- ❖ Installing Indigenous Games stall by Primary students while 54th NSM -Page
- ❖ Making of Inclusivity book cum activity book for CWSN child-Page
- ❖ Documentary-"Hope " of Ma Shardool, CWSN Child-Page

🎲 Procurement of Magnetic Board Games 🎲

"Where Learning Sticks and Fun Clicks!"

Magnetic board games are an innovative teaching-learning resource that transforms traditional classroom instruction into an interactive, hands-on, and joyful learning experience. By using colourful magnetic pieces on vertical or horizontal boards, students actively participate in activities related to literacy, numeracy, environmental studies, languages, and problem-solving. These games promote experiential learning, collaboration, critical thinking, and creativity while catering to diverse learning styles.

The vidyalaya procured a variety of **Magnetic Board Games** to strengthen classroom learning. The Board games includes Map of India with states pins, Parts of Body board with parts pin, Varnamala Board, Alphabet board, Emotions board with Pins. The boards are very helpful to make learning experience engaging for CWSN child and also for fostering Retention in slow learners. The magnetic format enables easy manipulation of learning materials, making concepts more concrete and engaging for young learners. It also supports inclusive education by encouraging participation of all students, including those with special learning needs. Through game-based learning, magnetic board games enhance student motivation, improve retention of concepts, and create a

stimulating classroom environment that aligns with the objectives of the National Education Policy (NEP) 2020 and NIPUN Bharat Mission.
