FLN ACTIVITIES -

PHONICS/ READING/ TOY BASED PEDAGOGY / INTEGRATED LEARNING.

All the activities related to FLN executed with planning to make the children understand the basic skills like Phonics/ Reading/ Integrated learning/ Toy based learning/ Numeracy.

Strategies stimulated active participation, developed interest, understanding and showed confidence in their learning. They became very much conversant in online and offline learning.

For example -

Language games like - Phonics skill tried to develop through - Sounds of different letters / Rhyming words/ Picking of Silent letters/ Homophones/ Homonyms / Palindromes/ Tongue Twisters/ Syllables through clapping .

Reading skill tried to develop through different ways like Reading Text messages, Caption reading, Reading from the wrappers of different product, Story reading, Reading the Thoughts of Great Personalities.

Numeracy learning - Children were involved in different hand on activities/ learned various shapes through kitchen utensils/ Learned Counting, Addition, Subtraction, Multiplication, Division using different objects present in the class, things present in their bags ,using small sticks, stones , leaves.

TOY BASED ACTIVITIES - Children were encouraged to prepare toys using all waste materials like socks, gloves , boxes, plastic bottles , clay to develop their creativity, finger puppets of different animals, fruits and to converse and to talk with their puppets. Teachers tried to use toys in all the subjects during the Teaching Learning Process.

Drawing and Art - Helped to develop an Interdisciplinary approach . Helped the children to develop their skill on - Picture reading in language , Children learned easily basic activities of Mathematics and EVS with the help of drawing and art.
