FOUNDATIONAL LITERACY AND NUMERACY ACTIVITIES CONDUCTED IN THE VIDYALAYA IN VIEW OF NEP 2020 AND NIPUN BHARAT MISSION

NEP 2020 recognises foundational literacy and numeracy as the essential foundation for all future learning. The NIPUN Bharat Mission further focuses on enabling every child to attain foundational reading, writing and numeracy competencies.

PM SHRI KV CRPF Gandhinagar has integrated FLN activities with classroom teaching and utilised the available **NIPUN and PM SHRI learning resources/TLM** to provide children with opportunities to learn through **play, manipulation, exploration, conversation, stories, games and real-life experiences.**

Innovative Element

The key feature of the FLN initiative is the **conversion of procured TLM into purposeful learning experiences**. Instead of limiting resources to demonstration, children are given opportunities to **touch, manipulate, arrange, match, construct, read, speak, count, reason and solve**.

This approach reflects the NCF-FS understanding that young children learn effectively through play, activity, interaction and first-hand experiences.

The initiative reinforces the belief that:

"Every child can learn; every activity can become an opportunity to learn."

The FLN programme of the Vidyalaya reflects the pedagogical principles of the **National Curriculum Framework for Foundational Stage 2022** by providing opportunities for:

- Free play and guided play.
- Learning through toys and manipulatives.
- Storytelling and conversation.
- Songs, rhymes and music.
- Exploration and experimentation.
- Learning through real-life contexts.

.

NCF-FS describes play as an active and interactive process and provides for a balance of free, guided and structured play during the Foundational Stage

NIPUN TESTING CAMP

ORGANISING NIPUN TESTING CAMP TO TEST ACHIEVEMENT OF NIPUN TARGETS

Foundational Literacy Activities under Nipun testing-

1. वर्णमाला चकरी: Students identified letters, recognised their sounds and associated them with familiar words.
2. शब्द पतंग: Students joined letters to form meaningful words and strengthened their vocabulary.
3. बिना मात्रा के शब्द: Students practised reading and forming simple words using magnetic letters.
4. Magnetic Word Formation: The magnetic board was used for अक्षर पहचान, शब्द निर्माण, CVC/simple words and sentence formation.
5. Big Book Reading: Students participated in shared reading, picture reading, storytelling and comprehension activities.
6. Picture–Word Matching: Students matched pictures with appropriate words to strengthen vocabulary and word recognition.
7. Story Sequencing: Students arranged picture cards in sequence and narrated stories in their own words.
8. Word Wall Activity: Frequently used words and newly learnt vocabulary were displayed and practised through interactive activities.

Foundational Numeracy Activities

1. Number Recognition: Students identified and matched numbers using number cards and manipulatives.
2. Counting Activities: Students counted objects using blocks, counters and other concrete materials.
3. Number Ordering: Students arranged numbers in ascending and descending order.
4. Shape Identification and Sorting: Students identified, matched, sorted and classified different shapes and objects.
5. Pattern Activities: Students created and continued simple patterns using blocks, beads and activity cards.
