This is to certify that we have jointly inspected the premises and examined the various parts as per visual observation. In general we are of the opinion that all the works civil engineering construction in which the premises are structurally sound and the their stability will not be endanger by their use as educational institute.

However, it also to note that the building is 20 years old and periodical maintenance is essential to keep the buiding, in good condition. The terrace water proofing treatment is getting deteriorated which needs to be taken up under special works in order to keep the slab water proof and to protect the reinforcement from corrosion.
