Message

□□□□□□ □□□□□ □□□□□, □□□□□□□ □□□□ □□□□□□□□□□

□□□□□□□□□□□ □□□□□□□□□□ □□□□□ □□□□□ □□: □□□□□□□

Knowledge gives humility, humility leads to eligibility, worthiness to wealth, wealth to religion and religion to happiness.
Education is the foundation of man on which the future of man is built. Kendriya Vidyalaya Sangathan, with its continuous efforts towards education, is making a meaningful effort to ignite the flame of knowledge in India. All my senior officers, colleagues, teachers and employees of this organization are making meaningful efforts to take education to every student with their full dedication.
I wish for the bright future of all the students who are building their future in the learning environment of Kendriya Vidyalaya Sangathan.

□□□□ □□□□□□□□□□ □□□□!

School Principal Message

”Education is not the learning of facts but the training of minds to think.”

Education is the acquisition of knowledge, various life skills, and values in order to become a better person. . Education is a way of igniting and enlightening the thought of an individual. Education provides the nation with those educated hands which can help in the development of the nation.

The purpose of education is not restricted to get good grades only, main purpose of education is to strengthen student’s mind so that they can learn to deal with challenges of future life.

A teacher can boost children’s motivations to strengthen their minds through efficient and focused efforts. They are responsible for building stronger minds, so that the children not only become good human being but also contribute in the development of the society and country.

HUMAN ATTITUDE & POTENTIAL

PRAVEEN KUMAR, VICE PRINCIPAL (SHIFT II)

The human being is the best creation of God. We have been endowed with unfathomable potential of body and mind by the Almighty. With strong will power, good planning and sincere efforts one can keep breaking the limits of one's body and mind and can stretch it to the level when it can astonish the world.

To achieve it, one has to keep a strong belief in oneself with "I can do" attitude and should keep enhancing their skills. Success comes when Preparation meets Opportunity with right attitude. Therefore, one must be vigilant also to avail every opportunity that comes their way. Skills acquired through practice must bear fruits which fuels the person to put more and more efforts to keep breaking his/her limits. The astonishing performance of Indian athletes in the recent Commonwealth Games is the outcome of such attitude and efforts only.

For sure, before meeting the glory, one may come across some or many moments of failures also. You may lose in the beginning but remember my dear students that losing something in the efforts to gain is not called a loss. It is called investment and investments get big dividends in future. Therefore, never be disappointed by failures in life they will enrich you to do better next time and will make you a winner.

Holding on to such attitude will give you a sense of accomplishment, satisfaction and utter serenity which will spread positive vibes all around. It will bring a sense of pride and a beaming smile on your and your near and dear one's face. So keep putting your efforts with untiring energy and attitude.

"Practice like you have never won.

Play like you have never lost."

I wish of you all the best of luck.

Chief Editor's Message

The magazine is to be viewed as a launch pad for the children's creative urges to blossom naturally. As the saying goes, mind like parachute works best when opened. This humble initiative is to set the budding minds free allowing them to roam free in the realm of imagination and experience to create a world of beauty in words.

The enthusiastic write ups of our young writers are indubitably sufficient to hold the interest and admiration of the readers. This souvenir is indeed a pious attempt to make our budding talents give shape to their creativity and learn the art of bing aware because I believe that or success depends upon our power to perceive, the power to observe and the power to explore. We are sure that the positive attitude, hard work, sustained efforts and innovative ideas exhibited by our young buddies will surely stir the mind of the readers and take them to the surreal world of unalloyed joy and pleasure. We have put in relentless efforts to bring excellence to this treasure trove.

This herculean task of editing this school magazine would not have been possible without the sincere support of the members of the Editorial Board who sorted of the articles from the flood of articles we had got from our enthusiastic and inquisitive young writers, edited them and finally made a fair draft of them. I am thankful to all my colleagues who dipped their oars int the turbulent water of the journal and have sailed it to the shore of publication. It is a fine thing to have ability but the ability to discover ability in others is the true test. I am really thankful to our respected Principal for entrusting us with the responsibility of editing.

I take this opportunity to thank all the dignitaries for sparing their valuable time to send their best wishes for the magazine in the form of 'Messages'. I heartily wish all the readers my best wishes and hope this souvenir will enjoy your critical acclaim and prove itself to play a vital role in the all-round development of the children.

Mr. Praveen Kumar
Vice-Principal (Shift-II)

A REPORT ON A PARTNERSHIP BETWEEN STATE GOVERNMENT SCHOOL AND KENDRIYA VIDYALAYA BULANDSHAHR

Our Kendriya Vidyalaya had adopted a state government primary school which is situated at Police lines, Bulandshahr to share not only the best practices but also to exchange the best resources for ensuring excellence in pursuit of scholastic and co-scholastic activities in the school system.

This project involves various activities like visit of the Kendriya Vidyalaya by the Primary school students to use the resources like computer lab, library, music room, medical room, sports facilities etc.

On 14th September 2022, Students of primary school police lines, Bulandshahr, along with their Class teacher, Mrs. Sucheta Yadav, visited Kendriya Vidyalaya Bulandshahar.

Upon the arrival, the students were made aware about the concepts of BALA (Building As Learning Aid). They were shown how with the help of BALA, their scholastic learning can increase as BALA is a part of every student's daily routine in the school.

The students also visited music rooms where they learned about the fundamentals of music and also participated in learning by playing drums, guitar etc. It is to mention here that some really new and hidden talents came into light.

Then the Students visited ICT classrooms where they learned about different animals and their sounds.

Afterwards, the students went to computer lab where they learnt about hardware parts when Mr.Akash explained them about the functions of these parts.

At the last they took a library tour as well where they read interesting story books. Our honorable Principal Sir also interacted with the students and the students' whole heartedly shared their learning experiences during the visit of K.V. BULANDSHAR.

In this way, a day filled with learning, was enjoyed by the students of primary school Police lines, Bulandshahr.

10 LINES ON
WOMEN EMPOWERMENT

Mrs Renu
TGT-Sost

1) Women empowerment helps in improving the standard of life of women in rural as well as metro areas.
2) Women's empowerment helps in preventing the cruel crime of female foeticide.
3) It also helps in reducing domestic violence and crimes against women.
4) Women empowerment helps in reducing gender inequality in society.
5) The empowerment of women has also brought a lot of economic and social gains to India.
6) Women empowerment is important for solving societal issues like poverty, unemployment and birth control in India.
7) Women empowerment helps in securing the rights of women in India thereby maintaining their social status in society.
8) Women empowerment helps in achieving comprehensive growth meaning growth in each sector and for all the sections of society.
9) Empowered women can contribute to nation-building by joining any sector like an army, social service, politics, education, corporate sector, etc.
10) The government should focus, especially in rural areas, for empowering women as the majority of India's population resides in the village.

WWW.TEACHINGBANYAN.COM

Cyber Security Awareness, Knowledge and Behaviour

By Ravi Kumar Tewari

PGT CS

The education sector has seen a rise in social engineering–based attacks. Students, staff, and faculty all suffered losses when personal data and research were disclosed to unauthorized parties. Phishing played a part in more than 40% of these breaches. Knowing what you're up against can help you be more secure. Here are a few things you can do to guard against these types of attacks:

- Limit what you share online. The less you share about yourself, the smaller the target you are for a phishing attack. Cybercriminals use information you post online to learn how to gain your trust.
- Protect your credentials. No legitimate company or organization will ask for your username and password or other personal information via e-mail. Keep clean machines! Before searching for that perfect gift, make sure your device, apps, browser, and anti-virus/anti-malware software are patched and up to date.
- Beware of attachments. E-mail attachments are the most common vector for malicious software. When you get a message with an attachment, delete it unless you are expecting it and are absolutely certain it is legitimate. If you’re not sure, call the sender at a number you know is legitimate to check. Don't respond to pop-ups. Ignore pop-up offers and deals. Just close them.
- Phishing messages can look official. Cybercriminals steal organization and company identities, including e-mail addresses, logos, and URLs that are close to the links they're trying to imitate. There are a lot of fake and malicious companies out there this time of year. When considering a new website or online company for your holiday purchases, read reviews and see if other customers have had positive or negative experiences with them.
- Shop reliable websites, and get there safely. If an offer sounds too good to be true, it probably is! Don't be fooled by the lure of great discounts by less-than-reputable websites or fake companies. Use the sites of retailers you know and trust. Look for https:// (not http) in the address bar before using your credit card online
- Secure all of your devices with a complex password. Don’t use the password for any other accounts. Set a timeout that locks your devices after a period of inactivity, and be sure they require a password or other authentication to start up or resume activity.
- Take your time. If a message states that you must act immediately or lose access, do not comply. Phishing attempts frequently threaten a loss of service unless you do something. Cybercriminals want you to react without thinking; an urgent call to action makes you more likely to cooperate.
- Don't click links in suspicious messages. If you don't trust the e-mail (or text message or post), don't trust the links in it either. Beware of links that are hidden by URL shorteners or text like "Click Here." They may link to a phishing site or a form designed to steal your username and password.

Rita Bhati,
TGT-Mathematics

20 Amazing Facts of Mathematics

1. The word “hundred” comes from the old Norse term, “hundrath”, which actually means 120 and not 100.
2. In a room of 23 people there’s a 50% chance that two people have the same birthday.
3. Most mathematical symbols weren’t invented until the 16th century. Before that, equations were written in words.
4. “Forty” is the only number that is spelt with letters arranged in alphabetical order.
5. Conversely, “one” is the only number that is spelt with letters arranged in descending order.
6. From 0 to 1000, the only number that has the letter “a” in it is “one thousand”.
7. ‘Four’ is the only number in the English language that is spelt with the same number of letters as the number itself.
8. Every odd number has an “e” in it.
9. The reason Americans call mathematics “math”, is because they argue that “mathematics” functions as a singular noun so ‘math’ should be singular too.
10. Markings on animal bones indicate that humans have been doing maths since around 30,000BC.
11. “Eleven plus two” is an anagram of “twelve plus one” which is pretty fitting as the answer to both equations is 13.
12. Also, there are 13 letters in both “eleven plus two” and “twelve plus one”.
13. Zero is not represented in Roman numerals.
14. The word “mathematics” only appears in one Shakespearean play, “The Taming of the Shrew”.
15. −40 °C is equal to −40 °F.
16. In France, a pie chart is sometimes referred to as a “camembert”.
17. The symbol for division (i.e.÷) is called an obelus.
18. 2 and 5 are the only prime numbers that end in 2 or 5.
19. A ‘jiffy’ is an actual unit of time. It means 1/100th of a second.

20. If you shuffle a deck of cards properly, it's more than likely that the exact order of the cards you get has never been seen before in the whole history of the universe.

CONCLUSION:– LIFE IS A MATHS EQUATION. IN ORDER TO GAIN THE MOST, YOU HAVE TO KNOW HOW TO CONVERT NEGATIVES INTO POSITIVE.

Building Leaders of Tomorrow

The standard of the Vidyalaya has been maintained because of the leader of the team along with the highly qualified, experienced and dedicated team members . Our organization also conducts In - service courses for teachers from time to time for updating the knowledge and to aware them with latest methodology and the technology of education. There is a system for an academic supervision by the seniors educationists, specialist and experts to bring about the desired changes in the academic attitude and aptitude of the teachers.

To keep the students abreast with the latest technology, Vidyalaya has most modern computers along with internet facility and other audio - visual aids. Computer education is being provided from class - 1 onwards. Activity based teaching is being done in primary classes.

The library of Kendriya Vidyalaya Bulandshahr, second shift is treasured with a good number of quality books. Even during pandemic due to Covid- 19 books were issued to the students in good quantity. Now PDF books are also being provided for reading at home.

To inculcate the reading habit among the tiny tots a variety of books were issued from the main library under the provision of library for primary classes.

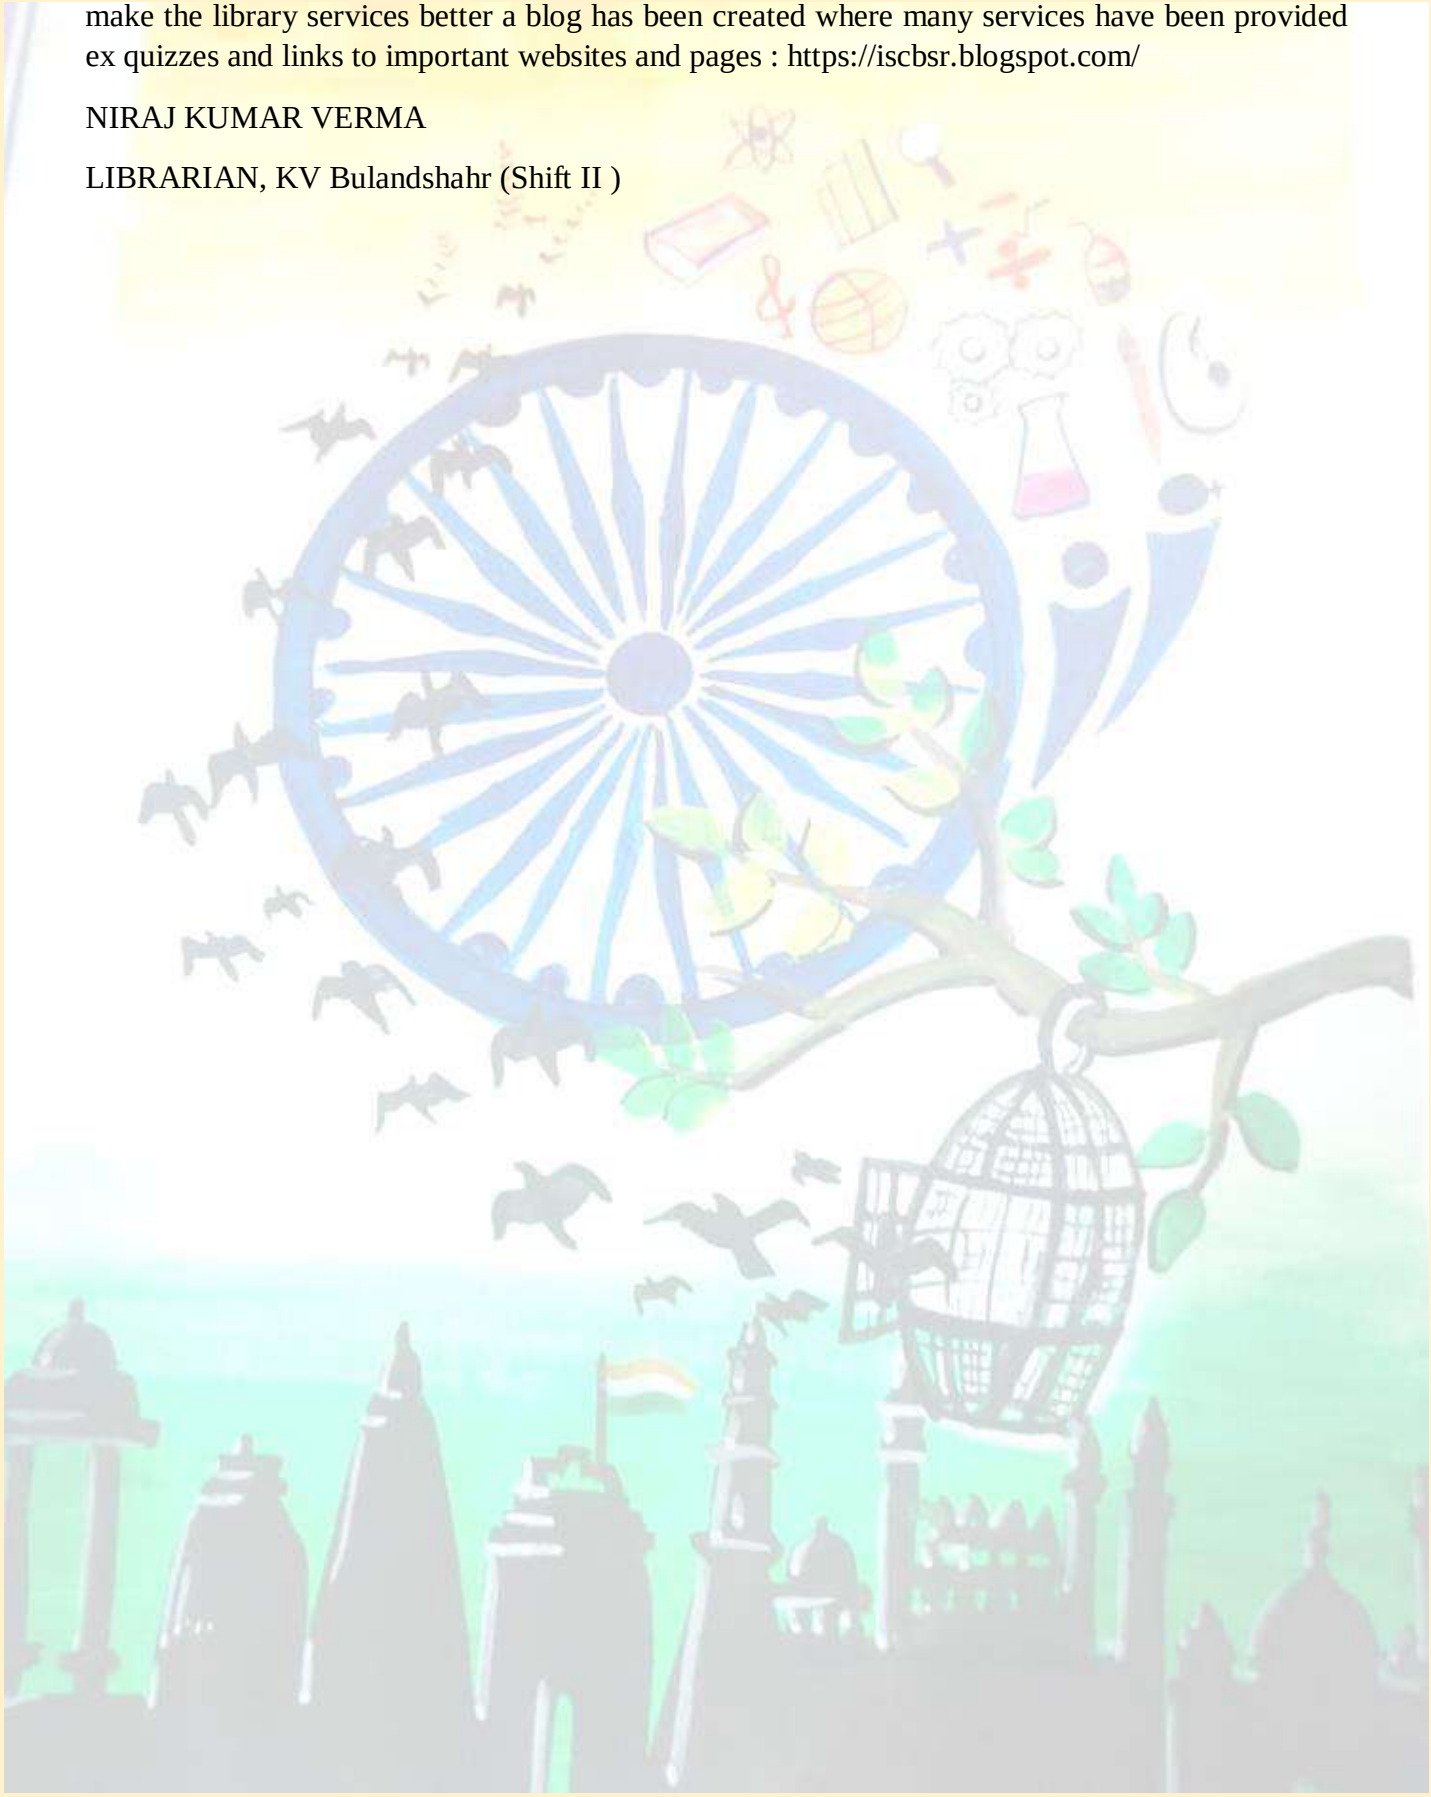

A virtual library has been created for the students of primary , secondary and senior secondary classes , Story – telling, Story writing ,Book talk, author talk, online book

review and reading time activities were conducted . Maximum students participated in all library activities Online quizzes were conducted to prepare students for competitive examinations . To make the library services better a blog has been created where many services have been provided ex quizzes and links to important websites and pages : https://iscbsr.blogspot.com/

महिलाओं को सशक्त बनाना,
उन्हें शक्ति प्रदान कराना है
क्यों महिलाओं को परदे में रखते हैं, उन्हें पढ़ने नहीं देते हैं
उन्हें घर के चार दीवारों से उजागर करना है
उन्हें अपने हक के लिए लड़ना है।
क्यों उन्हें एक आदमी पर निर्भर रहना है,
क्यों उन्हें सामाजिक समस्याओं से अकेले सूचना है
हमें नारी सशक्तिकरण के प्रचलन को आगे बढ़ाना है

अब वह भी आसमान में जगह बनाएं
नारी होने पर गर्व महसूस करेंगे
अब नहीं किसी बेटी को पत्नी बना करके करेंगे
नए लोग इस दुनिया से इंसानियत को बेचेंगे
लड़की और लड़का में भेदभाव नहीं करना है

अब ना रहेगी वह बेचारी मैं कहलाएंगे अबला नारी
अब तो देश भर में उनके सफलता के होंगे चर्चे
और उस दिन मिल जाएंगे उन्हें अपने सपनों के ठिकाने
लेकिन हमें फिर भी रुकना नहीं है,
हमें तो नारी सशक्तीकरण के प्रचलन को आगे बढ़ाते रहना है

लोगों के आंखों से इस भेदभाव के पर्दे को हटाना है
हमें नारी सशक्तिकरण के लिए आवाज उठाना है
लोगों में इसके प्रति जागरूकता फैलाना है
नारी सशक्तिकरण के प्रचलन को आगे बढ़ाते रहना ह
हमें नारी सशक्तिकरण के प्रचलन को आगे बढ़ाते रहना है

Everything Mom

How did you find the energy, Mom
To do all the things you did,
To be teacher, nurse and counselor
To me, when I was a kid.

How did you do it all, Mom,
Be a chauffeur, cook and friend,
Yet find time to be a playmate,
I just can't comprehend.

I see now it was love, Mom
That made you come whenever I'd call,
Your inexhaustible love, Mom
And I thank you for it all.

Aishwarya

Dreams

Hold fast to dreams
For if dreams die
Life is a broken-winged bird
That cannot fly.

Hold fast to dreams
For when dreams go
Life is a barren field
Frozen with snow.

Langston Hughes

FAILURES ARE THE PILLARS OF SUCCESS

As the old saying goes, one must not give up; keep fighting till the end. Likewise, only when somebody pursues victory tirelessly, they stand to win at some point in their lives. Everybody does not achieve success for the simple fact that they give up quickly. Just when victory was lying in wait, they stopped moving.

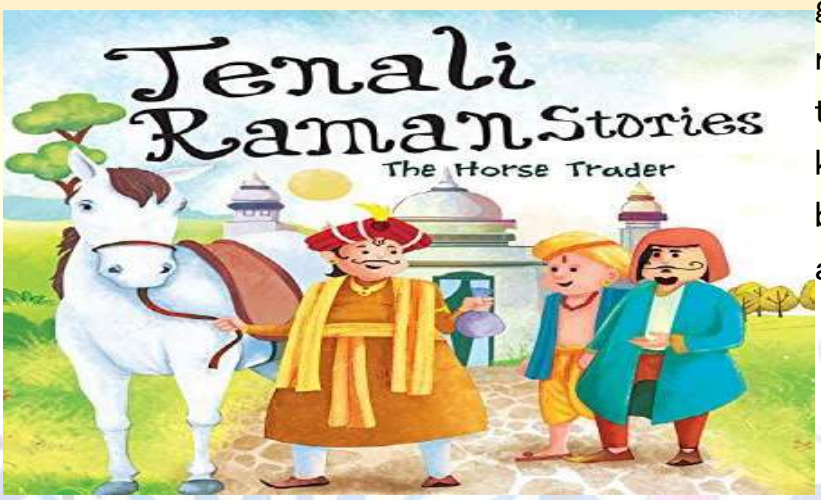

The road to success is a narrow path that is not often taken by many. One must take challenges head–on to achieve the desired result. Long Essays on Failures Are the Pillars of SuccessFailures teach us the best lessons in life. One cannot deny the fact that life is indeed a slow struggle. At times, one wonders if they can make it until the next day or not. In this essay on failure is the pillar of success; one learns that life gives a taste of both failures and success.

A man cannot always be successful in life, and none have achieved it so far. That is because failures tend to attack when nobody expects it in different forms. It can be in the form of financial or medical issues. Even successful men tend to fail after succeeding immensely in life. One must understand that failures highlight the drawbacks in the preparation. It is like a student appearing for an exam and scoring bad marks. Perhaps, his preparation was not adequate.

There is no crime in making mistakes, but not learning from them, it certainly is. Even if one has failed several times, there is no harm in giving it another try. The story of KFC is often heard about. The true story is about the constant failures and struggles of Colonel Harland Sanders. But in the end, he is determined after failing more than 1000 times. He finally succeeds at the age of 65, which is considered retirement for many people. He did not feel bad when more than 1000 people rejected his recipe. Instead, he believed in his recipe and himself.

Faith and belief in oneself also help one to succeed. It just goes to show what determination, dedication, and ambition can do. Failures give another opportunity to come back with more vigor, energy, and preparation. In the paragraph on failures are the pillars of success, one can read about the likes of Abraham Lincoln and Steve Jobs. They carved their niche in the

world. Abraham Lincoln lost several elections disastrously. Even his people gave up on him. He never let failure get the better of him and kept coming back strongly and fighting

courageously. Steve Jobs, on the other hand, was removed from the company he founded.

TENALI RAMA AND THE TRADER

King Krishnadevaraya loved horses and had a collection of some of the best breed of horses in his stable. Once a horse trader from Arabia came to the court of Krishnadevaraya and told him that he had some very good breed of Arabian horses for sale. He invited the King to see the horse that he had brought with him and told him that if he liked it, he would send for the other horses too.

The King loved the horse and told him that he would like all his horses. The King paid him 5000 gold coins as an advance, and the trader promised that he would return with the other horses in 2 days before leaving.

Two days passed by, then two weeks and still, the trader did not return. The King got more and more anxious. One evening, to relax his mind, he went to take a stroll in the garden. There he saw Tenali Raman writing down something on a paper. The King went up to him and asked what he

Don't Quit

When things go wrong, as they sometimes will,
When the road you're trudging seems all uphill,
When the funds are low and the debts are high,
And you want to smile, but you have to sigh,
When care is pressing you down a bit,
Rest, if you must, but don't you quit.

Life is queer with its twists and turns,
As every one of us sometimes learns,
And many a failure turns about,
When he might have won had he stuck it out;
Don't give up though the pace seems slow--
You may succeed with another blow.

Often the goal is nearer than,
It seems to a faint and faltering man,
Often the struggler has given up,
When he might have captured the victor's cup,
And he learned too late when the night slipped down,
How close he was to the golden crown.

Success is failure turned inside out--
The silver tint of the clouds of doubt,
And you never can tell how close you are,
It may be near when it seems so far,
So stick to the fight when you're hardest hit--
It's when things seem worst that you must not quit.

- Author unknown

THE PARTS OF SPEECH

Every name is called a **NOUN**,
As field and fountain, street and town;

In place of noun the **PRONOUN** stands
As he and she can clap their hands;

The **ADJECTIVE** describes a thing,
As magic wand and shiny ring;

The **VERB** means action, something done -
To read, to write, to jump, to run;

How things are done, the **ADVERBS** tell,
As quickly, slowly, badly, well;

The **PREPOSITION** shows relation,
As in the street, or at the station;

CONJUNCTIONS join, in many ways,
Sentences, words, or phrase and phrase;

The **INTERJECTION** cries out, 'Hark!
I need an exclamation mark!'

Through poetry, we learn how each
of these make up **THE PARTS OF SPEECH.**

10 LINES ON HEALTH

1) Good health is very important for the social, economic and personal development of a person.
2) A person is healthy if he is physically and mentally fit without any ailments.
3) Diet, Exercise and Sleep are the three pillars of a healthy body and mind.
4) The immune system helps in fighting the toxins and virus attacks so that the body can quickly recover from diseases.
5) The increase in the pollution level and adulteration in the food items have adversely affected our health weakening our immune system.
6) The hectic lifestyle and junk foods have given rise to obesity, stress and heart problems.
7) Alcohol, tobacco, drugs, smoking, etc. are very dangerous for the health leading to cancer and deaths.
8) A simple and controlled lifestyle with a balanced diet and routine exercise helps to attain good health.
9) Ten minutes of daily meditation helps to fight stress, reduce anxiety and helps to relax your mind.
10) Maintaining good health is the key to success and brings positivity in life, which in turn leads to longevity.

EXAMS

Exams begin today,
let's kick it off with a great start,
It's our chance and opportunity,
to show off our great smarts.
We've been focussing and studying,
really, really hard,
We've even been catching some rays,
studying in our backyards.
Once exams are over,
we will be free,
And we'll continue to spread,
our positivity.

During the twilight
Let it be dust or dawn
I found myself
All alone and alone and alone
Counting the stars in the sky
I had tears don't know why
It's all silences around me
Life and death mares round me
I saw sky touching the earth
A new ray of hope taking the birth
There wonderful colours glimpse
on my spectacles
I saw the sunlight in the Pentacles
The ray jewelled my internal soul
Where I found, I myself console
It was just far a moment and
Again it was dawn
Again I had tears... and
All I was alone & alone... alone
