

WATER CONSERVATION AWARENESS MESSAGE

“A Drop Today. A Future Tomorrow”

At PM SHRI Kendriya Vidyalaya Fort William, a Water Conservation Awareness Activity was conducted to promote the value of saving water. Students actively participated in poster-making, slogan writing, and awareness drives, spreading the message that every drop matters.

Through creative expressions and guided discussions, they learned about the urgent need to conserve water for future generations. The school community came together to inspire change, encouraging water-saving habits at school and home.

Let's pledge to use water wisely — not just for today, but for a better tomorrow.
Conserve water. Preserve life.

Pledge By Members of PM SHRI KV Fort William
