

MESSAGE

Why did the Prime Minister of the country Shri Narendra Modi have to lay the foundation of 'Swatchh Bharat Abhiyan' on 2 October 2014? Why are we not able to include cleanliness in our daily routine? Why are we not able to bring about a change in our thinking and behaviour towards our own health? Why are we not able to bring about a change in our thinking and behaviour towards our own health? These sentences are flashing in the mind like a question. The answers to these questions are contained in the awareness of today's young generation if they perform their responsibilities with full devotion and explain the importance of cleanliness to people. Therefore, all the children should take care of cleanliness in their home, their locality, their village, their class and their school and contribute to the progress and development of their country.

All the parents and nation builders (teachers) are also requested to keep guiding the young generation in time for a better tomorrow of the future generation and the country.

There is a saying that “Cleanliness is the next step towards God.” If we follow this effectively then the whole country will become the abode of God in the coming years. We need to maintain cleanliness in our life. A healthy country and healthy society needs its citizens to be healthy and clean in every business.

Swachhta Pakhwada is not just a campaign – it is a movement toward building a more responsible and conscious society. Cleanliness is essential not only for our health but also for the well-being of our planet. Through small actions like proper waste disposal, avoiding single-use plastics, and maintaining hygiene, we contribute to a larger cause. This Swachhta Pakhwada, let us not just participate for a few days, but adopt cleanliness as a habit for life. Let us be the change we wish to see – for ourselves, our communities, and our nation.

Swachhta Pakhwada is a reminder to all students that cleanliness begins with us. A clean classroom, school, and playground help build a healthy mind and a healthy body. Let us pledge to throw waste in bins, keep our surroundings neat, and spread awareness about hygiene. Clean students, clean school, and clean nation!

Cleanliness is not just a responsibility, it's a way of life. Let's come together this Swachhta Pakhwada to build a cleaner, greener, and healthier India. Every step counts – let's start with our surroundings!
