

PM SHRI KV Tibri Cantt, Gurdaspur

COMMUNITY PARTICIPATION

Community participation in education helps to identify issues and problems in school education. School is part of community and community supports school to quality education to every student for the development of the society. Community participation and involvement follows at first ,the community should have an access to be in the school ,learn about the school and observe what goes on in school. Second step would be to make community aware of the situation and make them realize the importance of their involvement in schools where there children are receiving education. PM SHRI KV Tibri Cantt Gurdaspur conducted various community participation activities like Grand Parent Day Celebration, Vidyalaya Parvesh etc
