

PM SHRI KENDRIYA VIDYALAYA NO 2 INF LINE, JAMNAGAR

Bagless Day Program

Under NEP 2020, our school is excited to introduce "Bagless Day" for students of classes 6 to 8. This unique initiative aims to move beyond traditional academics, providing hands-on learning in practical skills that foster creativity, curiosity, and holistic development. On Bagless Days, students leave their books at home and immerse themselves in skill-based activities designed to develop real-world competencies and discover new interests.

Students can explore diverse fields, including gardening, which teaches them about nature and sustainability, and health care, providing basic first aid knowledge. Physical education and yoga sessions promote fitness, mental well-being, and mindfulness. The program also introduces artificial intelligence in a simple, engaging way, opening doors to futuristic thinking. For the creatively inclined, art and craft and music classes allow self-expression through various mediums. Finally, electric and electronic work sessions offer foundational skills in circuitry and hands-on knowledge of basic tools and electrical equipment.

By engaging in these seven skill areas, students develop a balanced blend of practical knowledge, physical fitness, and creativity. Bagless Day embodies the spirit of NEP 2020, fostering well-rounded growth and ensuring education goes beyond textbooks to help students thrive in a dynamic world.
