart from income, educational levels of the people and their health status are considered as measures to compare economic development of a nation. (i) Infant Mortality Rate (IMR) : This indicates the number of children that die before the age of one year as a proportion of 1,000 live children born in that particular year. (ii) Literacy Rate : This measures the proportion of literate population in the 7 years and above age group. (iii) Net Attendance Ratio : This is the total number of children of age group 6-10 attending school as a percentage of total number of children in the same age group. (iv) Life Expectancy at birth : It denotes average expected length of life of a person at the time of birth

2. What is Per Capita Income? Can it be regarded as the sole indicator of economic development of a country? Give four valid arguments to support your answer.

Answer: (i) Per capita income is the average income of a country. (ii) Per capita income criteria takes into account only the economic aspect of life and ignores the social, aspect of life. (iii) Per capita

income criteria ignores education, health, life expectancy, sanitation etc. (iv) Per capita income criteria also ignores non material things like peace, pollution free environment, democracy, etc. (v) Though Punjab has higher per capita income as compared to Kerala but it has been ranked lower on Human Development Index because it is far behind than Kerala in literacy rate and has higher infant mortality rate than Kerala.

CASE BASED QUESTION

1. Read the extract given below and answer the questions that follow:

Besides seeking more income, one way or the other, people also seek things like equal treatment, freedom, security, and respect of others. They resent discrimination. All of these are important goals. In fact, in some cases, these may be more important than more income or more consumption because material goods are not all that you need to live. Money, or material things that one can buy with it, is one factor on which our life depends. But the quality of our life also depends on non-material things. Consider an example: If you get a job in a far-off place, before accepting it you would try to consider many factors, apart from income, such as facilities for your family, working atmosphere, or opportunity to learn. In another case, a job may give you less pay but may offer regular employment that enhances your sense of security. Another job, however, may offer high pay but no job security and also leave no time for your family. This will reduce your sense of security and freedom. Similarly, for development, people look at a mix of goals. It is true that if women are engaged in paid work, their dignity in the household and society increases. However, it is also the case that if there is respect for women there would be more sharing of housework and a greater acceptance of women working outside. A safe and secure environment may allow more women to take up a variety of jobs or run a business. Hence, the developmental goals that people have are not only about better income but also about other important things in life.

Q 1: How do non-material factors influence people's decisions and quality of life beyond just income?

Answer: Non-material factors such as equal treatment, freedom, security, and respect significantly influence people's decisions and quality of life. For example, a job with lower pay but better job security and a supportive working environment may be preferred over a higher-paying job with less stability and time for family.

Q 2: Why are non-material goals important for overall development, especially in the context of women's participation in the workforce?

Answer: Non-material goals like respect, security, and a safe environment are crucial for overall development. They enable women to participate more in the workforce and household chores, enhancing their dignity and acceptance in society. These factors contribute to a balanced and fulfilling life beyond just income.

Q 3. How do non-material factors influence people's development goals, and why might these be prioritized over income?

Answer: Non-material factors like equal treatment, freedom, security, and respect significantly impact people's development goals. These elements can be more important than income, as they enhance life quality. For instance, job security, a supportive work environment, and opportunities for learning and family time often outweigh higher salaries in decision-making processes.

CHAPTER 2

SECTORS OF INDIAN ECONOMY

People are engaged in various economic activities. Some of these activities are producing goods. Some others are producing services. Generally, the economic activities performed are divided into various groups called **sectors**.

ON THE BASIS OF ECONOMIC ACTIVITIES

Primary Sector:

- All the **economic activities** which are **undertaken by using or exploiting natural resources directly** are grouped into the primary sector.
- It forms the **base for all other products** that we subsequently make.
- It is **also called agriculture and related sectors** since most of the natural products are obtained from agriculture, dairy, fishing, forestry, etc.

Secondary Sector:

- It covers **activities in which natural products are changed into other forms or finished items** through ways of manufacturing.
- Since this sector gradually became associated with the different kinds of industries, it is **also called the industrial sector**. For example, making clothes from cotton fibre or making sugar or gur from sugarcane etc.

Tertiary Sector:

- It covers activities that help in the development of the primary and secondary sectors. These activities, by themselves, do not produce a good but they are an aid or a support for the production process. For example, providing transport facilities to move goods from factories to shops etc.
- Since these activities generate services rather than goods, the tertiary sector is also called as the Service sector.

Historical change in the sectors:

- At the initial stages of development, the **primary sector has been the most important sector** of economic activity. Most people were employed in this sector.
- With the change in farming methods, the agriculture sector began to prosper. Moreover, with the **introduction of new manufacturing methods, factories were set up and people shifted to the Industrial Sector**.
- People from farms, now started working in factories in large numbers, and this sector now assumed importance.
- In the past 100 years, a **further shift from the secondary sector to the service sector** has now taken place.
- Today in terms of contribution to production and employment, the **service sector plays a vital role** in most developed economies.

Rising Importance of the Tertiary Sector in Production:

The tertiary sector has emerged as the **largest producing sector** in India replacing the primary sector, due to the following reasons:

- **Development of support services** such as transport, trade, storage, etc.
- **Increased demands for more services** such as eating out, tourism etc. with **rising income levels**.
- **Basic services** like schools, hospitals, policing etc. provided by the government.

However, the **rise in the service sector is not uniform** with high skill-oriented services registering a high growth as compared to sustenance levels of other services like small shop keeping.

Methods to create more employment:

- Providing **affordable credit facilities** to agricultural dependents to allow them to modernize their techniques.
- **Infrastructural development** to improve health and education scenarios, to allow people to undertake alternative occupation.
- Providing **transportation facilities** to allow good marketing of agricultural produce to far off marketplaces.
- Identifying **alternate services and industrial opportunities** in semi-rural areas.

ON THE BASIS OF EMPLOYMENT CONDITION

Division of Sectors as Organized and Unorganized:

● **Organised Sector:** It is characterized by regular terms of employment, mandatory registration with the government and mandatory adherence to laws and rules like Minimum Wages Act etc.

Features of Organised Sector:

- Follows systematic rules and procedures set by the government
- They are registered under the government
- Fixed salary at the end of the month with incentives and perks
- Fixed working hours and decent work atmosphere
- Benefits like job security, paid leave, paid holidays, PF, gratuity, medical allowance, etc.
- **Unorganized sector:** It is characterized by lack of government control, non-adherence to rules and regulations and unsecured employment.

Features of Unorganized Sector:

- No systematic rules and procedures are followed
- It is outside the control of the government as they are not registered
- Salary is not fixed. They mostly rely on daily wages
- Risk of job insecurity. People can be asked to leave at any time without any reason
- Working hours are not fixed. Work environment is mostly congested and unhygienic

ON THE BASIS OF OWNERSHIP

Public and Private Sectors:

- **Public sector** is characterized by **government ownership** of most of the assets and provides all the services. For example, Railways, post offices, etc.
- On the contrary, **Private sector** is characterized by **private ownership of assets** and delivery of services by **private individuals or companies**. For example, Tata Iron and Steel Company Limited (TISCO) or Reliance Industries Limited (RIL) etc.

Important Terms:-

- 1. Intermediate goods:** Those goods which are sold by one firm to another for resale or for further processing.
- 2. Final goods:** They have crossed the boundary line of production and are ready for use by the final users. E.g. cloth, coolers, T.V. etc.
- 3. GDP (Gross Domestic Product):** It is the value of only final goods and services produced within the domestic territory of a country.
- 4. Unemployment:** When the person is willing to work at the prevailing wage rate, but he/she is not getting a job it is called unemployment.
- 5. Seasonal Unemployment:** The unemployment which takes place due to the variation in the season is called seasonal unemployment. It is mostly seen in the agricultural sector.
- 6. Underemployment or disguised unemployment** means more people engaged in a job than needed.
- 7. Mahatma Gandhi National Rural Employment Guarantee Act 2005, (MNREGA 2005):** Under NREGA 2005, all those who are able to, and are in need of, work have been guaranteed 100 days of employment in a year by the government. If the government fails in its duty to provide employment, it will give unemployment allowances to the people. **Right to Work** was implemented by Mahatma Gandhi National Rural Employment Guarantee Act 2005 (MGNREGA 2005)

MULTIPLE CHOICE QUESTION

1. Which of the following activities is part of the primary sector?

- A) Banking
- B) Textile Manufacturing

- C) Farming
- D) Retail Trade

Answer: C) Farming

2. Which of the following activities is considered part of the secondary sector?

- A) Fishing
- B) Tourism
- C) Automobile Manufacturing
- D) Information Technology

Answer: C) Automobile Manufacturing

3. Choose one correct statement from the following:

Underemployment occurs —

- A. when people are not willing to work.
- B. when people are working slowly.
- C. when people are working less than what they are capable of doing.
- D. when people are not paid for their jobs.

Answer : C) when people are working less than what they are capable of doing.

4. How do big private companies contribute in the development of a nation?

- A. By increasing the demands for their products through advertisements.
- B. By increasing their profits.
- C. By increasing productivity of the country in the manufacturing of industrial goods.
- D. By providing private hospital facilities for the rich.

Answer: C) By increasing productivity of the country in the manufacturing of industrial goods.

5. Which of the following measures the proportion of children that die before the age of 1 year as a proportion of 1000 live children born in that particular year?

- A. IMR - Infant mortality rate
- B. Literacy rate
- C. Net attendance ratio
- D. Drop out ratio

Answer: A) IMR - Infant mortality rate

6. Which of the following is the largest contributor to India's GDP?

- A) Agriculture
- B) Manufacturing
- C) Services
- D) Mining

Answer: C) Services

7. Which of the following sectors employs the largest portion of the Indian workforce?

- A) Primary Sector
- B) Secondary Sector
- C) Tertiary Sector
- D) Quaternary Sector

Answer: A) Primary Sector

8. What is the main reason for the shift of employment from the primary sector to the secondary and tertiary sectors in India?

- A) Decrease in agricultural productivity
- B) Increase in industrialization and services
- C) Government policies
- D) Population growth

Answer: B) Increase in industrialization and services

9. Who among the following fall under the organized sector?

- A. Raghu, a daily wage labourer working in a dam site under a contractor.
- B. Nafeesa, a doctor getting all employment benefits.
- C. Purushothaman, a cleaning staff in a private bank.
- D. Ammini, a tailor stitching clothes at his home.

Answer: B) Nafeesa, a doctor getting all employment benefits.

10. Underemployment is hidden in contrast to some who does not have a job and is clearly visible as unemployed. It is also called .

- A. Hidden employment
- B. Disguised unemployment.
- C. Unstable employment
- D. Less employment

Answer: B) Disguised unemployment

11. Two statements are given in the question below as Assertion (A) and Reasoning (R). Read the statements and choose the appropriate option.

Assertion (A): The share of tertiary sector in employment has not increased in proportion to its increase in production.

Reason (R): Still more than half of the workers in the country are working in the primary sector.

Options:

Both A and R are true, and R is the correct explanation of A.

Both A and R are true, but R is not the correct explanation of A.

A is true but R is false.

A is false but R is true.

Answer: B) Both A and R are true, but R is not the correct explanation of A.

VERY SHORT ANSWER TYPE QUESTION

1. What are the main differences between the secondary and tertiary sectors?

The secondary sector involves transforming raw materials into finished goods, such as manufacturing and construction. The tertiary sector provides services, such as banking, education, and IT.

2. What measures can be taken to improve productivity in the primary sector?

Measures include adopting modern farming techniques, improving irrigation facilities, and providing better access to credit and markets.

3. How has the growth of the service sector influenced urbanization in India?

The growth of the service sector has led to increased job opportunities in urban areas, driving migration and urbanization.

4. Explain the concept of sustainable development and its importance in the context of the primary sector.

Sustainable development involves meeting current needs without compromising future generations' ability to meet theirs. It is crucial for the primary sector to ensure the long-term availability of natural resources.

SHORT ANSWER TYPE QUESTION

1. Do you think the classification of economic activities into primary, secondary and tertiary is useful? Explain how.

Answer:

I) Yes, classification of economic activities into primary, secondary and tertiary sector is useful as it helps in estimating the relative importance in the growth in GDP of the economy.

II) it helps in asserting that which sector contributes the most in the GDP and which sector has the scope to employ more people and increase the National Income.

III) It helps in calculating how much goods and services are produced and how many people work in

each sector

IV) This type of classification helps in comparing the level of growth in different countries.

2. How far is it correct to say that several services which cannot be provided by private sector, can be provided by the public sector? Explain.

Answer:

- (i) There are several things needed by the society as a whole like sanitation system, safe drinking water, education, etc. which the private sector will not provide at reasonable cost
- (ii) There are some activities, which the government has to support. The private sector may not continue their production or business unless government encourages it. For example, selling electricity at the cost of generation may push up the costs of production of industries.
- (iii) Similarly, the government in India buys wheat and rice from farmers at a 'fair price.' This it stores in its godowns and sells at a lower price to consumers through ration shops.

3. "Economic activities, though grouped into three different categories", are highly interdependent." Discuss. Do you agree with the view that primary, secondary and tertiary sectors are dependent on each other?

Answer:

Primary, secondary and tertiary sectors are interdependent as mentioned below :

1. When we produce goods by exploiting natural resources, it is an activity of the primary sector. It is primary because it forms the base for all other products that we subsequently make.
2. The secondary sector covers activities in which natural products are changed into other forms manually or by machines. For example wheat is used to manufacture bread. So there is mutual dependency between primary and secondary sectors.
3. The activities that help in the development of the primary and secondary sectors fall under the tertiary sector. These activities by themselves do not produce a good but they are an aid or a support for the production process. Transport, storage, communication and banking are some examples of tertiary activities.

4. Why is the tertiary sector becoming the most important sector in India?

Ans. In any country several services such as hospitals, educational institutions, post and telegraph services, police stations etc. are required, these are called basic services. In developing countries the government has to take the responsibility for provision of these services.

- Development of agriculture and industry leads to development of services like transport, trade, storage etc. Greater the development of the primary and secondary sectors more would be the demand for such services.
- As income level rises people start demanding more services like eating out, tourism, shopping, private hospitals etc. especially in cities.
- Over the past decade certain new services such as those based on information and communication technology have become important and essential. The production of these services has been rising rapidly

LONG ANSWER TYPE QUESTION

1. How does the public sector contribute to the economic development of a nation? Explain.

Answer:

- (1) The public sector promotes rapid economic development through construction of infrastructure.
- (2) It creates employment opportunities.
- (3) It helps to generate revenue to support the holistic development of all classes and Castes
- (4) It ensures easy availability of goods at moderate rates.
- (5) It adds to the Gross Domestic Product of the country.

2. Suggest any five measures to reduce unemployment.

Answer:

- (1) Unemployment can be reduced by capacity building. Capacity must be built to acquire jobs and new skills through education and training.
- (2) More investments in employment creation schemes can be another way.
- (3) The National Rural Employment Programme scheme is an effective way of generating employment too. This Programme aims at creating community assets for strengthening rural infrastructure like drinking water wells, community irrigation wells, village tanks, rural roads and schools.
- (4) Credit should be made easily available for young men and women from all classes and regions to push them towards establishing startups and native industries.
- (5) Farmers should be given credit easily to encourage them to set up food processing units which would generate more employment.

3. Evaluate the contribution of the tertiary sector to the Indian economy.

The tertiary sector, encompassing a wide range of services such as banking, education, healthcare, IT, and tourism, is the largest and fastest-growing sector in the Indian economy.

Contribution to the Economy:

GDP Contribution: The tertiary sector contributes over 50% to India's GDP, reflecting its dominant role in the economy.

Employment: It generates significant employment opportunities, absorbing labor from the primary and secondary sectors and providing high-skilled jobs.

Urbanization: The growth of services has spurred urban development, leading to the expansion of cities and improved infrastructure.

Quality of Life: Services such as healthcare, education, and financial services enhance the quality of life and contribute to human capital development.

Technological Advancements: The IT and telecommunications sectors have positioned India as a global leader in technology and innovation.

CASE BASED STUDY QUESTION

Read the extract given below and answer the questions that follow:

The value of final goods and services produced in each sector during a particular year provides the total production of the sector for that year. And the sum of production in the three sectors gives what is called the Gross Domestic Product (GDP) of a country. It is the value of all final goods and services produced within a country during a particular year. GDP shows how big the economy is. In India, the mammoth task of measuring GDP is undertaken by a central government ministry. This Ministry, with the help of various government departments of all the Indian states and union territories, collects information relating to total volume of goods and services and their prices and then estimates the GDP. When we produce a good by exploiting natural resources, it is an activity of the primary sector. The secondary sector in which natural products are changed into other forms through ways of manufacturing that we associate with industrial activity. After primary and secondary, there is a third category of activities that falls under the tertiary sector and is different from the above two. These are activities that help in the development of the primary and secondary sectors. These activities, by themselves, do not produce a good but they are an aid or a support for the production process.

| I) Which sector has emerged as the largest producing sector in India? | 1 |
| II) Life insurance is an activity of which sector? | 1 |
| III) What is GDP? | 2 |

Answer:

I : Tertiary Sector

II : Tertiary Sector

III : The money value of all the final goods and services produced within a country during a particular year.

CHAPTER 3

MONEY AND CREDIT

Money as a medium of exchange: -

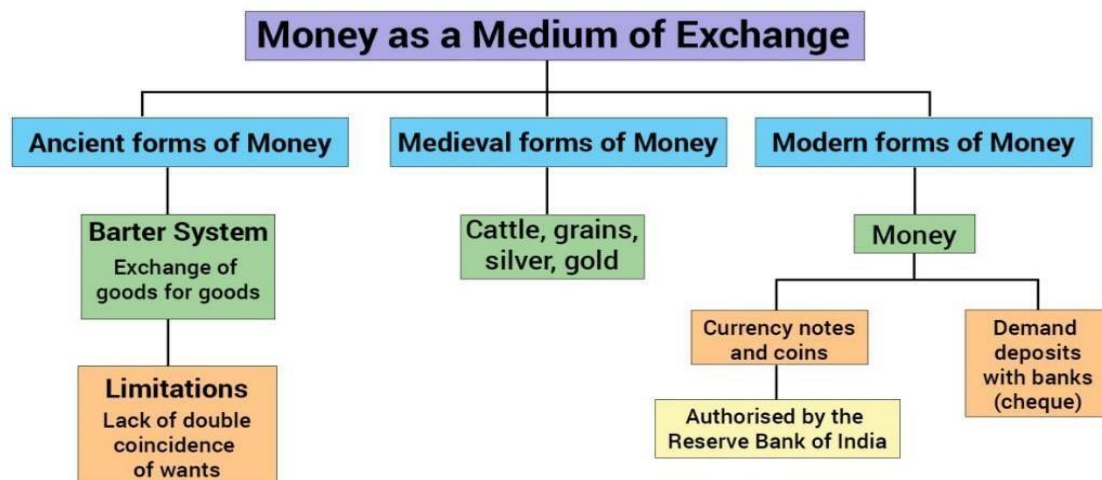

Money is anything which is generally accepted as medium of exchange and at the same time acts as a measure and store of value.

Barter system is the direct exchange of goods or services, without using money. Barter is a system of mutual exchange, where goods are exchanged for goods directly, without the use of money as a medium. There is the absence of **Double coincidence of wants**. There is the lack of a common method to store value, lack of standard for deferred payments, lack of a common unit of value and lack of transfer of value.

A person holding money can exchange it for any commodity or service that he or she might want. Thus everyone prefers to receive payments in money and then exchange the money for things that they want. Both parties have to agree to sell and buy each other commodities. This is known as a **Double coincidence of wants**.

Functions of Money: -

1. Medium of exchange
2. Measures of value
3. Store of value
4. Standard of deferred payments
5. Transfer of value

Modern forms of money:-

Currency

- In the modern times, paper notes and coins are used as a medium of exchange
- The Reserve Bank of India issues currency notes on behalf of the central government
- According to the law no one can refuse payment made in rupees to settling transactions

Deposits with Banks

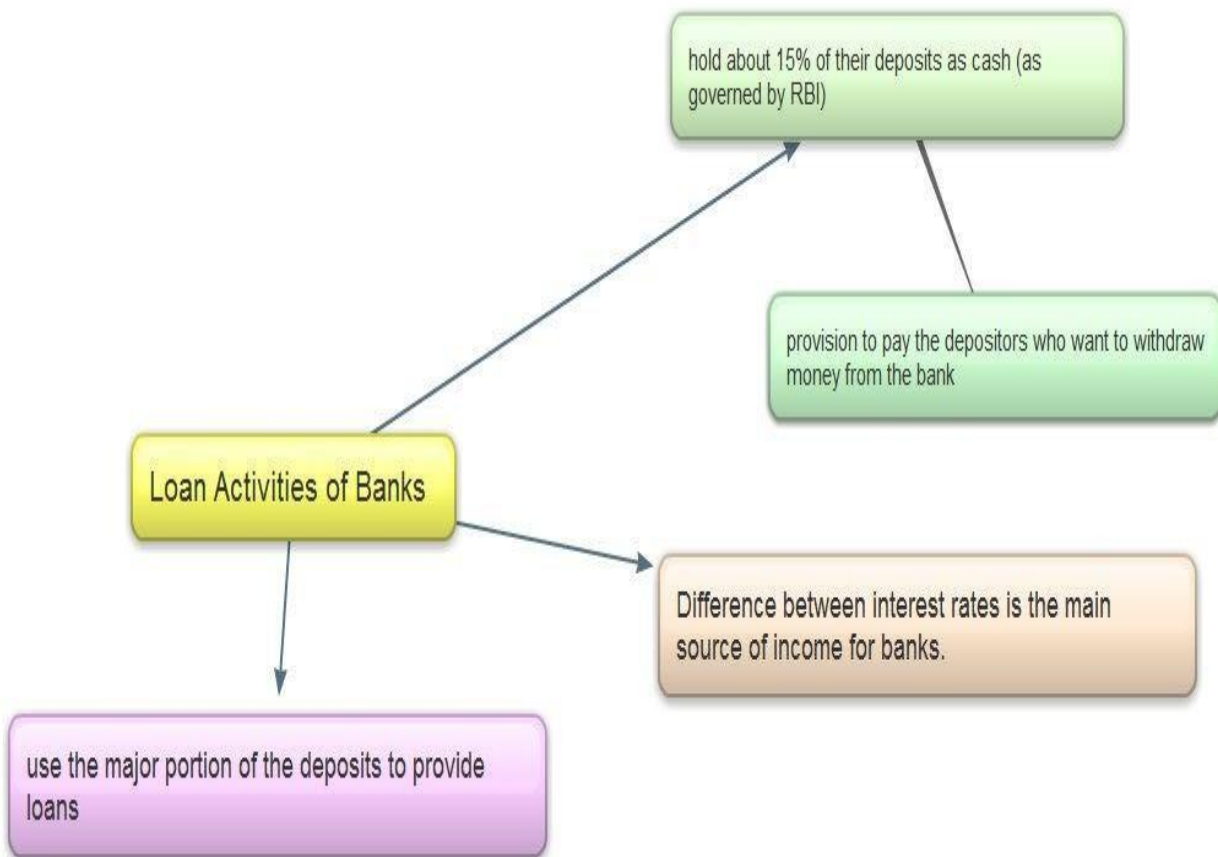

- People deposit extra cash in the banks by opening a bank account in their name
- Banks accept the deposits and also pay an amount as interest on the deposit

- Deposits in the bank accounts can be withdrawn on demand are called Demand Deposits

Cheque: A cheque is a paper instructing the bank to pay a specific amount from the person's account to the person in whose name the cheque has been issued.

Loan Activities of Banks: -

- **In India, the bank holds about 15% of their deposits as cash to pay to the depositors who might come to withdraw money from the bank on any given day**
- Banks mediate between those who have extra funds (the depositors) and those who are in need of these funds (the borrowers).
- Banks charge a higher interest rate on loans than what they offer on deposits. The difference between these interests is the bank's main source of income.

Two different credit situations: -

1. Credit (loan) plays a positive role when the borrower is able to return the loan amount on time and also made some profit with the use of that money. **For example, Salim**, a shoe manufacturer took a loan from different sources to complete the order of 3000 pairs of shoes. In the end, he delivered the order, made a profit, and repaid the loan.
2. In some cases, Credit pushes the borrower into a situation from which recovery is very painful. **For example, a small farmer Swapna** took a loan for crop cultivation but due to being hit by pests, her crops were destroyed. So she took another loan for spraying pesticides but the production was not enough to repay the loan. So she was caught in debt-trap.

Terms of Credit: -

1. Collateral (Security or Guarantee)
2. Documentation
3. Tenure
4. Mode of Repayment
5. Rate of Interest

FORMAL SECTOR CREDIT IN INDIA:

Formal and Informal Sector of Credit: Who gets what?

Banks and cooperative banks constitute the formal sector sources of credit in India.

The **informal lenders** include moneylenders, traders, employers, relatives and friends, etc.

54% of the loans taken by poor households in the urban areas are from informal sources.

SELF-HELP GROUPS FOR THE POOR: -

Thus, the **SHGs help borrowers overcome the problem of lack of collateral**. They can get timely loans for a variety of purposes and at a reasonable interest rate. Moreover, SHGs are the building blocks of organization of the rural poor. Not only does it help women to become financially self-reliant, the regular meetings of the group provide a platform to discuss and act on a variety of social issues such as health, nutrition, domestic violence, etc.

MULTIPLE CHOICE QUESTION

1. All the banks act as mediator between----- and -----

- a. rural people, urban people
- b. literates, illiterates
- c. people, government
- d. depositors, borrowers

ANS: d) depositors, borrowers

2. Which of the following is not a feature of Self-Help Groups (SHGs)?

- a. It consists of 15-20 members or more.
- b. Here members pool their savings which acts as collateral.
- c. Loans are given at nominal rate of interest.
- d. It is an informal source of credit.

ANS: (d) It is an informal source of credit.

3. Which one of the following is the appropriate meaning of collateral?

- (a) It is the sum total of money borrowed from banks.
- (b) The amount borrowed from friends.
- (c) It is an asset of the borrower used as guarantee to a lender.
- (d) The amount invested in a business.

ANS: (c) It is an asset of the borrower used as guarantee to a lender.

4. Which one of the following is a major reason that prevents the poor from getting loans from the banks?

- a. Lack of capital
- b. Not affordable due to high rate of interest
- c. Absence of collateral security
- d. Absence of mediators

ANS : (c) Absence of collateral security

5. Which one of the following is the important characteristic of modern form of currency?

- a. It is made from precious metal
- b. It is made from thing of everyday use
- c. It is authorized by the commercial banks
- d. It is authorized by the Government of the country

ANS : (d) It is authorized by the Government of the country

6. At present which form of money is increasingly used apart from paper money?

- (a) Commodity money
- (b) Metallic money
- (c) Plastic money
- (d) All the above

ANS: (c) Plastic money

ASSERTION/REASON TYPE QUESTIONS:

DIRECTION: Mark the option which is most suitable:

- (a) If both assertion and reason are true, and reason is the correct explanation of assertion.
- (b) If both assertion and reason are true, but reason is not the correct explanation of assertion.
- (c) If assertion is true, but reason is false.
- (d) If both assertion and reason are false.

1. Assertion: In India, no individual can refuse to accept a payment made in rupees.

Reason: Rupee is the legal tender in India.

Ans: (a) Both assertion and reason are true, and reason is the correct explanation of assertion.

The law legalizes the use of rupee as a medium of payment that cannot be refused in settling transactions in India

2. Assertion: The facility of demand deposits makes it possible to settle payments without the use of cash.

Reason: Demand deposits are paper orders which make it possible to transfer money from one person's account to another person's account.

Ans : (d) Both assertion and reason are false.

The facility of cheques against demand deposits makes it possible to directly settle payments without the use of cash. Since demand deposits are accepted widely as a means of payment, along with currency, they constitute money in the modern economy

3. Assertion: Rohan took credit in the form of advance payment from a buyer and he delivered the goods to the buyer on time and also earned profit. The credit made Rohan better off in this situation.

Reason: Credit can never push a person into a debt trap.

Ans: (c) Assertion is true, but reason is false.

The credit made Rohan better off in this situation, however, Rohan would have been worse off if he had failed to deliver the goods on time or he had made a loss in the production process. The latter two situations may have caused Rohan to fall in a debt trap.

4. Assertion: Credit would be useful or not depends on the risk involved in a situation.

Reason: The chance of benefitting from credit is highest in agriculture sector.

Ans: (c) Assertion is true, but reason is false.

Whether credit would be useful or not depends on the risks in the situation and whether there is some support, in case of loss.

VERY SHORT ANSWER QUESTIONS

1. How do the demand deposits share the essential features of money?

ANS: The demand deposits share the essential features of money:

The facility of cheques against demand deposits make it possible to directly settle payments without the use of cash.

Since demand deposits are accepted widely as a means of payment, along with currency, they constitute money in the modern economy.

2. What is meaning of Barter system? Why is double coincidence of wants is an essential feature of a Barter system?

ANS : Meaning of Barter system: A system in which goods are directly exchanged without the use of money is called barter system.

Double coincidence of wants means when both the parties – seller and purchaser – agree to sell and buy each other's commodities. It implies that what a person desires to sell is exactly what the other wishes to buy. No money is used in such an arrangement. Therefore, it is an essential feature of barter system.

3. Why is it necessary for the banks and cooperative societies to increase their lending facilities in rural areas?

ANS: (i) Banks and cooperative societies can help people in obtaining cheap and affordable loans.

(ii) This will empower people in a variety of ways. They could grow crops, do business, set up small- scale industries etc. They could set up new industries or trade in goods.

[iii]Loans from informal lenders carry a very high interest rate and do little to increase the income of the borrowers. Thus, it is necessary that banks and cooperatives increase their lending particularly in the rural areas, so that the dependence on informal sources of credit reduces. Cheap and affordable credit is also important for the country's development.

(Any two points)

4. How do banks play an important role in the economy of India?

ANS : (i) Banks provide people the facility to deposit their surplus money by opening a bank account in their name. Banks also pay an amount as interest on the deposits.

In this way, people's money is safe with the banks and it earns an amount as interest.

Thus, banks add to the income of the family.

(ii)Banks use the major portion of the deposits to extend loans to the needy. There is a huge demand for loans for various economic activities. Banks, thus, mediate between those who have surplus money and those who are in need of this money.

(iii) Banks give loans not just to profit-making businesses and traders but also to small cultivators, small-scale industries, to small borrowers, etc. Thus, they empower these people and help indirectly in the country's development.

(iv)The rate of interest that banks demand from the borrowers is always cheap and affordable. This helps people to improve their condition. Banks also give loans to industrialists. These industrialists use these loans to expand their industries. In this way, they contribute in country's development. By employing a large number of people banks solve the problem of unemployment to a great extent.

SHORT ANSWER TYPE QUESTIONS

1. What is meant by double coincidence of wants? What is its inherent problem?

ANS : Double coincidence of wants is a situation when both parties have agreed to sell and buy each other's products or commodities. It can only work when both the persons are ready to exchange each other's goods.

2. "There is a great need to expand formal sources of credit in rural India." Examine the statement.

ANS : There is great need to expand formal sources of credit in rural India because: In the informal sector there is no organisation to supervise the credit activities of lenders. They lend at whatever interest rate they choose. No one can stop rural money-lenders from using unfair means to get their money back .

3. Why is it necessary for the banks and cooperative societies to increase their lending facilities in rural areas? Explain.

OR

b. Why do we need to expand formal sources of credit in India?

ANS : There is no organization that supervises the credit activities of lenders in the informal sector. They lend at whatever interest rate they choose.

- No one can stop rural money-lenders from using unfair means to get their money back.
- Informal lenders charge a very high rate of interest on loans and as a result a larger part of the earnings of the borrowers and farmers are used to pay the loans.
- The amount to be repaid is often greater than income, and farmers and other borrowers in villages fall in a debt trap.

Thus, it is necessary that banks and co-operatives increase their lending, particularly in rural areas, so that dependence on informal sources of credit ends.

4. What comprises 'terms of credit'?

Ans : Rate of interest, collateral security, documentation requirements and mode of repayment together comprise terms of credit. This varies from bank to bank and borrower to borrower.

LONG ANSWER TYPE QUESTIONS

1. "RBI plays a crucial role in controlling formal sector loan." Explain.

ANS : (1) The **Reserve Bank of India** supervises the functioning of formal sources of credit in India. It is the central bank of India.

(2) It supervises the functioning of banks in the following ways :

(3) The RBI monitors that the banks actually maintain a minimum cash balance out of the deposits they receive. Banks in India these days, hold about 15 per cent of their deposits as cash.

(4) RBI ensures that the banks give loans not just to profit-making business and traders but also to small cultivators, small-scale industries, small borrowers, etc.

(5) Periodically, banks have to submit information to the RBI on how much they are lending, to whom, at what interest rates, etc.

2. Why is the share of formal sector credit higher for the richer households compared to the poorer households? Give any two reasons responsible for this.

ANS : (1) Undoubtedly, credit arrangements are not very fair for all sections of society. The share of formal sector credit is higher for the richer households as compared to the poorer households. This has the following reasons:

(i) Poverty affects poor households' capacity to borrow. Formal sector credit requires proper documents and collateral as security against loans. Collateral is an asset. So, poor people lack in providing such things which affect their capacity to borrow.

(ii) The poor people do not repay

(iii) The people in villages may not have access to banks in their village. Also, they are R. loan on time because of the various day-to-day needs. - hesitant and unsure about the functioning of the banks.

Reasons

(i) More credit facilities should be made available in rural areas by opening more banks there.

(ii) The procedure of giving loans should be made easier and simpler.

3. How do SHG's act to provide a platform for women to address their various social issues?

ANS : SHGs act to provide a platform for women to address their various social issues in the following ways:

- (1) A Self-Help Group is an organization of rural poor, particularly women who pool their savings.
- (2) The SHG encourages its members for savings and enables them to take small loans from the group itself to meet their needs. In this way, it addresses their economic issue that is the base of many social issues.
- (3) SHGs are the building blocks of the organization of the rural poor. Not only does it help women to become financially self-reliant, but the regular meetings of the group also provide a platform to discuss and act on a variety of social issues such as health, nutrition, domestic violence, etc.
- (4) The SHG provides self-employment opportunities to its members by providing them loans for meeting working capital needs, for housing materials, for acquiring assets like a sewing machine, handlooms, cattle, etc.
- (5) The group charges interest on these loans but this is still less than what the money-lenders charge.

4. "Cheap and affordable credit is essential for poor households both in rural and urban areas." In the light of the above statement explain the social and economic values attached to it.

Or
"Cheap and affordable credit is crucial for the country's development." Assess the statement.

Or
'Credit has its own unique role for development'. Justify the statement with arguments.

Answer: It refers to an agreement in which the lender supplies the borrower with money, goods or services in return for the promise of future repayment.

1. Cheap and affordable credit is crucial for the country's growth and economic development. Credit is in great demand for various kinds of economic activities—big or small investments, to set up business, buying cars, houses, etc.
2. In rural areas credit helps in the development of agriculture by providing funds to farmers to buy seeds, fertilizers, expensive pesticides.
3. Manufacturers need credit for buying raw material or to meet ongoing expenditure of production. Credit helps in the purchase of plant, machinery, equipment, etc.
4. Some people may need to borrow for illness, marriages etc. Thus, cheap and affordable credit is crucial for the country's growth and economic development.

5. Why is it necessary for the banks and cooperative societies to increase their lending facilities in rural areas? Explain.

ANS:- Banks and Cooperatives can help people in obtaining cheap and affordable loans. This will help people to grow crops, do business, set up small-scale industries or trade in goods and also help indirectly in the country's development. They should do so, so that relatively poor people do not have to depend on informal sources of credit (moneylenders).

SOURCE BASED QUESTIONS

Read the following passage and answer the questions that follow:-

Modern forms of money include currency—paper notes and coins. Unlike the things that were used as money earlier, modern currency is not made of precious metal such as gold, silver and copper. And unlike grain and cattle, they are neither of everyday use. The modern currency is without any use of its own. Then, why is it accepted as a medium of exchange? It is accepted as a medium of exchange because the currency is authorised by the government as it legalises the use of rupee as a medium of payment that cannot be refused in settling transactions in India. No individual in India can legally refuse a payment made in rupees. Hence, the rupee is widely accepted as a medium of exchange in the country. In India, the Reserve Bank of India issues currency notes on behalf of the central government. As per Indian law, no other individual or organisation is allowed to issue currency. Moreover, the law legalises the use of rupee as a medium of payment that cannot be refused in settling transactions in India. No

individual in India can legally refuse a payment made in rupees. Hence, the rupee is widely accepted as a medium of exchange.

1. What is accepted as the medium of exchange in India? 1

ANS : Rupee is accepted as the medium of exchange in India

2. What does the Indian Law say about the currency? 1

ANS: As per Indian law, no other individual or organization is allowed to issue currency. Moreover, the law legalizes the use of rupee as a medium of payment that cannot be refused in settling transactions in India.

3. Who issues the currency notes in India? Which is our currency used nowadays? 2

ANS : The Reserve Bank of India issues currency notes on behalf of the Central government. Nowadays paper notes and coins are used as currency in our country.

CHAPTER 4

GLOBALISATION AND INDIAN ECONOMY

Globalisation is the process of rapid integration or interconnection between countries.

Production across Countries:

● Trade was the **main channel** of connecting distant countries. Large companies, which are now called Multinational Corporations (MNCs) played a major role in trade.

Multinational Corporations (MNCs):

A MNC is a **company that owns or controls production in more than one nation.** MNCs **set up offices and factories** for production in regions where they can get **cheap labour and other resources**. This is done so that the cost of production is low and the MNCs can earn greater profits.

- Today more and more goods and services, investments and technology are **moving between countries**, not just in terms of sales of products overseas but in terms of **global production** as well.
- Globalisation also happens through the **movement of people** between countries. People usually move from one country to another in search of better income, better jobs or better education.

Interlinking production across countries:

- Corporations look for **availability of factors of production** and **favourable government policy** while scouting to set up production in a country.
- The money spent by corporations to acquire assets is termed as **foreign investment** by the host country.
- These MNCs use various routes like setting up new companies, joint ventures with local companies, buying a local company (most common) or placing orders to the local companies to manufacture under MNC's brand name, to set up in the host country.
- These corporations also bring **enormous wealth and technical know how** with them.
- In this way geographically, dispersed production is getting interlinked.

Foreign trade and integration of markets:

- Foreign trade **allows producers to sell their goods outside** their domestic nations.
- It **allows consumers to buy goods** apart from those, made in their country.
- Foreign trade thus **results in connecting the markets or integration of markets** in different countries.

Enabling factors of Globalisation

● **Technology:**

- Rapid **improvements in technology** for instance, improvements in transportation technology have made much faster delivery of goods across long distances possible at lower costs.
- **Information and communication technology** has made global transmission of information and communication possible at negligible costs.

● **Liberalisation of foreign trade and investment policy:**

- Liberalisation is a **process of removing barriers or restrictions** set by the government.
- With liberalisation of trade, businesses are allowed to make decisions freely about the imports, exports and their investments.

- Starting around **1991** in India, the government decided to lift many barriers on foreign trade and foreign investment to a large extent.

KEY NOTES:-

Trade barriers :-Tax on imports is an example of trade barrier

Liberalisation :-Removing barriers or restrictions set by the government is what is known as liberalisation.

MULTIPLE CHOICE QUESTION

1.What is globalization?

- i) The process of decreasing interactions between different countries
- ii) The process of increasing interactions and integration among people, companies, and governments worldwide
- iii) The process of a country isolating itself from the rest of the world
- iv) The process of reducing the population of a country

Answer: ii) The process of increasing interactions and integration among people, companies, and governments worldwide

2.Which sector in India has benefited the most from globalization?

- i) Agriculture
- ii) Manufacturing
- iii) Information Technology (IT) and Services
- iv) Mining

Answer: iii) Information Technology (IT) and Services

3.Which of the following is a key factor that has enabled globalization?

- i) Increased tariffs on international trade
- ii.) Development of advanced transportation systems
- iii) Restrictions on foreign direct investment
- iv) Limited access to information technology

Answer: ii) Development of advanced transportation systems

4.What role do multinational corporations (MNCs) play in globalization?

- i)They restrict the flow of goods and services across borders
- ii) They promote cultural isolation
- iii) They invest in different countries and create global supply chains

iv) They reduce competition in local markets

Answer: iii) They invest in different countries and create global supply chains

5. Why are international trade agreements important for globalization?

i) They increase trade barriers

ii) They simplify cross-border trade regulations

iii) They limit the flow of goods between countries

iv) They discourage foreign investments

Answer: ii) They simplify cross-border trade regulations

6. Which Indian policy reform was aimed at liberalizing the economy in 1991?

i) Green Revolution

ii) Industrial Policy Resolution

iii) New Economic Policy

iv) Five-Year Plan

Answer: iii) New Economic Policy

SHORT ANSWER TYPE QUESTION

1. What is globalization, and what is its impact in the Indian economy?

Ans. Globalization is the process of increased interconnectedness and interdependence among countries through trade, investment, technology, and cultural exchange. In India, globalization has led to economic growth, increased foreign investment, improved access to technology, and expanded export markets. However, it has also posed challenges such as increased competition and economic inequality.

2. How has globalization affected employment patterns in India?

Answer: Globalization has led to job creation in sectors such as IT, services, and manufacturing. However, it has also resulted in job losses in traditional and uncompetitive industries. The nature of employment has shifted towards more skilled and technology-driven jobs.

Printed Words

This is how Mercier describes the impact of the printed word, and the power of reading in one of his books :

'Anyone who had seen me reading would have compared me to a man dying of thirst who was gulping down some fresh, pure water.... Lighting my lamp with extraordinary caution, I threw myself hungrily into the reading. An easy eloquence, effortless and animated, carried me from one page to the next without my noticing it. A clock struck off the hours in the silence of the shadows, and I heard nothing. My lamp began to run out of oil and produced only a pale light, but still I read on. I could not even takeout time to raise the wick for fear of interrupting my pleasure. How those new ideas rushed into my brain! How my intelligence adopted them!'

34.1 How does the passage reflect the immersive nature of reading of Mercier ? 1

34.2 Why did Mercier describe himself as a virtual writer ? 1

34.3 How did reading influence Mercier's intellectual capacity and his engagement with new concepts ? Explain in any two points.

मुद्रित शब्द

मर्सिए ने अपनी एक किताब में छपे शब्द की ताकत को यँ बयान किया :

'अगर किसी ने मुझे पढ़ते देखा होगा तो उसने मुझे उस प्यासे की तरह पाया होगा जो शुद्ध ताज़ा पानी मिलने पर गटगट पीने लगता है... बड़े एहतियात से लालटेन जलाने के बाद मैं खुद को किताबों में डुबो देता था। और वाक और अर्थ के प्रवाह में मैं पन्ना-दर-पन्ना बहता चला जाता था, अनायास और अनजाने। खामोशी के साये में घड़ियाल हर घंटे बजता चला जाता था, पर मुझे सुनाई नहीं पड़ता था। तेल खत्म होने से मेरी लालटेन की लौ पीली पड़ने लगती थी, पर मैं था कि पढ़ता जाता। मैं बती उठाने की ज़हमत भी नहीं लेता था, कि मेरे आनंद में व्यवधान न पड़े। और वे नए विचार किस वेग से मेरे सिर में घुसते थे। मेरी बुद्धि कैसे उन्हें आत्मसात करती थी!'

बाढ़

बुनियादी सुरक्षा सावधानियाँ लेनी होंगी :

- रेडियो/टेलीविजन पर नवीनतम मौसम बुलेटिन और बाढ़ चेतावनियों को सुनना। सूचनाओं को दूसरों को संप्रेषित करना।
- परिवार की एक आपातकालीन किट बनाना जिसमें एक वहनीय (पोर्टेबल) रेडियो/ट्रांजिस्टर, बैटरी (टॉर्च), अतिरिक्त बैटरी, आवश्यक औषधियों के साथ फर्स्ट एड बॉक्स, ओ.आर.एस., सूखे मेवा, पीने का पानी, दियासलाई, मोमबत्ती और दूसरे जरूरी सामान हों।
- हरिकेन लैंप, रस्सी, रबड़ ट्यूब, छाता और बांस की छड़ी अपने घर में रखिए, ये लाभदायक होंगी।
- अपनी नकदी, जेवरात, मूल्यवान, महत्वपूर्ण कागजात आदि को एक सुरक्षित स्थान पर रखिए।
- यदि बाढ़ आ जाए तो अपने परिवार के सदस्यों और पशुओं के साथ सुरक्षित स्थान जैसे सहायता कैंप, निकासी केन्द्र, ऊँचाई वाले मैदानों में चले जाएं, जहाँ आप आश्रय ले सकें।
- घर छोड़ने से पूर्व बिजली के स्विच और गैस कनेक्शन को बंद कर दें।

बाढ़ के दौरान :

- बाढ़ के पानी में न घुसें; यह खतरनाक हो सकता है।
- बच्चों को बाढ़ के पानी में या उसके समीप न खेलने दें।
- सिवरेज लाइन, नाले-नालियों, पुलिया आदि से दूर रहें।
- सांप आदि से सावधान रहें; सांप का काटना बाढ़ के दौरान सामान्य बात है।
- बिजली के खंभों से दूर रहें और गिरे हुए बिजली के तारों से दूर रहें।
- गीले बिजली के सामानों से दूर रहें; उनका उपयोग करने से पूर्व उनकी जाँच कर लें।
- ताज़ा पका हुआ खाना और सूखे मेवा खाएं। हमेशा अपने खाने का ढक कर रखें।
- गर्म किए हुए और फिल्टर्ड पानी का उपयोग करें।
- अपने घर के समीप सभी नाले-नालियों को साफ रखें।
- रुके हुए पानी से रोग वाहक / जल जनित रोग उत्पन्न हो सकते हैं। बीमारी की अवस्था में मेडिकल सहायता लें।
- ब्लीचिंग पाउडर और नींबू का उपयोग करें और आसपास के इलाके को विसंक्रामक रखें।

- 35.1 किन्हीं दो आवश्यक वस्तुओं का उल्लेख कीजिए जिन्हें 'पारिवारिक आपातकालीन किट' में शामिल किया जाना चाहिए।
- 35.2 बाढ़ की स्थिति में पारिवारिक आपातकालीन किट की वस्तुएं क्यों महत्वपूर्ण हैं ?
- 35.3 बाढ़ आने पर आपके परिवार और सामान की सुरक्षा सुनिश्चित करने के क्या अनुशंसित कार्य हैं? किन्हीं दो का वर्णन कीजिए।

Read the following source carefully and answer the questions that follow :

LOCAL GOVERNMENT

This new system of local government is the largest experiment in democracy conducted any where in the world. There are now about 36 lakh elected representatives in the panchayats and municipalities etc., all over the country. This number is bigger than the population of many countries in the world. Constitutional status for local government has helped to deepen democracy in our country. It has also increased women's representation and voice in our democracy. At the same time, there are many difficulties. While elections are held regularly and enthusiastically, gram sabhas are not held regularly. Most state governments have not

transferred significant powers to the local governments. Nor have they given adequate resources. We are thus still a long way from realising the ideal of self-government.

36.1 Analyse the significance of the elected representatives in the Panchayats.

1

36.2 In what way has the representation of women in democracy influenced by Constitutional status for local government?

1

36.3 What has been the impact of granting Constitutional status to local government on the democratic landscape of the country? Analyse any two impacts.

2

36. निम्नलिखित स्रोत को ध्यानपूर्वक पढ़िए और उसके नीचे दिए गए प्रश्नों के उत्तर लिखिए :

स्थानीय सरकार

स्थानीय सरकारों की नयी व्यवस्था दुनिया में लोकतंत्र का अब तक का सबसे बड़ा प्रयोग है। पूरे देश में ग्राम पंचायतों और नगरपालिका आदि में करीब 36 लाख चुने हुए प्रतिनिधि हैं। यह संख्या ही अपने आप में दुनिया के कई देशों की कुल आबादी से ज्यादा है। स्थानीय सरकारों को संवैधानिक दर्जा दिए जाने से हमारे यहाँ लोकतंत्र की जड़ें और मज़बूत हुई हैं। इसने महिलाओं का प्रतिनिधित्व बढ़ाने के साथ ही हमारे लोकतंत्र में उनकी आवाज़ को मज़बूत किया है। बहरहाल, इन सबके बावजूद अभी भी अनेक परेशानियाँ कायम हैं। पंचायतों के चुनाव तो नियमित रूप से होते हैं और लोग बड़े उत्साह से इनमें हिस्सा भी लेते हैं लेकिन ग्राम सभाओं की बैठकें नियमित रूप से नहीं होतीं। अधिकांश राज्य सरकारों ने स्थानीय सरकारों को पर्याप्त अधिकार नहीं दिए हैं और न ही पर्याप्त संसाधन दिए हैं। इस प्रकार हम स्वशासन की आदर्श

स्थिति से काफ़ी दूर हैं।

36.1 पंचायतों में निर्वाचित प्रतिनिधियों के महत्त्व का विश्लेषण कीजिए।

36.2 लोकतंत्र में महिलाओं का प्रतिनिधित्व स्थानीय सरकार की संवैधानिक स्थिति से किस प्रकार प्रभावित हुआ है?

36.3 स्थानीय सरकार को संवैधानिक दर्जा देने का देश के लोकतांत्रिक परिदृश्य पर क्या प्रभाव पड़ा है? किन्हीं दो प्रभावों का विश्लेषण कीजिए।

स्वतंत्रता दिवस कि शपथ, 26 जनवरी,1930

‘हमारा विश्वास कि किसी भी समाज कि तरह भारतीय जनता क भी यह अहरणीय अधिकार है कि उन्हें आजादी मिले ,अपनी मेहनत का फल मिले और जीवन कि सभी आवश्यकताएँ पूरी हों , जिससे उन्हें आगे बढ़ने परिपूर्ण का अवसर मिलें | हमारा यह भी विश्वास है कि यदि कोई भी सरकार अपनी जनता को इन अधिकारों से वंचित रखती है और दबाती है, तो जनता को भी सरकार बदलने या उसे समूल समाप्त करने का अधिकार है | भारत में ब्रितानी सरकार ने न केवल भारतीय जनता को स्वतंत्रता से वंचित किया है बल्कि उसने जनता का शोषण किया है और भारत को आर्थिक , राजनीतिक,सांस्कृतिक एवं अध्यात्मिक स्तर पर नष्ट कर दिया है | इसलिए हमारा विश्वास है कि भारत को अनिवार्य रूप से ब्रिटेन के साथ अपने सभी संबंधो को समाप्त करके पूर्ण स्वराज प्राप्त करना चाहिए |’

The Independence Day Pledge, 26 January, 1930

‘We believe that it is inalienable right of the Indian people ,as of any other people, to have freedom and to enjoy the fruits of their toil and have the necessities of life, so that they may have full opportunities of growth. We believe also that if any government deprives a people of these rights and oppresses them, the people have a further right to alter it or to abolish it. The British Government in India has not only deprived the Indian people of their freedom but has based itself on the exploitation of the masses, and has ruined India economically, politically, culturally, and spiritually. We believe, therefore, that India must sever the British connection and attain **Purna Swaraj or Complete Independence**’

धर्मनिरपेक्षता भारतीय संविधान का एक मूलभूत सिद्धांत है, जो धर्म और राज्य को अलग करने पर जोर देता है। भारत में, यह अवधारणा सुनिश्चित करती है कि सरकार निष्पक्ष रहे और किसी विशेष धर्म का पक्ष न ले, सभी नागरिकों के लिए धार्मिक विश्वास और अभ्यास की स्वतंत्रता की रक्षा करे।

भारत में धर्मनिरपेक्षता ने इसकी विविध सांस्कृतिक, धार्मिक और भाषाई विरासत को संरक्षित करने में महत्वपूर्ण भूमिका निभाई है। यह विभिन्न धार्मिक समुदायों के बीच सहिष्णुता और आपसी सम्मान को बढ़ावा देता है, जिससे उन्हें सौहार्दपूर्वक सह-अस्तित्व की अनुमति मिलती है।

हालाँकि, भारत जैसे धार्मिक विविधता वाले देश में एक धर्मनिरपेक्ष राज्य बनाए रखना चुनौतियों से रहित नहीं है। समय-समय पर धार्मिक तनाव और असहिष्णुता के मामले सामने आते रहे हैं, जो धर्मनिरपेक्षता के प्रति प्रतिबद्धता की परीक्षा लेते हैं। बहरहाल, भारत की धर्मनिरपेक्षता एक मार्गदर्शक सिद्धांत बनी हुई है, जो विविधता में एकता को बढ़ावा देती है और यह सुनिश्चित करती है कि राष्ट्र आस्थाओं और विश्वासों की अपनी समृद्ध परंपरा का जश्न मनाता रहे। यह लोकतांत्रिक आदर्शों और धार्मिक स्वतंत्रता के प्रति देश की प्रतिबद्धता के प्रमाण के रूप में खड़ा है।

(36.1) सांप्रदायिक राजनीति शब्द से आप क्या समझते हैं? 1

(36.2) भारत का राजधर्म क्या है? 1

(36.3) भारत का संविधान किस प्रकार धर्मनिरपेक्षता का पालन करता है? 2

36. Read the given case carefully and answer the questions that follow: 4

Secularism is a foundational principle of the Indian Constitution, emphasizing the separation of religion and state. In India, this concept ensures that the government remains impartial and does not favor any particular religion, safeguarding the freedom of religious belief and practice for all citizens.

Secularism in India has played a pivotal role in preserving its diverse cultural, religious, and linguistic heritage. It promotes tolerance and mutual respect among various religious communities, allowing them to coexist harmoniously.

However, maintaining a secular state in a nation as religiously diverse as India is not without challenges. Instances of religious tension and intolerance have periodically arisen, testing the commitment to secularism. Nonetheless, India's secularism remains a guiding principle, fostering unity in diversity and ensuring that the nation continues to celebrate its rich tapestry of faiths and beliefs. It stands as a testament to the nation's commitment to democratic ideals and religious freedom.

(36.1) What do you understand by the term communal politics? 1

(36.2) What is the state religion of India? 1

(36.3) How does constitution of India follows secularism? 2

'सरदार सरोवर बाँध' किस उद्देश्य से बनाया गया था? 1 2. जनजातीय लोगों के विरोध के कारण का विश्लेषण करें। 1 3. उन मुद्दों पर प्रकाश डालिए जिन पर 'नर्मदा बचाओ आंदोलन' ने काम 2 किया। 	4
35.	<p>Read the given extract and answer following questions.</p> <p>Power sharing arrangements can also be seen in the way political parties, pressure groups and movements control or influence those in power. In a</p>	4

democracy, the citizens must have freedom to choose among various contenders for power. In contemporary democracies, this takes the form of competition among different parties. Such competition ensures that power does not remain in one hand. In the long run, power is shared among different political parties that represent different ideologies and social groups. Sometimes this kind of sharing can be direct, when two or more parties form an alliance to contest elections. If their alliance is elected, they form a coalition government and thus share power. In a democracy, we find interest groups such as those of traders, businessmen, industrialists, farmers and industrial workers. They also will have share in governmental power, either through participation in governmental committees or bringing influence on the decision-making process.

1. 'Power sharing is an essential component of democracy.' Give 1
one example to prove the statement.
2. How is alliance building an example of power sharing? 1
3. How Political parties, pressure groups and movements help in 2
controlling or influencing those who are in power?

दिए गए उद्धरण को पढ़ें और निम्नलिखित प्रश्नों के उत्तर दें।

सत्ता साझेदारी व्यवस्था को राजनीतिक दलों, दबाव समूहों और आंदोलनों द्वारा सत्ता में बैठे लोगों को नियंत्रित या प्रभावित करने के तरीके में भी देखा जा सकता है। लोकतंत्र में, नागरिकों को सत्ता के विभिन्न दावेदारों में से चुनने की स्वतंत्रता होनी चाहिए। समकालीन लोकतंत्रों में यह विभिन्न दलों के बीच प्रतिस्पर्धा का रूप ले लेता है। ऐसी प्रतिस्पर्धा यह सुनिश्चित करती है कि सत्ता एक हाथ में न रहे। लंबे समय में, सत्ता विभिन्न राजनीतिक दलों के बीच साझा की जाती है जो विभिन्न विचारधाराओं और सामाजिक समूहों का प्रतिनिधित्व करते हैं। कभी-कभी इस प्रकार की साझेदारी प्रत्यक्ष हो सकती है, जब दो या दो से अधिक पार्टियाँ चुनाव लड़ने के लिए गठबंधन बनाती हैं। यदि उनका गठबंधन निर्वाचित होता है, तो वे गठबंधन सरकार बनाते हैं और इस प्रकार सत्ता साझा करते हैं। लोकतंत्र में, हमें व्यापारियों, व्यवसायियों, उद्योगपतियों, किसानों और औद्योगिक श्रमिकों जैसे हित समूह मिलते हैं। सरकारी समितियों में भागीदारी या निर्णय लेने की प्रक्रिया पर प्रभाव डालने के माध्यम से, सरकारी सत्ता में भी उनकी हिस्सेदारी होगी।

1. 'सत्ता की साझेदारी लोकतंत्र का एक अनिवार्य घटक है।' कथन को सिद्ध करने 1
के लिए एक उदाहरण दीजिए।
2. गठबंधन निर्माण किस प्रकार सत्ता साझेदारी का एक उदाहरण है? 1
3. राजनीतिक दल, दबाव समूह और आंदोलन सत्ता में बैठे लोगों को नियंत्रित 2
करने या प्रभावित करने में कैसे मदद करते हैं?

It will be open for free discussion on subjects of general utility, scientific investigation and the speculations connected with the antiquities, statistics, curiosities, history and geography of the country and of the Deccan especially... the patronage and support of all interested in the diffusion of knowledge and welfare of the people is earnestly solicited.'

Bombay Telegraph and Courier, 6 January, 1849

'The task of the native newspapers and political associations is identical to the role of the Opposition in the House of Commons in Parliament in England. That is of critically examining government policy to suggest improvements, by removing those parts that will not be to the benefit of the people, and also by ensuring speedy implementation. These associations ought to carefully study the particular issues, gather diverse relevant information on the nation as well as on what are the possible and desirable improvements, and this will surely earn it considerable influence.'

1. Explain the main reason of publishing newspaper by 1 Krishnaji?
2. How was the task of native newspaper and political 1 association seen identical to the role of opposition?
3. Analyse the reasons of popularity of newspapers during 2 19th century.

'देशी समाचार पत्रों और राजनीतिक संघों का कार्य इंग्लैंड में संसद के हाउस ऑफ कॉमन्स में विपक्ष की भूमिका के समान है। इसका अर्थ है सरकारी नीति की आलोचनात्मक जांच करना, सुधार का सुझाव देना, उन हिस्सों को हटाना जो लोगों के लाभ के लिए नहीं होंगे, और साथ ही त्वरित कार्यान्वयन सुनिश्चित करना है। इन संघों को विशेष मुद्दों का सावधानीपूर्वक अध्ययन करना चाहिए, राष्ट्र के साथ-साथ संभावित और वांछनीय सुधारों पर विविध प्रासंगिक जानकारी एकत्र करनी चाहिए, और यह निश्चित रूप से इसे काफी प्रभाव अर्जित करेगा।'

CASE BASED QUESTIONS (4x3=12)/ केस आधारित प्रश्न (4x3=12)

34	<p>Read the given extract and answer following questions:</p> <p>The 1830s were years of great economic hardship in Europe. The first half of the nineteenth century saw an enormous increase in population all over Europe. In most countries there were more seekers of jobs than employment. Population from rural areas migrated to the cities to live in overcrowded slums. Small producers in towns were often faced with stiff competition from imports of cheap machine made goods from England, where industrialization was more advanced than on the continent. This was especially so in textile production, which was carried out mainly in homes or small workshops and was only partly mechanized. In those regions of Europe where the aristocracy still enjoyed power, peasants struggled under the burden of feudal dues and obligations. The rise of food prices or a year of bad harvest led to widespread pauperism in town and country.</p> <p>i)What kind of economic hardship did Europe face during the first half of the nineteenth century (2)</p>	4
----	---	---

ii) Which country was producing cheap machine made goods? (1)

iii) How were peasants struggled in the region? (1)

1830 के दशक यूरोप में बड़ी आर्थिक कठिनाई के वर्ष थे। उन्नीसवीं शताब्दी के पूर्वार्द्ध में पूरे यूरोप में जनसंख्या में भारी वृद्धि देखी गई। ज्यादातर देशों में रोजगार से ज्यादा नौकरी चाहने वाले थे। भीड़भाड़ वाली झुग्गियों में रहने के लिए ग्रामीण क्षेत्रों से आबादी शहरों की ओर पलायन कर गई। कस्बों में छोटे उत्पादकों को अक्सर इंग्लैंड से मशीन से बने सस्ते माल के आयात से कड़ी प्रतिस्पर्धा का सामना करना पड़ता था, जहां औद्योगिकीकरण महाद्वीप की तुलना में अधिक उन्नत था। यह विशेष रूप से कपड़ा उत्पादन में ऐसा था, जो मुख्य रूप से घरों या छोटी कार्यशालाओं में किया जाता था और केवल आंशिक रूप से मशीनीकृत होता था। यूरोप के उन क्षेत्रों में जहां अभिजात वर्ग अभी भी सत्ता का आनंद ले रहा था, किसान सामंती देनदारियों और दायित्वों के बोझ तले संघर्ष कर रहे थे। खाद्य कीमतों में वृद्धि या खराब फसल के एक वर्ष ने शहर और देश में व्यापक दरिद्रता को जन्म दिया।

i) उन्नीसवीं शताब्दी के पूर्वार्द्ध में यूरोप को किस प्रकार की आर्थिक कठिनाई का सामना करना पड़ा (2)

ii) कौन सा देश सस्ते मशीन निर्मित सामान का उत्पादन कर रहा था? (1)

iii) इस क्षेत्र में किसान किस प्रकार संघर्ष कर रहे थे? (1)

In Rio de Janeiro Earth Summit, In June 1992, more than 100 heads of states met in Rio de Janeiro in Brazil, for the first International Earth Summit. The Summit was convened for addressing urgent problems of environmental protection and socio economic development at the global level. The assembled leaders signed the Declaration on Global Climatic Change and Biological Diversity. The Rio Convention endorsed the global Forest Principles and adopted Agenda 21 for achieving Sustainable Development in the 21st century.

Agenda 21- It is the declaration signed by world leaders in 1992 at the United Nations Conference on Environment and Development (UNCED), which took place at Rio de Janeiro, Brazil. It aims at achieving global sustainable development. It is an agenda to combat environmental damage, poverty, disease through global co-operation on common interests, mutual needs and shared responsibilities. One major objective of the Agenda 21 is that every local government should draw its own local Agenda 21.

i) When and where was the first International Earth Summit held? (1)

Do you know that in India about 60 percent of the population belongs to the age group 5-29 years? Out of this, only about 51 per cent are attending educational institutions. The rest and particularly those aged less than 18 years may be at home or many of them may be working as child labourers. If these children are to attend schools, we will require more buildings, more teachers and other staff. A study conducted by the erstwhile Planning Commission estimates that nearly 20 lakh jobs can be created in the education sector alone. Similarly, if we are to improve the health situation, we need many more doctors, nurses, health workers etc. to work in rural areas. These are some ways by which jobs would be created and we would also be able to address the important aspects of development. Every state or region has potential for increasing the income and employment for people in that area. It could be tourism, or regional craft industry, or new services like IT. Some of these would require proper planning and support from the government. For example, the same study by the Planning Commission says that if tourism as a sector is improved, every year we can give additional employment to more than 35 lakh people

- i) How many jobs can be created in the education sector alone? (1)
- ii) What are the different areas where people can be employed? (1)
- iii) What is the study of Planning commission about tourism sector? (2)

दिए गए उद्धरण को पढ़ें और निम्नलिखित प्रश्नों के उत्तर दें:

क्या आप जानते हैं कि भारत में लगभग 60 प्रतिशत जनसंख्या 5-29 वर्ष आयु वर्ग की है? इसमें से करीब 51 फीसदी ही शिक्षण संस्थानों में जा रहे हैं। शेष लोग और विशेष रूप से 18 वर्ष से कम आयु के लोग घर पर हो सकते हैं या उनमें से कई बाल श्रमिकों के रूप में काम कर रहे होंगे। यदि इन बच्चों को स्कूल जाना है तो हमें अधिक भवनों, अधिक शिक्षकों और अन्य कर्मचारियों की आवश्यकता होगी। तत्कालीन योजना आयोग द्वारा किए गए एक अध्ययन का अनुमान है कि अकेले शिक्षा क्षेत्र में लगभग 20 लाख नौकरियां सृजित की जा सकती हैं। इसी तरह, अगर हमें स्वास्थ्य की स्थिति में सुधार करना है, तो हमें ग्रामीण क्षेत्रों में काम करने के लिए और अधिक डॉक्टरों, नर्सों, स्वास्थ्य कर्मचारियों आदि की आवश्यकता है। ये कुछ तरीके हैं जिनसे रोजगार सृजित होंगे और हम विकास के महत्वपूर्ण पहलुओं को भी संबोधित करने में सक्षम होंगे। हर राज्य या क्षेत्र में उस क्षेत्र के लोगों के लिए आय और रोजगार बढ़ाने की क्षमता है। यह पर्यटन, या क्षेत्रीय शिल्प उद्योग, या आईटी जैसी नई सेवाएं हो सकती हैं। इनमें से कुछ को सरकार से उचित योजना और समर्थन की आवश्यकता होगी। उदाहरण के लिए, योजना आयोग का वही अध्ययन कहता है कि यदि एक क्षेत्र के रूप में पर्यटन में सुधार किया जाए तो हम हर साल 35 लाख से अधिक लोगों को अतिरिक्त रोजगार दे सकते हैं।

- i) अकेले शिक्षा क्षेत्र में कितनी नौकरियां सृजित की जा सकती हैं? (1)
- ii) वे कौन-से विभिन्न क्षेत्र हैं जहाँ लोगों को नियोजित किया जा सकता है? (1)
- iii) पर्यटन क्षेत्र के बारे में योजना आयोग का अध्ययन क्या है? (2)
