Concluding Remarks

The CBSE Board results of the academic session 2025–26 place PM SHRI Kendriya Vidyalaya Gandhi Marg, Angul, among the consistently high-performing institutions within the Kendriya Vidyalaya Sangathan, Regional Office Bhubaneswar, with a cent-percent pass outcome recorded at both the secondary and senior secondary stages. The results validate the school's continued alignment with the objectives of the PM SHRI scheme and the National Education Policy 2020, particularly in fostering conceptual understanding, competency-based assessment, and technology-integrated learning through subjects such as Artificial Intelligence and Computer Science.

Going forward, the school proposes to consolidate this performance through subject-specific remedial planning in Mathematics, Physics, and Chemistry at the senior secondary level and in Mathematics Basic at the secondary level, continued mentoring of high-potential students identified among the top position holders, and sustained integration of formative assessment practices across all subjects. The school extends its appreciation to the teaching faculty, students, and parents whose collective effort has made this result possible, and looks forward to building upon this foundation in the sessions to come.
