ARROGANT LIONESSE

A long time ago there lived a lioness in a forest. She was very beautiful and powerful. Lioness was proud of her strength. But lion, husband of lioness, was very compassionate and very respectable among all the animals. Lioness was very arrogant and she didn't even talk directly to anyone. Lioness has two kids they always wanted to play with other animals but lioness stop them by saying "Kids come here how many times I have told you that not to play with them they all are trivial creatures we don't have any match with". Listening these words the animals felt very bad. One day the lioness along with her children went to the bank of the lake and she slept seeing their mother sleeping her children went to play. When the lioness woke up she saw that both of her children were not there. She became very tensed, looked around here and there but couldn't see them. She approaches elephant and asks him "Dear elephant have you seen my children anywhere?" Then elephant said "No queen, I have not seen your children anywhere. Even if I had seen them I would have never tell because you and your children were forbidden to meet me and you told them that I am a mad and a crazy elephant." Lioness felt very bad to hear the elephant's answer. Hearing lots of noise some other animals also reached there. The lioness asks them "will you help me to find my Kids?" Then horse said "hey Queen how we can help you as you said we all are trivial creatures we don't have any feeling for you". Listening these words she felt very embarrassed. Lioness started crying. She cried a lot and realizes that how cruel and arrogant she is. Then she apologize to all the animals "All the fault is mine please forgive me and I realized my fault". Then Bear said "don't cry queen we will help you to find your Kids ". All animals together finding children of lioness. After a while Monkey found them. Monkey said "I found your children they are here". After some time lioness arrived there and she was very happy to see her children playing with turtle. She thanked all the animals heartily. Since that day, the Lioness never insulted any animal and gave up on her pride forever.

MORAL OF THE STORY

We should never boast something and we should never heart others.

BOARD BASED EDUCATION

Some animals in a forest decided to start a school. The students included a bird, a squirrel, a fish, a dog, a rabbit and a mental retarded eel. A board was formed to determine the curriculum and it was decided that flying, tree climbing, swimming and burrowing would be a board based education. All the animals were required to take all subjects. The bird was excellent at flying and was getting A's but when it came to burrowing, it kept breaking its beak and wings and started failing. Pretty soon, it started making C's in flying and, of course, in tree climbing and swimming it was getting F's. The squirrel was great at tree climbing and swimming it was getting F's also. The fish was the best swimmer but couldn't come out of the water and thus got F's in everything else. The dog didn't join the school, stopped paying taxes, and kept fighting with the administration to include barking as the part of the curriculum. The rabbit got A's in burrowing but tree climbing was a real problem. It kept falling and landing on its head, suffered brain damage, and soon couldn't even burrow properly and got C's in that too. The mental retarded eel, who did everything half as well, became the valedictorian of the class. The board was happy because everybody was getting board based education.

BUT

A true board based education prepares students for life, without losing their areas of specialization and competence.

As India and the World await Chandrayan 2's soft landing on the moon the significant of landmark space mission has been a point of discussion among the scientist community and social media a like.

If this mission is successful, India will become the fourth country after the US, Russia and China to conduct a soft landing on the moon and the first country to land close to the lunar south pole on its first attempt.

Pollution

Pollution is a great problem that we are facing in our cities and even in the villages. Pollution is of many kinds like earth pollution, air pollution, noise pollution, water pollution, etc. with the rise in population. It is becoming more acute most of the rivers are polluted because of the wastes from the factories and the flow of drains in the rivers. River water is no longer suitable for drinking. It causes many diseases. Air we breathe is also polluted vehicles playing on the road emit smoke and poisonous gas bad for health. In big cities we feel much suffocation because of air pollution. Noise pollution has also affected us loud speakers, blaring day and night, disturb our sleep and calm of life-Earth pollution is also affecting agriculture production. It is also a health hazard open drains and filthy streets full of night soils affect our health. So we must be very careful about it. We should plant more trees to counter the effect of increasing pollution.

You're inside me,
I am your prey.
If I wanna live,
So let me run away.

I gave shelter to you.
You're tearing me inside my vein
You're epoxy to me.

Ego is killing me
He is not leaving me
I dug my own grave
I am coward not brave.

I gave birth to my ego
I had a chance to let it go
But he feed on me
I am locked inside without key.
Ego is killing me
He is not leaving me
I dug my own grave
I am coward not brave.

Lovely Moon

Lovely moon, Lovely moon,
Come soon, Come soon,
The sun has gone to the west,
The night has arrived in haste.

Now darkness is all around,
How can we play on the ground?
You are the only source of light,
For millions of people at night.

Babies see you with great delight,
Mothers sing lullabies at night.
Come soon with pleasing light,
Remove the darkness of the night.

Make our earth beautiful and bright.
Won't you come in the shape of "O"?
To light the huts of the poor and low.

You're kind to all mankind,
Give us pleasure and please of mind.
We'll sleep in your lap at night,
How beautiful is the moonlit night !

Personally prosperous

At the moment
in a perfectly understandable situation
when plans seem to be working
I am seriously engaged
in a real, personal, prosperity
My job, my time
the things I find
my people mine
all come along.
So it is moving
and I am fine
but then for a very short while
when I am lost
not knowing
the next best thing
I whip it up
my most recent past
most forgotten
floating, fluid past
the soundless, painless
bubbles of time
that is still not dead
and emerge out like froth
from a freshly poured in
glass of drink
that's been there
my eyes now fixed in a stare
As all this happens
between
a set of task now accomplished
and a set of task
now lying there

BEHAVIOUR

We don't what we ought,
What we ought not, we do.
And learn upon the thought,
That chance will bring us through.
But our own acts, for good or ill,
Are mightier powers.
Conduct is three fourth of our life and,
It's largest concern.
Do not do into others as you would,
They should do into you.
Their tastes may not be the same,
If all the good people were clever.
And all the clever people were good.
The world would be nicer than ever,
We thought it possible could.
But some how, "it's seldom or never"
The two his off as they should.
The good are too harsh to the clever,
The clever so rude the good.

Female Education

There was a time when people thought that it was not necessary to educate women. Now we have begun to realize that female education is essential. The modern age is the age of awakening of women. They are trying to compete with men in all spheres of life. There are many people who oppose female education. They say that the proper sphere of women is the home.

PLANTING

I took a little seed one day
About a month ago.
I put it in a pot of soil
And hoped that it would grow.

I poured a little water
To make the soil right.
I put the pot upon the sill
Where the Sun would give it light.

I checked the plant most every day.
And turned it once or twice.
With a little care and water.
I helped it grow so nice.

Sundays

Sunday morning
Eleven o'clock
Sun breaks on my balcony
The soap opera is on

Digital voices that
capture life and passion
permeate my house
as I move
from kitchen to balcony,
wading through
air alive with
passions wafting on the waves.
I move
from balcony to the living room
caring for my hunger
and dirty clothes.

In between
I stare on the sun
in my balcony,
not moving, relieved.

Digital surrogate of emotions
the soap data base
gives me a chance
for all my food
and cauterized moments

But you made me the best child

But you gave me the next books.
I was not too intelligent,
But you made me intelligent.
I was not so good in reading.
But you made me to continue improving.
How can I repay
