

## Building and Bala Initiatives

Beautification is the process of enhancing the aesthetic and functional aspects of educational institutions, has emerged as a transformative tool that goes beyond mere appearance. In fact, improving the quality of a school's campus can have a significant impact on enrolment, student happiness, and even academic performance.

Building decoration is not depends only on wall painting. We can also decorate it through quotations and pot painting .

Bala scheme is an innovative concept towards qualitative improvement in education, through developing child-friendly, learning and fun based physical environment building in school infrastructure. Building as learning aid is about maximising the learning value of the school space. under bala project wall of primary section painted with the concept of transport where air ,land and water transport have shown , In underwater scene where we have shown all the variety of water animals.

We have also shown the shapes, vegetables and fruits on the wall of class 1. we have also painted the water cycle in primary.
