Deputy Commissioner's Message

It is a matter of great pleasure that Kendriya Vidyalaya Regional Office, Ranchi is bringing out its Newsletter. A newsletter is one of the media through which children express their creative genius. I firmly believe that the tiny-tots of our Vidyalayas are very talented and this Newsletter will be helpful in highlighting their potential. Nowadays it is believed that children's life at school must be linked to their life outside the school. Each and every student is expected to expand the horizon of her/his learning by acquiring new skills or hone up the skills already with her/him through curricular and co-curricular activities in order to prepare herself/himself for the practical life. I am convinced that the dedicated team of teachers under the guidance of the principals and parents is facilitating the learning process of our precious little kids and extending all help to make them realize their potential. I complement young minds who have contributed so enthusiastically for this lively publication and also to the members of the staff and principals for this very positive effort to bring out the best from their students. I convey my appreciation to students, teachers, and the editorial team and wish them all success for their all endeavors.

D.P. PATEL
(Deputy Commissioner)
Kendriya Vidyalaya Sangathan
Regional Office, Ranchi Region

Message

It is a matter of great pleasure that Kendriya Vidyalaya Sangathan, Ranchi Region is bringing out its Newsletter. Greater than the pleasure is the sense of pride and gratification that the opportunity to prepare the newsletter came to KV No. 1 HEC Ranchi. Newsletters serve as a medium to the students to give vent to their creative urge- which lies within them and which is nourished and nurtured in the Vidyalayas through curricular and co-curricular activities. At the same time it also reflects the various activities which are being conducted in the KVs of Ranchi Region. The students are full of energy & talent. Their potential is manifested via such activities.

The teachers have done a commendable job in motivating the students and guiding them through their work. Being a part of their team gives me an unspeakable lot of joy and pride. I wish them all the success.

ANITA MALIK
(Principal & Co-ordinator
Regional Level Newsletter)
