

Report on workshop on national curriculum framework- Part A

DATE: 5/10/24

A Workshop held on 5/10/24 on the National Curriculum Framework (NCF-Part A) in junior computer lab. It aimed to engage educators and stakeholders in discussion about the framework objectives, implementation strategies and anticipated impacts on the educational landscape. The session was taken by respected Principal Sir, Shri Anchal Saxena.

Objectives

1. To familiarize the teachers with the key components of the NCF
2. to discuss the alignment of the NCF with the current educational needs and trends.
3. To explore implementation strategies and address the challenges faced by the educators

Key Highlights

1. Presentation on the principles and vision of the NCF
2. emphasis on student centered learning, competency based education ,capacity building and integration of interdisciplinary approaches
3. Participants (teachers) engaged in group discussion focusing on specific subjects and grade level, exploring innovative teaching methods and assessment techniques.
4. After the session a quiz was also conducted through Google form

Conclusion

The workshop provided a valuable platform for all the teachers to collaborate on the National curriculum Framework. The discussion was constructive and focused on aligning educational practices with the framework's objectives
