

WORKSHOPS

“THE KEY TO SUCCESS IS TO FOCUS ON GOALS, NOT OBSTACLES“

Employees training programs help improve the knowledge and skills of employees to match the various changes. These improvements will positively affect the efficiency of the employees. A workshop helps to update, upgrade and helps to develop skills such as communication, problem solving and decision making.

In order to develop the employees various workshops were conducted at regional level and at school level.

Workshops conducted at Regional level:

Workshop on content enrichment and capacity building development programme for post graduate teachers
