VIDYA PRAVESH: Three-month Play-based School Preparation Module for Grade- I Children, has been developed as per the recommendations of the National Education Policy 2020 (NEP) . The purpose is to help teachers ensure that all children are exposed to a warm and welcoming environment when they enter Grade I. The guidelines intend to create a stimulating learning environment that is joyful, safe, ensuring emotional security and providing support to all the children in school and at home. The play-based pedagogy is a significant aspect of the guidelines that plays a vital role in creating a joyful and stress-free environment for children to learn, and also in addressing the learning needs of children with special needs or disabilities (Divyang). Focus is also given on learning in mother tongue or home language and allowing as many languages as children bring to the classroom.

Our vidyalaya is working laboriously for the implementation of Vidya Pravesh. Here are the glimpse of some efforts done by our teachers.

PRAVESHOTSAVA – 2026

WARM WELCOME OF FOUNDATIONAL STAGE- I

We started our session (2026-27) for class 1 after their warm welcome. Pencils, Erasers, Sharpners and booklets were distributed among students by Mr. Ajambila Behera, Principal of Vidyalaya.

Balancing is a play activity to boost brain and body coordination. It helps to create logical thinking and decision making.

BALANCING ACTIVITY

Outdoor play is important for students as they need bodily movements for better learning experience. Running, Chasing, passing the ball, dribbling with ball etc. involve large muscle movements.

OUTDOOR ACTIVITY

It's an activity in which students are made to look for words, form new words, identifying letters etc. They can be given some random words or they can form their own words.

WORD BUILDING

LEARNING EXPERIENCES FOR TINY TOTS

Learning is indispensable in our life. The time has gone when teaching implies stuffing the facts in young minds. Our teachers plan for the joyful learning among students. Here are few glimpses :-

BLOCK BUILDING

Block building is free indoor play activity to enhance the conversational skills, sharing with each other, eye-hand coordination and so on.

BLOCK BUILDING ACTIVITY

YES CAN DO :-

Students can listen the command of teacher and do as directed by sitting in circle , triangle and straight line

YES I CAN DO

Outdoor play is important for students as they need bodily movements for better learning experience. Running, Chasing, passing the ball, dribbling with ball etc. involve large muscle movements.

OUTDOOR ACTIVITY

It's an activity in which students are made to look for words, form new words, identifying letters etc. They can be given some random words or they can form their own words.

WORD BUILDING

One of the biggest skills developed through sorting activities is, in fact, the development of fine motor skills. As children move and manipulate small objects, they are working their hand muscles hard. These small muscles are vital for preparing to write in future years.

SHORTING ACTIVITY

Coloring helps develop fine motor skills and the drawing precision a child begins to develop over time, coloring is a great way to help children build fine motor skills and hand strength. In developing these muscles, we can set the child up for improved writing skills.
