Q.1

Read this informational magazine article that encourages kids to get interested in gardening. Answer the questions that follow.

How to get kids interested in gardening

Beautiful spring weather is the perfect time to help children to cultivate a love of gardening. Gardening will teach them patience and the value of hard work. It also encourages outdoor family time and promotes good health for everyone.

Involve children with garden planning from the start. Let them find their own garden space. Let them make decisions about what and where to plant. This will help them take pride in the garden, and it'll teach them responsibility. They could even have their own gardening gloves and tools.

Grow edible plants. Kids will love the idea of eating fresh produce that they helped grow, and they'll also probably enjoy picking and cooking it as well. You might get them started with a love of cooking, too!

Getting a few birdfeeders will attract beautiful birds to your garden and will help keep kids interested in what's going on outside. Watching nature shows on television will help spark their curiosity about the natural world.

Q. 2.

Read the magazine article about Rail Museum below and answer the questions that follow.

Welcome to the new Rail Museum

Be it adults or children, Delhi has a new spot for enjoyment. The newly renovated Railway Museum is a perfect picnic spot. So, when my child wanted to go for a fun outing, we took her there. Much to our pleasure, the museum is much better than it was in the past.

Apart from informing about the history of Indian Railways, the museum also lets you know how the railway works. Right from the oldest trains to the newest technology, everything is there for you to marvel* at.

Opened in 1977, the museum displays life-size models, royal carriages, documents and maps which tell the history of the Indian railways spanning over 160 years.

My daughter enjoyed the toy train ride and I loved the model of the rail network. Train rides, virtual reality experiences and a restaurant make it a day well spent.

Q. 3

This is a short biography of Walt Disney, who created some of the best-known cartoon characters of all time.

Walt Disney's childhood

Walt Disney, from America, is a famous cartoon artist. He created animation film* characters who are known throughout the world. Probably, the most well-known of these is Mickey Mouse who was first brought to life in 1928.

Walt was born in 1901 in the city of Chicago but in 1906 he moved to live on a farm in the countryside with his parents, younger sister and three older brothers. As a child, he enjoyed drawing and used to copy pictures from his father's newspaper. He was such a good artist that one of his neighbours paid him to draw his horse.

In 1911 the family moved again – this time to Kansas City. Here, young Walt and his brother Roy woke up at 4:30 every morning to deliver newspapers before school.

They repeated this each evening after school for more than six years. This routine was exhausting, and Walt often fell asleep in class. However, he knew he wanted to improve his drawing so he attended art school on Saturdays and kept practising.

Questions

- Find and copy one word to answer each of the questions below.
Where does Walt Disney come from?
What is he famous for?
- (a) Look at the first paragraph. Find one phrase that means the same as 'famous'.
(b) Mickey Mouse who was first brought to life in 1928.
What does brought to life mean?
- How many people are there in Walt's family?
- Give three ways that Walt practised his drawing skills.
- Why was Walt often tired at school?
- Select one option to complete this sentence.
Roy is Walt's:
A. Father
B. Friend
C. Brother
D. Horse
