United for Health and Harmony

International Yoga Day:

Every year, 21 June is observed as International Yoga Day, inspiring people worldwide to embrace yoga as a way of life. Our students enthusiastically participated in a special yoga session, performing various asanas and breathing exercises under expert guidance. The event encouraged discipline, mindfulness, and physical fitness while promoting the importance of a healthy lifestyle. Yoga is more than a form of exercise—it nurtures mental clarity, emotional balance, and inner peace.

Through collective participation, students experienced the values of concentration, self-confidence, and harmony with nature. The celebration reinforced the message that regular yoga practice strengthens both body and mind, helping individuals lead healthier, happier, and more productive lives. Together, our school community celebrated the timeless wisdom of yoga and reaffirmed its commitment to holistic education and well-being.
