Message

I am delighted to know that kendriya Vidyalaya Koderma bringing out its e-magazine on Pre-vocational Program (PVEP) for the academic year 2023-24.

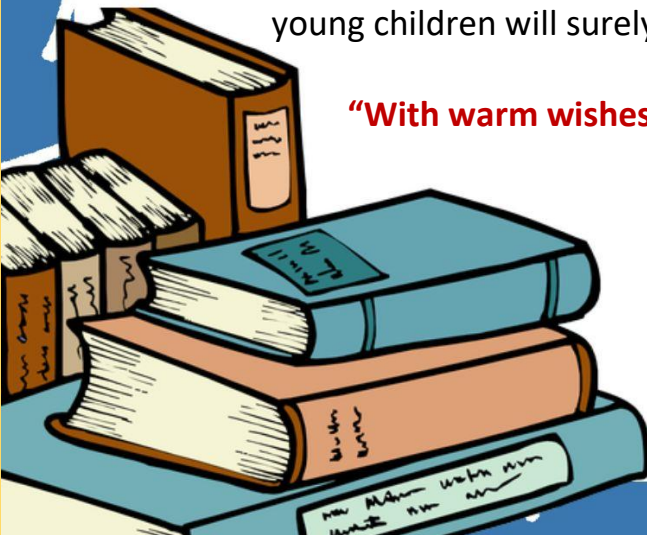

The school magazine provides a perfect platform for the budding talents to express their skills and ideas. It is the niche of the future artist, designer and entrepreneur.

School is a place where a child achieves holistic development which includes psychological, mental, social and spiritual development on a single platform. School magazine is a place for manifestation of the creative ideas. Positive changes can easily be seen in the reflection made by the students for this magazine.

I congratulate and wish all the young writers, educators and motivators (teachers) of the vidyalaya for making contribution in one or another way in conducting vocational programs in effective manner.

I am sure that the positive attitude, hard work, sustained efforts and innovative ideas exhibited by our young children will surely stir the mind of the reader.

“With warm wishes and God’s blessing.”

Sri Dharmendra Kumar
I/C Principal

Activity Program-Nursing

Our school selected nursing and gardening as a Pre-vocational Education Programs (PVEP) for the academic year 2023-24 to train students about basic first aids given at home and school.

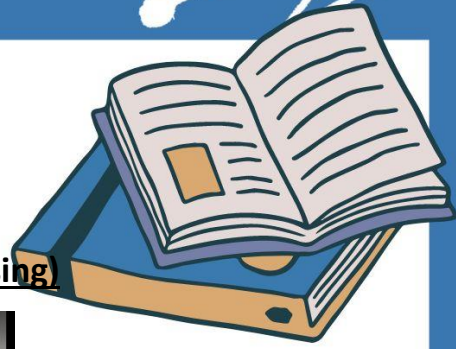

We invited two nurses from Sadar Hospital Koderma as a chief trainer for this program. They highlighted the benefit and basic need of first aid to be given at the place of accident.

Activities conducted during session are-

- BP measurement using kit
- Different Types of bandage and its use
- Diabetes test using glucometer
- CPR
- First-Aids treatment
- AEP(Adult Education program for girls)

Activity photographs (Nursing)

Gardening

School students visited along with teachers to under construction site of new school campus to plant trees. They learned how to plant trees, different parts of plants, how to conserve tree from animals and insects.
