India is traditionally an agrarian society, to fulfil the food requirement of 1.4 billion population which is growing exponentially, is a Herculean Task and to make the students aware about the role of a farmer in building of the nation and to make them aware about the roles of Agricultural Universities all over India in dealing with this mammoth task and to make the farmers ready for 21st century farming practices and to double their income in the future. The Students and the teachers visited the departments mentioned above and learned about many innovative technologies and modern agricultural practices that are being adopted by the farmers. The students were also briefed about the various job and research opportunities available for them as career options. In all this study tour was really effective and fruitful
